the orthodox history of American police and in predominating critical theories of police That orthodoxy rests on an origin story that begins with Sir Robert Peel and the London Metropolitan Police Service Predating the Met by more than a century America's first police often called slave patrols did more than maintain order it fabricated a racial order Prior to their creation all white citizens were conscripted to police all Blacks Their participation in the coercive control of Blacks gave definition to their whiteness Targeted as threats to the security of the economy and white society being policed defined Blacks who for the first time were treated as a single racial group The boundaries of whiteness were first established on the basis of who was required to regulate slaves given a specific mandate to prevent Black insurrection a mandate that remains core to the police role to this day

Campbell,1991-08-01 Winner of the Coral Horton Tullis Summerfield G Roberts and Friends of the Dallas Public Library Awards Because Texas emerged from the western frontier relatively late in the formation of the antebellum nation it is frequently and incorrectly perceived as fundamentally western in its political and social orientation In fact most of the settlers of this area were emigrants from the South and many of these people brought with them their slaves and all aspects of slavery as it had matured in their native states In An Empire for Slavery Randolph B Campbell examines slavery in the antebellum South s newest state and reveals how significant slavery was to the history of Texas The peculiar institution was perhaps the most important factor in determining the economic development and ideological orientation of the state in the years leading to the Civil War
