

A detailed reconstruction of a prehistoric swampy landscape. In the foreground, a large, dark-colored amphibian with a lighter, patterned back is wading through shallow, murky water. The shoreline is sandy and covered with dense, low-lying vegetation. Behind the water, a thick forest of various plants dominates the midground, including large ferns and seed ferns. In the background, tall, slender trees with palm-like fronds rise against a blue sky with scattered white clouds. The overall scene depicts a lush, wetland environment from the Carboniferous period.
