The Moral Psychology of Sadness

Anna Gotlib, 2017-11-30 What does it mean to be sad What difference does it make whether how and why we experience our own and other people s sadness Is sadness always appropriate and can it be a way of seeing more clearly into ourselves and others In this volume a multi disciplinary team of scholars from fields including philosophy women s and gender studies bioethics and public health and neuroscience addresses these and other questions related to this nearly universal emotion that all of us experience and that some of us dread Somewhat surprisingly sadness has been largely ignored by philosophers and others within the humanities or else under theorized as a subject worthy of serious and careful attention This volume reverses this trend presenting sadness as not merely a feeling or affect but an emotion of great moral significance that in important ways underwrites how we understand ourselves and each other
