Thompson,Leila Zakhirova,2019 In the international political economy of the last two millennia there tends to be one state leading the world as the foremost producer of energy and new technology In *Racing to the Top* William R Thompson and Leila Zakhirova argue that the US and China like previous leading countries rely on energy transition or the development of alternative energy in order to make new technology relatively inexpensive to develop and to fuel While the US has historically held the lead its edge in the global energy economy appears to be eroding and as energy leadership diminishes so does the country s position in world politics Thompson and Zakhirova take a long view in order to show what will be necessary for a new power to emerge as the system leader then map a path forward for energy policy Informed by a deep knowledge of world history political economy and environmental technology this book is the first complete overview of energy transitions over the past thousand years The People's History of the World: Races Edward Sylvester Ellis,1902 **British India, Its Races and Its History Considered with Reference to the Mutinies of 1857** John Malcolm Forbes Ludlow,1858 *"The" War of Races in Hungary .....* Boyen,1851 **The Races of Europe** Richard McMahon,2016-11-15 This book explores a vital but neglected chapter in the

histories of nationalism racism and science It is the first comprehensive study of the transnational scientific community that in the nineteenth and early twentieth centuries attempted to classify Europe s biological races Anthropological race classifiers produced parallel geographies histories and hierarchies of European peoples that were crucial to the creation of national identities and to the overtly political race discourses of eugenics and popular racist ideologues They lent nationalism the invaluable prestige of natural science and traced the histories conflicts and relationships of national races back into prehistory Racial national character stereotypes meanwhile supported competing political ideologies The book examines the interplay between class gender and national identity narratives and the tensions and interactions between the scientific and political agendas of classifiers Within the elaborate transnational networks of scientific communities for example they had to reconcile competing national narratives

**The Texas Rangers** Mike Cox,2024-05-01 A lively enlightening history of one of the oldest most esteemed law enforcement agencies in America Booklist Starting in 1821 with just a handful of men the Rangers first purpose was to keep settlers safe from the feared and gruesome Karankawa Indians a cannibalistic tribe that wandered the Texas territory As the influx of settlers grew the attacks increased and it became clear that a much larger better trained force was necessary From their tumultuous beginning to their decades of fighting outlaws Comanche Mexican soldados and banditos as well as Union soldiers the Texas Rangers became one of the fiercest law enforcement groups in America In a land as spread out and sparsely populated as the west itself the Rangers had unique law enforcement responsibilities and challenges The story of the Texas Rangers is as controversial as it is heroic Often accused of vigilante style racism and murder they enforced the law with a heavy hand But above all they were perhaps the defining force for the stabilization and the creation of Texas From Stephen Austin in the early days through the Civil War the first eighty years of the Texas Rangers is nothing less than phenomenal setting the foundation for the Texas Rangers that keep Texas safe today Richly detailed This modern masterpiece does full justice to both the reality and the myth of the Texas Rangers a great organization of which I was honored to be a part for 27 years Joaquin Jackson Texas Ranger Ret author of One Ranger A Memoir
