Rodeo Susan Nance, 2020-04-23 What would rodeo look like if we took it as a record not of human triumph and resilience but of human imperfection and stubbornness asks animal historian Susan Nance Against the backdrop of the larger histories of ranching cattle horses and the environment in the West this book explores how the evolution of rodeo has reflected rural western beliefs and assumptions about the natural world that have led to environmental crises and served the beef empire By unearthing behind the scenes stories of rodeo animals as diverse individuals this book lays bare contradictions within rodeo and the rural West For almost 150 years westerners have used rodeo to symbolically reenact their struggles with animals and the land as uniformly progressive and triumphant Nance upends that view with accounts of individual animals that reveal how diligently rodeo people have worked to make livestock into surrogates for the trials of rural life in the West and the violence in its history Western horses and cattle were more than just props Rodeo reclaims their lived history through compelling stories of anonymous roping steers and calves who inspired reform of the sport such as the famed but abused buckner Steamboat and the many broncs and bulls famous or not who unknowingly built an industry Rodeo is a dangerous sport that reveals many westerners as people proudly tolerant of risk and violence and ready to impose these values on livestock In Rodeo An Animal History Nance pushes past standard histories and the sport's publicity to show how rodeo was shot through with stubbornness and human failing as much as fortitude and community spirit

Cattle Kingdom Edward Brado, 2004 One of the most colourful chapters in the history of North American settlement began in the 1880s when the rich Alberta grasslands spreading east from the foothills of the Rockies became the magnet for cattle ranching Award winning Cattle Kingdom provides readers with all the colourful tales of raffish characters political intrigues and partnerships fortunes made and lost

and the harsh realities of prairie winters The era also gave us the mythic figure of the cowboy still prominent in Alberta today Nowhere is the story of ranching more rich and varied than in Alberta There was an assortment of high rollers big money men from the east English lords and remittance men along with refugees from the American west and ordinary folk seeking a homestead and a new dream The newly formed North West Mounted Police was on hand as well Famous ranches were created during this period including the Cochrane the Oxley and the North West Cattle Company Bar U The cast of characters included John Ware the brave and foolhardy Major General Thomas Bland Strange who had plans for a ranch for retired British army types and the scrappy Pat Burns who parlayed a small slaughterhouse in Calgary into a giant meat packing and cattle empire By the time of the first Calgary Stampede in 1912 the cattle kingdom was on the wane More and more settlers arrived and began fencing and farming the once limitless grazing lands And then came the discovery of oil But during its brief and brilliant season in the sun early ranching in Alberta put an indelible stamp on the history and culture of the Canadian west

Metis Pioneers Doris Jeanne MacKinnon, 2018-02-08 In *Metis Pioneers* Doris Jeanne MacKinnon compares the survival strategies of two Metis women born during the fur trade one from the French speaking free trade tradition and one from the English speaking Hudson's Bay Company tradition who settled in southern Alberta as the Canadian West transitioned to a sedentary agricultural and industrial economy MacKinnon provides rare insight into their lives demonstrating the contributions Metis women made to the building of the Prairie West This is a compelling tale of two women's acts of quiet resistance in the final days of the British Empire

Ranching under the Arch D. Larraine Andrews, 2019-05-21 A visually rich historically epic tale of cattle ranching in southern Alberta focusing on multi generational family owned ranches that are still in existence today In the 1880s a group of fledgling cattle ranchers descended on the plains of southern Alberta They were drawn by the promise of the West where the grass seemed endless and they could ranch under the arch of the Chinook the warm Pacific wind that swooped down the eastern slopes of the Rockies to melt the snow and clear the land for year round grazing They came with wild optimism but their ambition was soon tempered by the brutal reality of a frontier land *Ranching under the Arch* is a tale of survival perseverance and prosperity in the face of struggle loss and loneliness Following over a dozen ranches still in operation that have roots dating to the late nineteenth century historian D Larraine Andrews recounts the culture that developed around this unique vocation These ranches have endured as vibrant enterprises sometimes into the fifth generation of the same family sometimes with new faces and dreams to change the focus of the narrative Drawing from historical archives diaries and personal accounts and illustrated by informative maps fascinating archival imagery and stunning contemporary photography *Ranching under the Arch* is an epic portrait of the Cattle Kingdom and its place in Alberta history

Standing on New Ground Catherine Anne Cavanaugh, Catherine Cavanaugh, Randi Warne, 1993 No description

Frontier Cowboys and the Great Divide Ken Mather, 2013 Despite being neighbouring provinces with long ranching histories British Columbia and Alberta saw their

ranching techniques develop quite differently As most ranching styles were based on one of the two dominant styles in use south of the border BC ranchers tended to adopt the California style whereas Alberta took its lead from Texas But the different practices actually go back much further Cattle cultures in southwestern Spain sub Saharan Africa and the British highlands all shaped the basis of North American ranching Digging deep into the origins of cowboy culture Ken Mather tells the stories of men and women on the ranching frontiers of British Columbia and Alberta and reveals little known details that help us understand the beginnings of ranching in these two provinces *The Promised Land* Pierre Berton,2011-08-10 After the pioneers described in *The National Dream* The Last Spike and Klondike came the settlers a million people who filled a thousand miles of prairie in a single generation **Agricultural History** Gregory P. Colour-Coded Constance Backhouse,1999-11-20 Historically Canadians have considered themselves to be more or less free of racial prejudice Although this conception has been challenged in recent years it has not been completely dispelled In *Colour Coded* Constance Backhouse illustrates the tenacious hold that white supremacy had on our legal system in the first half of this century and underscores the damaging legacy of inequality that continues today Backhouse presents detailed narratives of six court cases each giving evidence of blatant racism created and enforced through law The cases focus on Aboriginal Inuit Chinese Canadian and African Canadian individuals taking us from the criminal prosecution of traditional Aboriginal dance to the trial of members of the Ku Klux Klan of Canada From thousands of possibilities Backhouse has selected studies that constitute central moments in the legal history of race in Canada Her selection also considers a wide range of legal forums including administrative rulings by municipal councils criminal trials before police magistrates and criminal and civil cases heard by the highest courts in the provinces and by the Supreme Court of Canada The extensive and detailed documentation presented here leaves no doubt that the Canadian legal system played a dominant role in creating and preserving racial discrimination A central message of this book is that racism is deeply embedded in Canadian history despite Canada's reputation as a raceless society Winner of the Joseph Brant Award presented by the Ontario Historical Society
