Frontier Farmer:

The American Farmer United States. Department of Agriculture. Economic Research Service, 1976 *Farm Index*, 1974 **Frontier Farmer** Catherine E. Chambers, 1999-04 When Matt's father dies in 1881 he and his mother decide to stay on their Kansas homestead despite the perils of life on that frontier **Landlords and Farmers in the Hudson-Mohawk Region, 1790-1850** David Maldwyn Ellis, 2018-10-18 The transition from a predominantly self-sufficient economy to one primarily dependent on the market in the first half of the nineteenth century was to effect changes in the United States fully as far-reaching if not as spectacular as those accompanying the industrial revolution Farming as a way of life was yielding place to the concept of farming as a means of profit Few farmers in the country felt the impact of these revolutionary forces more directly than those of eastern New York State Indeed discontent over these changes contributed to the violent Anti Rent War 1839-1846 centered in the Catskills How New York farmers met these challenges is the central theme of *Landlords and Farmers in the Hudson Mohawk Region 1790-1850* Focusing on twenty-one counties in eastern New York David Maldwyn Ellis describes the process of settlement the growth of population and the characteristics of pioneer agriculture traces the rapid shifts from grain culture to sheep raising and dairying and points out the variety of individual and local adjustments caused by differences in soil topography accessibility to market cultural legacies and individual enterprise Ellis also contrasts the forces leading to rural decline with the beginnings of scientific husbandry and agricultural education evaluates the role of roads canals and railroads and outlines the land pattern and the effect of leasehold upon the region's agrarian development In short this classic work of American agricultural history and the history of New York State originally published by Cornell in 1946 chronicles the transformation of the pioneer farmer into the dairyman *Farmer's World*, 1964 **Red Lodge and the Mythic West** Bonnie Christensen, 2002 Tracing the story of Red Lodge from the 1880s to the present Christensen tells how a mining town managed to endure the vagaries of the West's unpredictable extractive industries economy She connects Red Lodge to a myriad of larger events and historical forces to show how national and regional influences have contributed to the development of local identities exploring how and why westerners first rejected and then embraced western images and how ethnicity wilderness and historic preservation became part of the identity that defined one town **BOOK JACKET** *States of Division* Sagi Schaefer, 2014 *States of Division* analyses the division of Germany and the development of the Iron Curtain during the four and a half decades of the Cold War The centerpiece of this global fault line was the thousand-mile-long border dividing Germany into West and East This long border traversed primarily rural peripheries and the development of division along it entailed protracted processes of social and cultural demarcation Unlike the Berlin Wall which sprang up overnight in the urban enclave under watchful eyes of Soviet and Western armies the inter-German border evolved slowly through interactions between frontier residents and various state agencies The division of Germany and of the world emerged through conflicts between everyday practices economic necessities policies of German

and foreign governments and their ability to push these policies through The division of Germany was a multi faceted process which progressed slowly and unevenly States of Division demonstrates that along with the crucial context of the Cold War multiple historical and social frameworks are required to decipher division and explain how and where it took place Dividing a modern integrated society along a thousand mile border was not planned or intended by the allies and at no stage was agreed upon by East and West German authorities It gave rise to contradictions and conflicts with practice and tradition undermining economy and culture in the borderlands and required protracted negotiations and considerable resources It was not a fait accompli of Yalta or Potsdam nor was it completed with the construction of the Berlin Wall in 1961 German division only stabilized as a sociopolitical fact through the inter German compromise of the 1970s which also planted the seeds of its undoing Integrating local regional and national perspectives this volume tells a complex story showing how diplomacy and policy affected daily practices and were affected by them *A Free Farmer in a Free State* John William Robertson Scott,1912

Safeguarding Livestock Diversity,2006-01-01 **The Dimensions of Quantitative Research in History** William O. Aydelotte,Robert William Fogel,Allan G. Bogue,2015-03-08 Nine papers consider problems in American French and British history that range from economic history to political behavior and social structure Originally published in 1972 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *The Populist Vision* Charles Postel,2007-05-29 Publisher description

series bring the history of everyday people to life *Problem Economics* Dexter Merriam Keezer, Addison Thayer Cutler, Frank Richardson Garfield, 1928 Land Use, Environment, and Social Change Richard White, 2000-12-01 Whidbey and Camano two of the largest of the numerous beautiful islands dotting Puget Sound together form the major part of Island Country Taking this county as a case study and following its history from Indian times to the present Richard White explores the complex relationship between human induced environmental change and social change This new edition of his classic study includes a new preface by the author and a foreword by William Cronon Colonial Africa A. J. Christopher, 2023-05-03 There have been few more remarkable events than the European colonisation and decolonisation of Africa Often within a single lifespan countries were conquered reorganised settled and then granted independence Colonial Africa 1984 examines the impact this had on the landscape of Africa The period of colonial contact between Europe and Africa had been lengthy beginning in the early fifteenth century yet for much of the continent the colonial period was relatively short from the 1880s to the 1960s European intervention in the nineteenth century was motivated by new demands of the European economy resulting in the conquest of virtually the entire continent As a result various groups of colonists arrived in Africa and each tried to impose a particular imprint upon the landscape The colonial powers each had their own styles which are most evident in the architecture bequeathed to independent Africa This is a clear account of the way that historical attitudes have dictated the appearance and geography of modern Africa Our Common Country Susan Sessions Rugh, 2001 It features a major political conflict at each stage of market expansion the Mormon troubles the Civil War and the Grange protest to highlight the transformations that took place Jacket Defending the Social Licence of Farming Paul Martin, Jacqueline Williams, 2011-11-04 Issues including climate variability water scarcity animal welfare and declining biodiversity have led to increasing demands on farmers to conduct and communicate their farming practices so as to protect their social licence to farm Farmers are increasingly expected to demonstrate their social and environmental responsibility as a pre condition to being allowed to carry out their preferred farming and commercial practices Current examples include the live animal export trade battles over protection of aquifers from mining and contests over rural carbon emissions In Defending the Social Licence of Farming authors from Australia the USA Europe and Iceland document the diverse issues associated with the social licence to farm They provide examples of different sectors strategies and experiences and give specific indications of what is involved in coping successfully with this political and legal dimension of farming As resources become scarce and society s expectations more diverse and demanding farming can expect that social licence issues will become both more difficult and more important The book suggests that the old models of response largely focused on defensive positions will often be insufficient to protect the interests of both farmers and the community This book will provide a useful stimulus for innovation and proactive policies to defend the social licence of the farm sector *Uncertainty, Production, Choice, and Agency* Robert G. Chambers, John Quiggin, 2000-09-18 This book presents a justification of the state

contingent approach to the economics of uncertainty Farmer's Advocate and Home Journal ,1910 *This Violent Empire*
Carroll Smith-Rosenberg,2012-12-01 This Violent Empire traces the origins of American violence racism and paranoia to the founding moments of the new nation and the initial instability of Americans national sense of self Fusing cultural and political analyses to create a new form of political history Carroll Smith Rosenberg explores the ways the founding generation lacking a common history governmental infrastructures and shared culture solidified their national sense of self by imagining a series of Others African Americans Native Americans women the propertyless whose differences from European American male founders overshadowed the differences that divided those founders These Others dangerous and polluting had to be excluded from the European American body politic Feared but also desired they refused to be marginalized incurring increasingly enraged enactments of their political and social exclusion that shaped our long history of racism xenophobia and sexism Close readings of political rhetoric during the Constitutional debates reveal the genesis of this long history
