Social Science Under Debate Mario Bunge,1999-01-01 Bunge contends that social science research has fallen prey to a postmodern fascination with irrationalism and relativism He urges social scientists to re examine the philosophy and the methodology at the base of their discipline

The New Social Studies Barbara Slater Stern,2009-11-01 This volume The New Social Studies People Projects and Perspectives is not an attempt to be the comprehensive book on the era Given the sheer number of projects that task would be impossible However the current lack of knowledge about the politics people and projects of the NSS is unfortunate as it often appears that new scholars are reinventing the wheel due to their lack of knowledge about the history of the social studies field The goal of this book then is to sample the projects and individuals involved with the New Social Studies NSS in an attempt to provide an understanding of what came before and to suggest guidance to those concerned with social studies reform in the future especially in light of the standardization of curriculum and assessment currently underway in many states The authors who contributed to this project were recruited with several goals in mind including a broad range of ages interests and experiences with the NSS from participants during the NSS era through new young scholars who had never heard much about the NSS As many of the authors remind us in their chapters much has been written of the failure of the NSS However in every chapter of this book

the authors also point out the remnants of the projects that remain

Handbook of Research in Social Studies Education Linda S. Levstik, Cynthia A. Tyson, 2010-04-15 This Handbook outlines the current state of research in social studies education a complex dynamic challenging field with competing perspectives about appropriate goals and on going conflict over the content of the curriculum Equally important it encourages new research in order to advance the field and foster civic competence long maintained by advocates for the social studies as a fundamental goal In considering how to organize the Handbook the editors searched out definitions of social studies statements of purpose and themes that linked or divided theory research and practices and established criteria for topics to include Each chapter meets one or more of these criteria research activity since the last Handbook that warrants a new analysis topics representing a major emphasis in the NCSS standards and topics reflecting an emerging or reemerging field within the social studies The volume is organized around seven themes Change and Continuity in Social Studies Civic Competence in Pluralist Democracies Social Justice and the Social Studies Assessment and Accountability Teaching and Learning in the Disciplines Information Ecologies Technology in the Social Studies Teacher Preparation and Development The Handbook of Research in Social Studies is a must have resource for all beginning and experienced researchers in the field

Cognitive and Instructional Processes in History and the Social Sciences Mario Carretero, James F. Voss, 2012-12-06 This volume is a direct result of an international conference that brought together a number of scholars from Europe and the United States to discuss their ideas and research about cognitive and instructional processes in history and the social sciences As such it fills a major gap in the study of how people learn and reason in the context of particular subject matter domains and how instruction can be improved in order to facilitate better learning and reasoning Previous cognitive work on subject matter learning has been focused primarily upon mathematics and physics the present effort provides the first such venture examining the history and social science domains from a cognitive perspective The different sections of the book cover topics related to comprehension learning and instruction of history and the social sciences including the development of some social sciences concepts the teaching of social sciences problems and questions arising from this cognitive perspective of learning the comprehension and learning from historical texts how people and students understand historical causality and provide explanations of historical events and the deduction processes involved in reasoning about social sciences contents This volume will be useful for primary and secondary school teachers and for cognitive and instructional researchers interested in problem solving and reasoning text comprehension domain specific knowledge acquisition and concept development

The Foundations of Social Science James Mickel Williams, 1920

Economics and the Social Sciences Stavros Ioannides, Klaus Nielsen, 2007-01-01 This book is based on the premise that mainstream economics has become excessively specialized and formalized entering a state of de facto withdrawal from the study of the economy in favour of exercises in applied mathematics The editors believe that there is much scope for synergies by engaging in an encounter with economics and the

other social sciences The chapters in this book offer important new contributions to such a development A select group of highly regarded contributors illustrate the potentially enlightening relationship between economics and a wide range of social science disciplines In addition some important concepts for economic analysis for example the notion of routines of social capital and of flexibility are explored from the vantage point of several social sciences Postgraduate students in most social science disciplines and in economic sociology will find much to interest them in this book as will students of psychology and economics
