 ,1999 **Business Strategy in the Online Industry** Christian Götsch,2012-12-06 The Internet is like a 201 00t tidal wave  
 coming thousands of miles across the Pacific and we are in kayaks Andi Grove In the course of the commercial distribution of  
 Internet technology since the year 1995 new business models emerged and ultimately established the on line industry as a  
 distinct economic environment The author defines this new marketplace as a multi layered industry consisting of five main  
 layers network hosting software content and devices Each layer consists of sub layers Players from the converging industries  
 telecommunications computer hardware software media and consumer electronics conduct on line business units offering a  
 set of on line services S 17 Significance and growth of the on line industry are enormous The market for multimedia products  
 and services represents approximately 10% of the US GOP already today The industry volume is expected to double every 12  
 to 18 months The increasing relevance of the on line industry is driving the interest of academia in a theoretical foundation of  
 the observed economic phenomena The term network economics establishes a new scientific area Due to the specific  
 structure and logic of the industry traditional business concepts and strategy approaches can be translated only in a limited  
 way At this point the work of Christian Götsch comes in play which by utilizing the theoretical concepts of network  
 economics and game theory models the structure of the on line industry and delivers a methodic set of instruments to  
 develop marketing strategies British Book News British Council,1987 Includes no 53a British wartime books for young
