**50 Years Of Social Issues In Singapore** David Chan, 2015-04-15 The social context of Singapore is changing rapidly and understanding how people think feel and behave in various situations has become a key driver of effectiveness in addressing social issues 50 Years of Social Issues in Singapore provides a comprehensive review and examination of various social issues at multiple levels of analysis including the individual group and society This invaluable book adopts a translational approach to social issues in Singapore by explicitly bridging intellectual and practical perspectives Contributed by a distinguished team of authors the chapters examine the critical ideas underlying public debates of social issues and their policy and practical implications The book is organized into three parts Part I examines issues of population and social fundamentals in Singapore such as ageing marriage urban planning healthcare and racial and religious harmony Part II analyses Singapore's social progress through issues of inclusivity such as social mobility developing communities and marginal groups that deserve more attention Part III focuses on core principles and social processes related to social justice doing good social media and approaches to understanding and addressing social issues in Singapore Most importantly the chapters in this book clearly identify many of the critical unresolved and emerging questions on various social issues that will guide the next generation of public discussion and policy deliberations on what matter in Singapore Economic Diplomacy

Chin L. Lim, Margaret Liang, 2011 Singapore a small country with limited resources has nevertheless played a significant role in regional and global trade negotiations Its negotiators possess a wealth of knowledge and experiences and yet few have told their story This book is a collection of sixteen essays by authors who have been closely involved in trade negotiations including GATT WTO and bilateral free trade agreements They share their experiences in such negotiations how they promoted national interests and advanced the global trade agenda It will appeal to readers who are interested in how international economic diplomacy is conducted and Singapore's role and perspective as an open trading nation

Challenges for the Singapore Economy After the Global Financial Crisis Peter Wilson, 2011 This book is a collection of invited and selected papers from the Singapore Economic Policy Forum 2009 around a central theme Challenges Facing Singapore in the Post Crisis Era and Policy Responses There are very few books on the Singapore economy This one is largely non technical in nature and brings the reader up to speed on the key issues facing policymakers in Singapore in the wake of the worst financial crisis since the Great Depression The contributors are all experts in their field and have extensive experience of the Singapore economy The book also offers an international dimension to look at the role of China in the Asian economy and the impact on Asia of reforms to the international financial architecture The Singapore Economy Hian Teck Hoon, 2021-09-26 Even after achieving the status of a developed economy many economies face other challenges which may include economic stagnation and income inequality The book looks at how a mature economy can continue to weather challenges and how the growth of living standards will depend on productivity growth through Singapore's experience After

Singapore's rapid economic transformation the nation is at a crossroads The book explains how productivity growth in turn depends on technological diffusion from abroad as well as indigenous innovation It also examines how the design of policy to develop indigenous innovation to promote economic dynamism may come with creative destruction and disruptive effects on jobs and wages The Singapore Economy provides insight into how we can maintain social cohesion and establish a political equilibrium that embraces the new sources of growth through policy formulation for economic inclusion Health Rights of Older People Long Thanh Giang, Theresa W. Devasahayam, 2018-04-17 The book examines the health rights of older persons who are more likely potentially to face various disadvantages in terms of healthcare access and affordability thereby impacting on health outcomes The point of departure in the analyses is that the health security of older persons is guaranteed only if a country approaches the health of its citizens out of moral obligation viewing health and well being as a right rather than an entitlement Data from five countries in the ASEAN region are analysed with the intent of highlighting the health inequalities and barriers at the societal and individual levels on the one hand as well as the gaps at the health and healthcare policy and programmatic levels within each country on the other It is also intended that the analyses of the data from the selected countries which represent different stages of development and thus income levels provide a useful comparative framework for policymakers in the ASEAN region **Managing Social Change and Social Policy in Greater China** Ka-Ho Mok, Maggie K. W. Lau, 2013-11-07 East Asia is at the heart of the global economic transformation and the countries of the region are witnessing rapidly changing labour markets alongside the pressure to cut production costs and lower taxes in order to become successful competition states These changes have resulted in increased welfare demands which governments organizations and agencies across the region have had to address This book examines welfare regimes in the Greater China region encompassing mainland China Hong Kong Macao and Taiwan In so doing it explores the ways in which the rapid growth and internationalisation of the economy across Greater China is presenting new social policy challenges that governments social welfare organizations and agencies in the region are having to respond to Rather than simply describing and categorising welfare systems the contributors to this volume add to our understanding of how one of the major economic transformations of the contemporary era in East Asia is shaping welfare provision in the region In turn in this context of economic change they examine the new strategies and measures that have been adopted in order to reduce the heavy burden on the state in terms of welfare provision whilst also attempting to diversify funding and provision sources to meet the pressing welfare needs Based upon extensive fieldwork by leading scholars of social policy this book will appeal to students and scholars of Asian social policy comparative development and social policy social welfare and Chinese studies Econ Social Issues/Sg Pkg Sharp, 1993-12-01 *From Pilgrimage to Package Tour* David L. Gladstone, 2013-01-11 When people in First World countries think of tourists in the vast expanses of the Third World today they typically think of pampered westerners filling up the luxury hotels and imposing their Orientalist gazes on the teeming masses As David

Gladstone shows us in this fascinating and provocative book such preconceptions are wrong Coupling incisive and colorful ethnographic accounts of tourism in India and Mexico with sharp analysis Gladstone demonstrates the amazing complexity of this industry which now comprises close to ten percent of the world economy As he also shows the vast majority of tourists in the Third World are indigenous people with few resources often making pilgrimages to religious shrines From Pilgrimage to Package Tour is a fresh and entirely original account that stands tourism studies on its head and proves that this industry is far more complicated than it initially appears      *Framing the Global Economic Downturn* Paul 't Hart, Karen

Tindall, 2009-09-01 The global economic downturn that followed the collapse of major US financial institutions is no doubt the most significant crisis of our times Its effects on corporate and governmental balance sheets have been devastating as have been its impacts on the employment and well being of tens of millions of citizens It continues to pose major challenges to national policymakers and institutions around the world Managing public uncertainty and anxiety is vital in coping with financial crises This requires not just prompt action but most of all persuasive communication by government leaders At the same time the very occurrence of such crises raises acute questions about the effectiveness and robustness of current government policies and institutions With the stakes being so high defining and interpreting what is going on how and why it happened and what ought to be done now become key questions in the political and policy struggles that crises invariably unleash In this volume we study how heads of government finance ministers and national bank governors in eight countries as well as the EU engage in such framing contests and how their attempts to interpret the cascading events of the economic downturn were publicly received Using systematic content analysis of speeches and media coverage this volume offers a unique comparative assessment of public leadership in times of crisis      [Singapore Unveiled: Volume 2: Insights And Reflections On The Economy And Society In The Lion City](#) World Scientific, 2025-07-04 This volume reflects on the past

Refreshing The Singapore System: Recalibrating Socio-economic Policy For The 21st Century Terence Wai Luen

Ho, 2021-08-13 Singapore's rapid ascent from Third World to First since its independence in 1965 has won it acclaim as an economic miracle. Economic success has been accompanied by impressive achievements in social development as reflected in international rankings of human capital and human development. The city state's achievements are founded on a socio-economic system characterised by low tax rates, flexible labour markets and individual self-reliance with state support centred on social investment in education and public housing. Entering the 21st century, however, slowing economic growth, an ageing population, global competition and widening income dispersion have put the Singapore System under strain. This has prompted a significant refresh of social and economic policies over the past 15-20 years. This book aims to bring the reader up to date on Singapore's socio-economic development in the first two decades of the 21st century. It looks back to the shifts in policy thinking that have accompanied structural changes to Singapore's society and economy, taking stock of the policy innovations aimed at sustaining income growth, economic security and social mobility. It looks around to compare Singapore's approach to those of other countries facing similar challenges, situating Singapore's experience in the wider international discourse on public policy. Finally, it looks ahead to how the Singapore System may evolve in the years to come. **The Riau**

**Islands and Economic Cooperation in the Singapore Indonesian Border Zone** Karen Peachey, Martin Perry, Carl Grundy-Warr, 1998 Singapore 2065: Leading Insights On Economy And Environment From 50 Singapore Icons And Beyond Euston Quah, 2015-07-30 As Singapore enters its 50th year of independence, it is a time for introspection to look back at the successes and challenges of the past, but is also a crucial time to consider what the future holds for the nation. Singapore 2065: Leading Insights on Economy and Environment from 50 Singapore Icons and Beyond is one such key contribution to the endeavour of thinking about what lies ahead. While many forthcoming projects and books take a more retrospective approach, reflecting upon Singapore's past, this book adopts a forward-looking perspective, contemplating Singapore's distant future, which is important for posterity. This book is a collection of key insights from 50 iconic individuals of Singapore and beyond, and contains reasoned arguments, speculations and visionary expectations of Singapore's future in 50 years' time. The book discusses the distant future of Singapore's economy and the environment. What will Singapore's economic and environment landscape be like 50 years from now? Are there trends or scenarios common to the various discussions contained in this book? If there are, how big would be the impact of some of these trends? What and how should the government respond to these projections, expectations and informed visions of tomorrow? In sum, what would Singapore's economy and environment be like in 2065? The book explores a range of possible answers to these questions and more. Not only will the generations of today be able to gain much insight into Singapore's future by reading this book, but future generations, specifically 100 years after Singapore's independence, will be able to understand and affirm what and how today's generations think about their time. The book is a key contribution to envisioning Singapore's future, which is also vital for

understanding what shapes Singapore's landscape today

**International Practices to Promote Budget Literacy** Harika

Masud, Helene Pfeil, Sanjay Agarwal, Alfredo Gonzalez Briseno, 2017-08-09 Budget literacy is defined as the ability to read, decipher and understand public budgets to enable and enhance meaningful citizen participation in the budget process. It is comprised of two main parts: i) a technical understanding of public budgets including familiarity with government spending, tax rates and public debt; and ii) the ability to engage in the budget process comprising of practical knowledge on day to day issues as well as an elementary understanding of the economic, social and political implications of budget policies, the stakeholders involved and when and how to provide inputs during the annual budget cycle. Given that no international standards or guidelines have been established for budget literacy education to date, this book seeks to address this gap by taking stock of illustrative initiatives promoting budget literacy for youth in selected countries. The underlying presumption is that when supply side actors in the budget process (governments) simplify and disseminate budget information for demand side actors (citizens), this information will then be used by citizens to provide feedback on the budget. However, since citizens are often insufficiently informed about public budgets to constructively participate in budget processes, one way to empower them and to remedy the problem of budget illiteracy is to provide budget literacy education in schools to youth, helping them evolve into civic minded adults with the essential knowledge needed for analyzing their government's fiscal policy objectives and measures and the confidence and sense of social responsibility to participate in the oversight of public resources. This book elaborates on approaches, learning outcomes, pedagogical strategies and assessment approaches for budget literacy education and presents lessons that are relevant for the development, improvement or scaling up of budget literacy initiatives.

**Asia-Gulf Economic Relations in the 21st Century** Tim Niblock, 2013-12-31 Asia constitutes the hub of the

transformation of global economic power today. The Gulf, itself part of Asia, is of increasing importance in this transformation. This book documents the growing interactions between the economies of the Gulf states and those of the rest of Asia. These relationships are critical to how the world economy develops over the next decade and how economic and perhaps strategic power is distributed. This volume assembles cutting edge thinking by 16 specialists on a wide variety of topics covering Arab Gulf relations with China, Japan, ASEAN, Korea and India as well as with Russia, Iran and Turkey.

**Building Prosperity**

Anna Tibaijuka, 2013-06-17 This book is a much needed account with numerous detailed examples of the role of housing in economic growth and development by an author in a unique position to understand its importance and the practical measures for delivering that growth. While the linkages between housing and the macroeconomic environment in developed countries has been studied, the case of developing and transitional countries has been mostly overlooked. The author establishes these linkages with great clarity supported by detailed case studies chosen to reflect regional diversity as well as differences in socio-economic development and political systems. On the basis of this analysis, the author goes on to develop specific policies and practices to enable governments to enhance the contribution of housing in economic growth.
