*Economic Reform and Environmental Performance in Transition Economies* Gordon Hughes, Magda Lovei, 1999 Annotation World Bank Technical Paper no 446 transition has proved to be a much longer and more difficult process than most had anticipated and progress has varied By 1998 only one country Poland which embarked on economic reform before the rest of the region had reestablished sustained economic growth and surpassed the pretransition level of real gross domestic product GDP From Economic Reform and Environmental Performance in Transition Economies Most global economy and environmental watchers expect the transition to a market economy to yield environmental benefits The changing incentives that a market economy introduces should foster more efficient production better use of resources and increased community input The advanced reformers of the Central and Eastern European CEE countries proved this to be the case They improved energy efficiency and reduced emissions intensity of pollutants The slower reforming countries of the Newly Independent States NIS also experienced lower pollution However that downturn coincided with the economic decline which shut down many major polluters This report reviews progress in environmental trends since transition began It looks at air and water pollution and health indicators in the trends and in light of the environmental issues identified in the Environmental Action Programme for Central and Eastern Europe It continues and builds on the World Bank's work in analyzing the environmental effects of transition restructuring and privatization with a view to identifying priority areas for investment and policy initiatives The report will interest environmental policy makers

and practitioners      **Agricultural Support Policies in Transition Economies** Alberto Valdés,2000-01-01 Studies of Russia Romania Poland Bulgaria and Turkey      Managing Critical Infrastructure Risks Igor Linkov,Richard J. Wenning,Gregory A. Kiker,2007-09-17 This book offers a state of the science approach to current environmental security threats and infrastructure vulnerabilities It emphasizes beliefs that the convergence of seemingly disparate viewpoints and often uncertain and limited information is possible only by using one or more available risk assessment methodologies and decision making tools such as risk assessment and multi criteria decision analysis MCDA      *Urban Air Quality Management* Masami Kojima,Magda Lovei,2001-01-01 This book details the context within which policy decisions and objectives for the property tax system are made in the transitional economies of Central and Eastern Europe It shows how these policy decisions evolve as a part of the transitional reforms still in process This book offers the chance to review the experiences of transitional countries in initiating and implementing fiscal instruments during a decade of enormous transformations The research for the case studies included in this book was sponsored by the Lincoln Institute of Land Policy      **Municipal Solid Waste Incineration** T. Rand,J. Haukohl,U. Marxen,2000-01-01 Ever increasing amounts of solid waste and dwindling space for disposal is a problem reaching crisis level in many of the world s largest urban areas Incineration as an alternative to landfill has come under scrutiny though the capital and operating costs generally exceed those associated with landfill This report provides background information for the Decision maker guide to municipal solid waste MSW incineration Key criteria for a solid waste incineration scheme are identified and the report gives decision makers information on how to investigate and assess the degree to which they are fulfilled      **Institutional Environment and Public Officials' Performance in Guyana** Ömer Gökçekü?,2001-01-01 This report presents the findings of a survey of public officials in Guyana on a wide range of civil service issues from personnel management practices to rewards and disciplinary action and from budget environment to corruption The objective of the study is to draw conclusions about those institutional weaknesses that should be the immediate target for reform      Kazakhstan John Gray,2000-01-01 The success achieved in stimulating real change in farm ownership control and management in some areas combined with the extremity of the difficulties faced by farms in less favored areas point to the need for an active process of policy reformulation to address the problems which are now emerging from the restructuring process Agriculture in Kazakhstan is in crisis the majority of farms are insolvent and production has fallen to the lowest level in 30 years Initial restructuring efforts yielded disappointing results and mostly failed to lead to new patterns of ownership or management However since 1998 the government has pursued a more aggressive approach to farm restructuring based on increased reliance on farm bankruptcy This report reviews the experience of the farm restructuring policies and programs pursued in 1998 and 1999 and draws conclusions for the continuing development of agricultural sector policies This review forms one of a group of simultaneous agricultural sector studies undertaken by the World Bank at the request of the Government of Kazakhstan Kazakhstan A Review of Farm

Restructuring reviews the progress to date in the implementation of the government's reform measures which were begun in late 1998. The report is based on a field mission undertaken in April-May 1999 which concentrated primarily on the Northern oblasts and information provided by the staff of the Headquarters of the Ministry of Agriculture in Astana.

**Historical Dictionary of the World Bank** Sarah Tenney, Anne C. Salda, 2013-10-30. When it was founded back in 1944 no one could possibly have foreseen how the World Bank, known more formally as the International Bank for Reconstruction and Development (IBRD), would flourish. Today with 188 members it is by far the largest lender for projects in agriculture, health, infrastructure and many other fields in developing countries around the world with a budget of billions of dollars and a staff of more than 9,000. Its advice is usually heeded by both the developing countries which borrow from it and the advanced ones which contribute. This second edition of the *Historical Dictionary of the World Bank* shows the substantial progress the Bank has made, this mainly through the dictionary section with concise entries on its component institutions, related organizations, its achievements in various fields, some of the major projects and member countries, and its various presidents. The introduction explains how the Bank works while the chronology traces the major events over nearly 70 years. Meanwhile the list of acronyms reminds us just who the main players are. And the bibliography directs readers to useful internal documentation and outside studies.

**Central and South-Eastern Europe 2003** Europa Publications, 2002. An in-depth survey of the region presenting the latest economic and political developments. It includes expert comment on issues of regional importance, up-to-date statistics, a directory of institutes and companies, and political profiles.

*Cleaner Transport Fuels for Cleaner Air in Central Asia and the Caucasus* Masami Kojima, 2000. Urban air pollution is a matter of concern in many of the newly independent states of Central Asia and the Caucasus. The poor quality of the fuel used by the largely poorly maintained vehicle stock just worsens emissions problems. It is estimated that nearly 40,000 people die prematurely and about 100,000 people fall ill every year in the big cities of the region as a result of exposure to excessive air pollution. The projections for the next 10 to 15 years are for higher vehicle numbers and increased vehicle use, leading to a steady rise of damaging pollutants if current policies regarding fuel specifications and vehicle standards are not addressed quickly. This report gives the World Bank's assessment of the problem faced by the countries in the region. It puts forward a framework for short and medium-term measures for improving fuel quality and vehicle emissions performance.

**Environmental Problems in East-Central Europe** Frank Carter, David Turnock, 2002-09-26. In this new edition the progress made in the last decade to solve the environmental problems described in the first edition is assessed. The attempts to bring environmental legislation into line with West European norms is also described. *Environmental Problems in East-Central Europe* looks at air and water pollution, modern farming, water supplies, waste management, and landscape protection. These topics are placed within economic, social, and political profiles, as spending on a clean environment must be reconciled with welfare, spending, and the safeguarding of jobs. European Union assistance, civil society, and the work of environmental NGOs

are also discussed All of these matters are considered within the context of the wider geographical area and then by each individual country including the previously communist states lying to the west of the Soviet Union now with the former federal states of Czechoslovakia and Yugoslavia broken up into seven different entities and a review of the former Soviet Union with particular reference to the Baltic States Environmental Problems in East Central Europe provides a wealth of up to date reference material with a vast amount of supporting literature on environmental conditions and the functioning of civil society and a map of each country The environment is being taken seriously by them all such is the influence of the Rio sustainability agenda in general and the EU environmental acquis in particular The book reveals that Eastern Europe is not a blighted area but in some respects has a higher biodiversity than Western Europe Although there is enormous waste and inefficiency in energy use people actually consume relatively little and the East therefore has some lessons for the West in terms of managing on the bases of fair share of the earth s resources

**Turkmenistan** Zvi Lerman,Karen McConnell Brooks,2001-01-01 This study on Turkmenistan is the latest addition to a long and growing series of World Bank publications on land reform and farm restructuring in the former socialist countries of Europe and Central Asia The present report combines an analysis of the 1998 farm survey overview of general agricultural policies and sectoral performance Survey results are preceded by a sectoral review and a description of emerging legal framework for land reform and farm restructuring Kosovo Saumya Mitra,2001-01-01 This report contains discussion of the principal economic and social reform policy tasks facing Kosovo It is intended to present ideas to the interim civil administration for the consolidation of peace Key reforms are the formulation of a sustainable budget the establishment of a liberal trade and customs regime use of a hard currency for internal transactions creation of a reformed framework for encouraging the growth of private SMEs
