Mirakhor, H. Askari, 2010-08-18 This book briefly surveys the evolution of the Western concept of development recognizing the wider dimensions of human and economic development and the role of institutions and rules which has moved toward the vision and the path of development envisaged in Islam Mediterranean Tradition in Economic Thought Louis Baeck, 2012-08-21 The Mediterranean Tradition in Economic Thought surveys the legacy of thinking on economic affairs from the countries in the Mediterraean basin over four millenia It considers the economic content of the scriptures of the Mesopotamian civilisations Pharaonic Egypt and the Biblical peoples and the contributions of the Greeks and Romans and their influence on Islamic civilisation and on the Medieval scholastics The flowering of the school of Salamanca as recently as the seventeenth century demonstrates how long lived the tradition was and throughout Baeck demonstrates how these ideas continue to survive and resurface citing the renewed interest in the ethical dimension of economics the revival of interest in the history of Islamic thought and the re emergence of Slavophile doctrines in contemporary Russian Labor Economics in an Islamic Framework Toseef Azid, Umar Burki, Muhammad Junaid Khawaja, Nasim Shah Shirazi, Muhammad Tahir, 2021-12-30 The labor market in Islam is governed by the Islamic laws of fairness justice and reward that is equivalent to the job done Most of the literature in the field discusses the normative aspect of the labor market whereas few attempts can be seen to address more positive aspects There is a need for new theoretical and empirical models for the Islamic labor market which should differ from established approaches This book provides a comprehensive overview of the nature scope and dimensions of the labor market in an Islamic context from both theoretical and practical perspectives It presents and discusses labor economics and then compares the similarities and differences between conventional and Islamic views of the labor market explaining where they meet and critically justifying why they differ under the umbrella of Shari ah The book raises pertinent issues which it analyzes from both standpoints and widens the discourse to include norms morality and related institutions such as social security and welfare A unique feature of the book is that it examines labor economics practices among a specific group of countries and studies the labor conditions within these countries where the majority of the population follow the teachings of Islam in their daily lives The book
