Economic Growth with Equity Kevin Watkins,1998 Kevin Watkins analyses the manner in which the economies of East Asia have attained high economic growth rates and managed to share the prosperity widely A caveat is included as some groups have been excluded from these benefits on ethnic grounds **The Oxfam Education Report** Kevin Watkins,2000-01-01 This comprehensive report focuses on the fact that millions of people in poor countries remain uneducated and illiterate which prevents them from developing the skills they need to escape poverty The book looks at the underlying causes of the problem and sets out a clear agenda for reform *Making Growth Inclusive* Elizabeth Stuart,2011 Shows that growth is back on the development agenda promoted by bilateral and multilateral donors and the G20 as the most effective way to lift people out of poverty Argues that economic growth has reduced poverty in developing countries in the past but by ignoring the issue of equality donors and poor country governments have failed to maximise the benefits of that growth and in some cases people have become worse off Extracts lessons from case studies of Brazil Viet Nam and Ghana to suggest three key areas where action by governments is likely to deliver a proper redistributive agenda appropriate macroeconomic prudence and a policy environment that fosters a pro poor private sector **Reclaiming Social Policy** Arjan de Haan,2007-07-31 This book re evaluates the importance of social policies in shaping well being and combating exclusion and enhances understanding of how these policies are formed in a globalizing world It emphasises the context and path dependence of patterns and policies of inclusion and exclusion and provides a framework for supporting social policy making *Trade Policy, Growth and Poverty in Asian Developing Countries* Kishor Sharma,2003-12-08 This new book provides a selection of writings that cover trade equity and development in Asia Clem Tisdell T N Srinivasan Gustav Ranis and others write on countries from Pakistan and India to Korea and Indonesia **Global Political Economy** John Ravenhill,2005 Brings together leading international experts to provide an authoritative introduction to the major subject areas on undergraduate courses in global political economy Each chapter makes use of learning aids such as summary boxes chronologies case studies web links and further reading **Subject Guide to Books in Print** ,1997 *American Book Publishing Record* ,1999 *Gender, Development, and Poverty* Caroline Sweetman,2002 This work examines how gender inequalities impact on men s women s and children s experiences of poverty and demonstrates the importance of integrating gender analysis into every aspect of development initiatives *Education in Indonesia* Zulfa Sakhiyya,Teguh Wijaya Mulya,2023-07-13 This book offers a critical analysis on Indonesian education by drawing from various critical perspectives and theoretical frameworks to explore persistent challenges and social inequality problems in the education sector Critical perspectives are important to reveal how education is not a neutral mechanistic process of cultivating the knowledge and skills of future generation Instead it is a battleground in which competing visions ideologies discourses religious values and political interests struggle for dominance in a given society In each of the sections contributors draw upon specific case

studies and employ critical theories to analyze power relations or to identify and destabilize underlying structures dominant discourses hegemonic knowledge policies or practices Some authors also highlight data evidencing inequities inequalities or injustices in Indonesian education system As a handbook the emphasis on critical perspectives is useful to identify and evaluate the blind spots of dominant policy discourses and their pedagogical consequences The plurality of critical approaches also means that this book is necessarily multidisciplinary A unique feature of this book is the fact that most authors are Indonesian academics who bring with them tacit knowledge of practices and issues Overall this book enriches the literature by bringing together different disciplinary perspectives such as political science psychology international relations economics and linguistics to critically examine important issues related to education in Indonesia
