Economic Sanctions Harvard Studies In International Affairs No 45:

Economic Sanctions Reconsidered: History and current policy Gary Clyde Hufbauer, Jeffrey J. Schott, Kimberly Ann Elliott, Institute for International Economics (U.S.), 1990 Economic Sanctions K. Alexander, 2009-04-28 Economic sanctions are increasingly important instruments of regulatory and foreign policy This book provides a detailed study of the post 9 11 financial sanctions programmes in the US and Europe examining the key regulatory and legal issues that confront businesses and related liability issues for third parties and individuals *Economic Sanctions* David Cortright, 2018-03-05 As the challenge of preventing military conflict has become increasingly complex in the post Cold War era economic sanctions are being applied with growing frequency Sanctions are also being used to enforce international law to deter aggression and terrorism to defend democracy and human rights and to prevent nuclear proliferation This study addresses questions about the utility appropriateness and success or failure of sanctions as well as their impact on the poor and innocent Specific case studies focusing on recent conflicts such as those in Haiti Iraq South Africa and the former Yugoslavia demonstrate the principal aspects of economic sanctions *Sanctions Beyond Borders* Kenneth Aaron Rodman, 2001 Rodman government Colby College examines the use of sanctions from the early Cold War era through the 1990s including the Helms Burton Law and the Iran Libya Sanctions Act He argues that sanctions are weak and costly measures that damage diplomatic relations particularly when used to prevent key multinational corporations from undertaking economically significant transactions with proscribed nations Annotation copyrighted by Book News Inc Portland OR **The Problem of Enforcement in International Law** Elena Katselli Proukaki, 2009-12-16 This book explores the contentious topic of how collective and community issues should be protected and enforced in international law Elena Katselli Proukaki takes a detailed look at the issue of third State countermeasures and considers the work the International Law Commission has done in this area The volume addresses both the theory and practice of third State countermeasures within international law Critically reviewing the conclusions of the International Law Commission on the non existence of a right to third State countermeasures it includes consideration of examples of State practice not previously covered in the literature of this topic In taking a thorough view of the issues involved the author identifies concerns about third State countermeasures which remain unanswered and considers the possible legal ramifications arising from a clash between a right to third State countermeasures and obligations arising from other international norms The Problem of Enforcement in International Law explores questions evolving around the nature integrity and effectiveness of international law and the role it is called to play in a contemporary context This book is of great interest and value not only for specialists in this area of international law but also human rights trade and EU lawyers practitioners legal advisers and students **Political Gain and Civilian Pain** Thomas George Weiss, 1997 The use of sanctions is increasing in the post Cold War world Along with this increase the international community must ask itself whether sanctions work in the sense that they incite citizens to change or overthrow an offending government and whether

sanctions are really less damaging than the alternative of war Here for the first time sanctions and humanitarian aid experts converge on these questions and consider the humanitarian impacts of sanctions along with their potential political benefits The results show that often the most vulnerable members of targeted societies pay the price of sanctions and that in addition the international system is called upon to compensate the victims for the undeniable pain they have suffered Well chosen case studies of South Africa Iraq the former Yugoslavia and Haiti illustrate how much pain the community of states is willing to inflict upon civilians in the quest for political gains Together with an analytical framework and policy conclusions this important book seeks to clarify the range of options and strategies to policymakers who impose sanctions and to humanitarian officials who operate in sanctioned environments *Economic Sanctions in Support of Foreign Policy Goals* Gary Clyde Hufbauer, Jeffrey J. Schott, 1983 Eighty sanctions cases since World War I are reviewed in this monograph

Responding to Human Rights Violations, 1946-1999 Katarina Tomaševski, 2021-10-05 This volume maps out the response of states to human rights violations It covers the period 1946 1999 and offers a complete and unmatched record for this period Its starting point is that such responses are not established and accepted state practice Traditional if unwritten norms of states behaviour developed through centuries of silence and inaction the prevalent reaction to human rights violations by another state remains the absence of any response Furthermore this book probes into evidence of active and passive complicity by reviewing aid to countries in which violations have been taking place and diplomatic initiatives undertaken to shield violators from public opprobrium Since international law is generated through state practice the book highlights the ongoing tussle between the pre 1946 heritage of silence and inaction and the 1946 1999 haphazard pattern of responses to violations **Economic Sanctions Reconsidered: Supplemental case histories** Gary Clyde Hufbauer, 1990

The United States and Israel Abraham Ben-Zvi, 1993 Ben Zvi also shows how former Prime Minister Shamir's decision to build settlements in the occupied territories aggravated an already tense situation between the U S and Israel and he concludes with comments on the Gulf War and the return to power of the Labor Party in 1992 **Reauthorization of the Export Administration Act** United States. Congress. Senate. Committee on Banking, Housing, and Urban Affairs.

Lisa L. Martin, 2021-03-09 This innovative study shows that multilateral sanctions are coercive in their pressure on their target and in their origin the sanctions themselves frequently result from coercive policies with one state attempting to coerce others through persuasion threats and promises To analyze this process Lisa Martin uses a novel methodology combining game theoretic models statistical analysis and case studies She emphasizes that credible commitments gain international cooperation and concludes that the involvement of international institutions and the willingness of the main sender to bear heavy costs are the central factors influencing the sanction s credibility *Neutrality and International Sanctions* John Ross, 1989-11-03 Ross here presents a comparative historical study of European neutrality policy with special reference to the problem posed to neutral countries by the imposition of international collective sanctions The study takes the form of an extended and detailed comparative examination of Swedish and Swiss responses to the League of Nation s embargo against Italy in 1935 36 and the United Nation s sanctions against Rhodesia in 1965 79 Through this analysis the author explores how and why Swedish and Swiss policies toward sanctions have differed over time and what these differences reveal about neutrality policy in general particularly in relation to collective security actions taken by international organizations An ideal supplemental text for graduate and advanced undergraduate courses in comparative politics international relations and international organization this volume will also be of significant benefit to policymakers interested in reviewing past sanctions cases as a guidepost for determining the feasibility of similar operations in the future The book is distinguished by its broad historical approach and by its close comparison of the two countries not only in terms of their sanctions policies but also in terms of their domestic political structures and individual overall formulations of neutrality policy Ross demonstrates that despite the many background similarities between Sweden and Switzerland the two states have differed substantially in their responses to sanctions operations He analyzes the reasons for these differences challenging traditionally held views that characterize Sweden s policies as changeable and Switzerland s as consistent Finally Ross identifies seven explanatory factors derived from the four case studies which can be used to determine how other source states both neutral and non neutral might respond to future cases of sanctions **Sanction Dilemmas**

Kenneth Hermele, Bertil Odén, 1988 Contains a summary of economic sanctions in effect in May 1987 *Economic Sanctions Reconsidered: Third Edition* , Economic Sanctions Reconsidered Gary Clyde Hufbauer, Jeffrey J Schott, Kimberly Ann Elliott, Barbara Oegg, 2008-11-15 Economic sanctions continue to play an important role in the response to terrorism nuclear proliferation military conflicts and other foreign policy crises But poor design and implementation of sanctions policies often mean that they fall short of their desired effects This landmark study first published in 1985 delves into the rich experience of sanctions in the 20th century to harvest lessons on how to use sanctions more effectively This volume is the updated third

edition of this widely cited study It chronicles and examines 170 cases of economic sanctions imposed since World War I Fifty of these cases were launched in the 1990s and are new to this edition Special attention is paid to new developments arising from the end of the Cold War and increasing globalization of the world economy Analyzing a range of economic and political factors that can influence the success of a sanctions episode the authors distill a set of commandments to guide policymakers in the effective use of sanctions

Democratic Justice Ian Shapiro, 1999-01-01 Democracy and justice are often mutually antagonistic ideas but in this innovative book Ian Shapiro shows how and why they should be pursued together Justice must be sought democratically if it is to garner legitimacy in the modern world he claims and democracy must be justice promoting if it is to sustain allegiance over time Democratic Justice meets these criteria offering an attractive vision of a practical path to a better future Wherever power is exercised in human affairs Shapiro argues the lack of democracy will be experienced as injustice The challenge is to democratize social relations so as to diminish injustice but to do this in ways that are compatible with people s values and goals Shapiro shows how this can be done in different phases of the human life cycle from childhood through the adult worlds of work and domestic life retirement old age and approaching death He spells out the implications for pressing debates about authority over children the law of marriage and divorce population control governing the firm basic income guarantees health insurance retirement policies and decisions made by and for the infirm elderly This refreshing encounter between political philosophy and practical politics will interest all those who aspire to bequeath a more just world to our children than the one we have inherited
