America, 1886-1965 John S. Gilkeson, 2010-09-20 This book examines the intersection of cultural anthropology and American cultural nationalism from 1886 when Franz Boas left Germany for the United States until 1965 when the National Endowment for the Humanities was established Five chapters trace the development within academic anthropology of the concepts of culture social class national character value and civilization and their dissemination to non anthropologists As Americans came to think of culture anthropologically as a complex whole far broader and more inclusive than Matthew Arnold's the best which has been thought and said so too did they come to see American communities as stratified into social classes distinguished by their subcultures to attribute the making of the American character to socialization rather than birth to locate the distinctiveness of American culture in its unconscious canons of choice and to view American culture and civilization in a global perspective **The History of Anthropology** Regna Darnell, 2021 This volume on the history of

anthropology emphasizes schools of theory institutional connections social networks and collaborative research with North

The Big Picture Man Scott L. Rolston, 2011-01-24 Throughout the first six decades of the twentieth century Alfred Louis Kroeber worked with great distinction as a member of an anthropological circle the ethos of which he could not fully share His beliefs regarding the evolution of languages and the controversial notion of cultural evolution more generally conflicted with the reigning Boasian paradigm Some of the concepts with which he struggled such as the familial relationships among American languages and the emergent character of culture became less problematic after he had passed from the scene Although Kroeber is regarded as one of the founding figures of American anthropology his contributions to the establishment of the genetic approach in historical linguistics were overshadowed by the genius of his collaborator and correspondent Edward Sapir

Composing Cultures Eric Aronoff, 2013-10-18 The term culture has become ubiquitous in both academic and popular conversations but its usefulness is a point of dispute Taking the current shift from cultural studies to aesthetics as the latest form of this discussion Eric Aronoff contends that in American modernism the concepts of culture and of aesthetics have always been inseparable The modernist concept of culture he argues arose out of an interdisciplinary dialogue about value meaning and form among social critics artists anthropologists and literary critics including figures as diverse as Van Wyck Brooks Edward Sapir Willa Cather Lewis Mumford John Crowe Ransom Raymond Weaver and Allen Tate These figures proposed new ways to conceive of culture that intertwined theories of aesthetic and literary value with theories of national racial and regional identity Through close readings Aronoff shows that disciplines and approaches that are often thought of as opposed cultural anthropology and aesthetics American literary history and literary criticism and multiculturalism and regionalism are in fact engaged in common debate and proceed from shared arguments about culture and form

The Jews' Indian David S. Koffman, 2019-02-08 Winner of the 2020 Jordan Schnitzer Book Award in Social Science Anthropology and Folklore Honorable Mention 2021 Saul Viener Book Prize The Jews Indian investigates the history of American Jewish relationships with Native Americans both in the realm of cultural imagination and in face to face encounters These two groups exchanges were numerous and diverse proving at times harmonious when Jews and Natives people's economic and social interests aligned but discordant and fraught at other times American Jews could be as exploitative of Native cultural social and political issues as other American settlers and historian

David Koffman argues that these interactions both unsettle and historicize the often triumphant consensus history of American Jewish life Focusing on the ways Jewish class mobility and civic belonging were wrapped up in the dynamics of power and myth making that so severely impacted Native Americans this book is provocative and timely the first history to critically analyze Jewish participation in and Jews grappling with the legacies of Native American history and the colonial project upon which America rests

Culture's Futures Eric Aronoff, 2025-02-24 This book argues that science fiction has been a key participant along with anthropology and literary theory in the interdisciplinary debates over culture and narrative form from the modernist period to the present Both science fiction and the anthropological ethnography in their modernist forms and post modern postcolonial reinventions are intertwined technologies for constructing culture and difference through narrative worldbuilding This book traces the ways SF authors including Ray Bradbury Ursula K Le Guin and Octavia E Butler as well as Indigenous futurists Craig Strete Celu Amberstone Rebecca Roanhorse and Cherie Dimaline have deployed interrogated and revised these models of culture representation and power to imagine new futures

Invisible Genealogies Regna Darnell, 2001-01-01 Invisible Genealogies is a landmark reinterpretation of the history of anthropology in North America During the past two decades theorizing by many American anthropologists has called for an experimental moment grounded in explicit self reflexive scholarship and experimentation with alternate forms of

presentation Such postmodern anthropology has effectively downplayed connections with past luminaries in the field whose scholarship is perceived to be uncomfortably colonialist and nonreflexive Ironically as the American Anthropological Association nears its one hundredth anniversary and interest in the history of the discipline is at an all time high that history has been effectively presented as removed from and irrelevant to the new generation Invisible Genealogies offers an alternative compelling vision of the development of anthropology in North America one that emphasizes continuity rather than discontinuity from legendary founder Franz Boas to the present Regna Darnell identifies key interpretive assumptions and practices that have persisted sometimes in modified form since the groundbreaking work of A L Kroeber Boas Ruth Benedict Edward Sapir Elsie Clews Parsons Paul Radin Benjamin Lee Whorf and A Irving Hallowell during the founding decades of anthropology Also highlighted are the Americanist roots of postmodern anthropology and the work of innovative recent scholars like Claude Lévi Strauss and Clifford Geertz

Theory in Social and Cultural Anthropology R. Jon McGee, Richard L. Warms, 2013-08-28 Social and cultural anthropology and archaeology are rich subjects with deep connections in the social and physical sciences Over the past 150 years the subject matter and different theoretical perspectives have expanded so greatly that no single individual can command all of it Consequently both advanced students and professionals may be confronted with theoretical positions and names of theorists with whom they are only partially familiar if they have heard of them at all Students in particular are likely to turn to the web to find quick background information on theorists and theories However most web based information is inaccurate and or lacks depth Students and professionals need a source to provide a quick overview of a particular theory and theorist with just the basics the who what where how and why if you will In response SAGE Reference plans to publish the two volume Theory in Social and Cultural Anthropology An Encyclopedia Features Benefits Two volumes containing approximately 335 signed entries provide users with the most authoritative and thorough reference resource available on anthropology theory both in terms of breadth and depth of coverage To ease navigation between and among related entries a Reader's Guide groups entries thematically and each entry is followed by Cross References In the electronic version the Reader's Guide combines with the Cross References and a detailed Index to provide robust search and browse capabilities An appendix with a Chronology of Anthropology Theory allows students to easily chart directions and trends in thought and theory from early times to the present Suggestions for Further Reading at the end of each entry and a Master Bibliography at the end guide readers to sources for more detailed research and discussion

Visions of Culture Jerry D. Moore, 2004-02-23 This new edition of Jerry D Moore's *Visions of Culture* presents introductory anthropology students with a brief readable and balanced treatment of theoretical developments in the field New to this edition are pieces on Sherry Ortner Pierre Bourdieu and Eric Wolf an Epilogue that describes key current debates over theory This is an ideal text for classes on the theory or the history of anthropology
