Beneš,Anja Kirsch,2018-09-21 This volume offers new perspectives on the appeal and profound cultural meaning of socialism

over the past two centuries It brings together scholarship from various disciplines addressing diverse national contexts including Britain China France Germany Norway Sweden and the USA Taken together the contributions highlight the aesthetic narrative and religious dimensions of socialism as it has developed through three broad phases in the modern era early nineteenth century beginnings mass based political organizations and the attainment of state power in the twentieth century and beyond Socialism did not attract millions of people primarily because of logical argument and empirical evidence important though those were Rather it told the most compelling story about the past present and future Refocusing attention on socialism s imaginative dimensions this volume aims to revive scholarly interest in one of the modern world s most important political orientations **Transnational East Asian Studies** Kevin Cawley, Julia Schneider, 2022-12-15

Transnational East Asian Studies demonstrates how transnationalism as a mode of intellectual enquiry has wide ranging interdisciplinary potential and has immense value when examining the past just as much as when examining the present Artificially erected borders which appear on maps and globes fail to consider the ways people in diverse regions live and practice their everyday lives existing beyond boundaries The people of East Asia have always been on the move they have never been homogeneous and have evolved together not apart In this sense people around the globe and also in East Asia have always been involved in a process of change and transformation Hence transnationalism is a way to overcome methodological nationalism not only as a concept of identity and spatiality but also as a concept temporally situated in the modern because as a methodology transnationalism does not take the national as a precondition It allows us to move beyond and across borders and to examine how ideas have been used and transformed in different contexts This book thus underscores the complex interactions in the context of East Asia past and present while shaping the future of this complicated region **The Canadian Alternative** Klaus Martens, 2004 **H. G. Adler** Peter Filkins, 2019-02-12 The

biography of H G Adler 1910-88 is the story of a survivor of Theresienstadt Auschwitz and two other concentration camps who not only lived through the greatest cataclysm of the 20th century but someone who also devoted his literary and scholarly career to telling the story of those who perished in over two dozen books of fiction poetry history sociology and religion And yet for much of his life he remained almost entirely unknown A writer s writer a scholar of seminal pioneering works on the Holocaust a renowned radio essayist in postwar Germany a last representative of the Prague Circle of literature headed by Kafka a key contributor to the prosecution in the trial of Adolf Eichmann Adler was a man of his time whose times lived through him His is the story of many others but also one that is singularly his own And at its heart lies a profound story of love and perseverance amid the loss of his first wife Gertrud Klepetar who accompanied her mother to the gas chamber in Auschwitz and the courtship and extended correspondence with Bettina Gross a Prague artist who escaped to Britain only to later learn that her mother had also been in Theresienstadt with Adler before her eventual death in Auschwitz His delivery of a lecture in Theresienstadt commemorating Kafka s sixtieth birthday and with Kafka s favorite sister present the nurturing

of a younger generation of artists and intellectuals including the Israeli artist Jehuda Bacon and the Serbian novelist Ivan Ivanji the preservation of Viktor Ullmann's compositions and his opera *The Emperor of Atlantis* only to see them premiered decades later to world acclaim and the penury of postwar life while churning out the novels poetry and scholarship that would make his reputation all of these are part of a life survived in the moment but dedicated to the future and that of a man committed to helping human dignity survive in his time and that to come

Frontier Orientalism and the Turkish Image in Central European Literature Charles D. Sabatos, 2020-01-02 This comparative study analyzes the ways that Central European writers used stereotypes of the Turks to develop their national identities from the early modern period to the present Charles D Sabatos uses Andre Gingrich's concept of frontier Orientalism to foreground his analysis of Central European Orientalism designating the nations of the former Habsburg Empire as the occident and the Turks as the oriental Other This study applies theoretical approaches to literary history as developed by scholars such as Stephen Greenblatt and Linda Hutcheon to a range of texts from the early modern period the nineteenth century national revivals interwar independence and the communist and postsocialist regimes By following these depictions across literatures and over an extensive historical period this study illustrates how the Turkish stereotype evolved from a menace to a more abstract yet still powerful metaphor of resistance and finally to a mythical figure that evoked humor as often as fear

Prague, Capital of the Twentieth Century Derek Sayer, 2021-11-09 The story of modernity told through a cultural history of twentieth century Prague Setting out to recover the roots of modernity in the boulevards interiors and arcades of the city of light Walter Benjamin dubbed Paris the capital of the nineteenth century In this eagerly anticipated sequel to his acclaimed *Coasts of Bohemia* A Czech History Derek Sayer argues that Prague could well be seen as the capital of the much darker twentieth century Ranging across twentieth century Prague's astonishingly vibrant and always surprising human landscape this richly illustrated cultural history describes how the city has experienced and suffered more

ways of being modern than perhaps any other metropolis Located at the crossroads of struggles between democratic communist and fascist visions of the modern world twentieth century Prague witnessed revolutions and invasions national liberation and ethnic cleansing the Holocaust show trials and snuffed out dreams of socialism with a human face Yet between the wars when Prague was the capital of Europe's most easterly parliamentary democracy it was also a hotbed of artistic and architectural modernism and a center of surrealism second only to Paris Focusing on these years Sayer explores Prague's spectacular modern buildings monuments paintings books films operas exhibitions and much more A place where the utopian fantasies of the century repeatedly unraveled Prague was tailor made for surrealist Andr Breton's black humor and Sayer discusses the way the city produced unrivaled connoisseurs of grim comedy from Franz Kafka and Jaroslav Hasek to Milan Kundera and Vclav Havel A masterful and unforgettable account of a city where an idling flaneur could just as easily be a secret policeman this book vividly shows why Prague can teach us so much about the twentieth century and what made us who we are

Postcards from Absurdistan Derek Sayer, 2022-11-22 A sweeping history of a twentieth century Prague torn between fascism communism and democracy with lessons for a world again threatened by dictatorship *Postcards from Absurdistan* is a cultural and political history of Prague from 1938 when the Nazis destroyed Czechoslovakia's artistically vibrant liberal democracy to 1989 when the country's socialist regime collapsed after more than four decades of communist dictatorship Derek Sayer shows that Prague's twentieth century far from being a story of inexorable progress toward some end of history whether fascist communist or democratic was a tragicomedy of recurring nightmares played out in a land Czech dissidents dubbed Absurdistan Situated in the eye of the storms that shaped the modern world Prague holds up an unsettling mirror to the absurdities and dangers of our own times In a brilliant narrative Sayer weaves a vivid montage of the lives of individual Praguers poets and politicians architects and athletes journalists and filmmakers artists musicians and comedians caught up in the crosscurrents of the turbulent half century following the Nazi invasion This is the territory of the ideologist the collaborator the informer the apparatchik the dissident the outsider the torturer and the refugee not to mention the innocent bystander who is always looking the other way and Vclav Havel's greengrocer whose knowing complicity allows the show to go on Over and over Prague exposes modernity's dreamworlds of progress as confections of kitsch In a time when democracy is once again under global assault *Postcards from Absurdistan* is an unforgettable portrait of a city that illuminates the predicaments of the modern world

Making Migration Law Eve Lester, 2018-03-22 The emergence of international human rights law and the end of the White Australia immigration policy were events of great historical moment Yet they were not harbingers of a new dawn in migration law This book argues that this is because migration law in Australia is best understood as part of a longer jurisprudential tradition in which certain political economic interests have shaped the relationship between the foreigner and the sovereign Eve Lester explores how this relationship has been wrought by a political economic desire to regulate race and labour a desire that has produced the claim that there exists an absolute sovereign right to exclude or condition the entry and stay of foreigners Lester calls this putative right a discourse of absolute sovereignty She argues that absolute sovereignty talk continues to be a driver of migration lawmaking shaping the foreigner sovereign relation and making thinkable some of the world's harshest asylum policies

Radical Assimilation in the Face of the Holocaust Tom Navon, 2024-01-01 This book explores the confrontation of radically assimilated Jews with the violent collapse of their envisioned integration into a cosmopolitan European society which culminated during the Holocaust This confrontation is examined through the biography of the German speaking intellectual and prominent communist theoretician of the Jewish question Otto Heller 1897-1945 focusing on the tension between his Jewish origins and his universalistic political convictions *Radical Assimilation in the Face of the Holocaust* traces the development of Heller's position on the Jewish question in three phases how he grew up to become a typical Central European non Jewish Jew 1897-1931 how he became exceptional in that category by focusing his intellectual work on the Jewish question 1931-1939 and how he reacted

to the persecution and murder of European Jewry as a member of the Resistance in occupied France and in Auschwitz 1939-1945 Breaking with the common portrayal of Heller as a self-hating Jew Tom Navon argues instead that Heller came to lay the foundations for the groundbreaking recognition by communists of worldwide Jewish national solidarity
