Theosophical Siftings, 1891      **Egyptian Belief Theosophically Considered** Theosophical Publishing, Theosophical Publishing Society, 2005-12 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work      The Theosophical Glossary Helena Petrovna Blavatsky, 1892      **The Theosophical Path** Katherine Augusta Westcott Tingley, 1925      *Theosophical Outlook*, 1920

**Theosophy and the Study of Religion**, 2024-06-11 Since its emergence in the nineteenth century the Theosophical Society has wielded enormous influence across diverse fields none more so than the study of religion This volume explores this legacy in North America Europe and India demonstrating its impact on the conceptualization of religion and its influence on methods of comparison Unveiling overlooked entanglements the volume challenges standard narratives in the history of religious studies and interrogates the deliberate neglect of theosophy s influence in the secular academy In doing so the work confronts lingering ghosts urging a reappraisal that enriches the study of religion and offers prescriptions for its future

**Theosophical Manuals: Theosophy : the mother of religions** Katherine Augusta Westcott Tingley, 1907

**Theosophy is Religion itself and sublime code of Ethics** Helena Petrovna Blavatsky, 2018-07-04 The Original Programme of the Theosophical Society prefaced by introductory notes historical letters and documents by Boris de Zirkoff Compiler and Editor of H P Madame Blavatsky Collected Writings There is no religion higher than Truth Moreover there is and can be but one absolute Truth in Kosmos The majority of the public Areopagus is generally composed of self appointed judges who have never made a permanent deity of any idol save their own personalities their lower selves And he who believes his own religion on faith will regard that of every other man as a lie and hate it on that same faith Theosophy is not a religion It is Religion itself a Divine Science embracing every science in life moral and physical and a sublime code of Ethics Theosophy is Religion and the Theosophical Society the Universal Church of Morality The Theosophical Movement is the great moral but silent force Human life devoid of all its world ideals and beliefs becomes deprived of its higher sense and meaning But the world ideals can never completely die out Exiled by the fathers they will be received with open arms by the children The Theosophical Movement was reborn in 1875 and so the cyclic evolution of theosophical ideals continues

Thrice-Greatest Hermes Studies in Hellenistic Theosophy and Gnosis Being a Translation of the Extant Sermons and Fragments of the Trismegistic Literature, with Prolegomena, Commentaries and Notes George Robert Stow Mead, But in the present century by the publication of Reitzenstein s *Poimandres* the whole subject has been placed on a different footing and brought into a clearer light Reitzenstein attacks the problem of the Trismegistic writings from an entirely objective historical philological and literary standpoint Being entirely emancipated from any theological preconceptions he is always careful to

point out that his conclusions are based solely on critical research in the domain of philology proper he cannot however refrain at times from adding somewhat sily that these results are of the deepest interest to the theologian indeed we might say highly embarrassing if the theologian happens to be a traditionalist The general scope of Reitzenstein s essay may be gathered from his sub title Studies in Greek Egyptian and Early Christian Literature Our Trismegistic writings form part of a large number of Greek written texts the remains of a once exceedingly extensive Hellenistic theological literature and by Hellenistic theology is meant the blending of Greek and Oriental religious thought and experience This Hellenistic theology was most strongly influenced by Egyptian conceptions and traditions The Egyptian religion is known to have spread itself over the Hellenistic world and every scholar will at once recall to mind how many Greek writers have treated expressly of the Egyptian religion and how many passages in Greek literature refer to Egyptian beliefs as compared with the very few which treat of Babylonian Persian or even Syrian Nevertheless the remains of this Hellenistic theological literature have never been treated as a whole from the point of view of philology the cause of this has been the entire disregard of the subject by Christian theologians coupled with the grotesque grounds on which the consideration of the Hellenistic Egyptian religion is usually set aside one famous theologian lately going so far as to assert that the Egyptian worship was despised on all sides both by Jews and Greeks as the lowest depth of human superstition As then Egypt had a provably dominant position in Hellenistic literature so also must she have had in some sort a correspondingly strong influence on Hellenistic culture and consequently on the development of Hellenistic religious experience The evidence of this is afforded by the Early Christian literature We have therefore here in these Greek Egyptian and Early Christian documents the possibility of methodical work seeing that it is a question of the comparative study of two contemporaneous literatures moreover the language and typology of the Christian literature is bound to betray traces of the general Hellenistic theology of the time The study of Reitzenstein is thus a consideration of our Trismegistic literature as a whole and the analysis and comparison of two of the most typical sermons with other Hellenistic documents and with Early Christian writings This he does with praiseworthy and painstaking industry with great acumen and admirable scholarly equipment but his work is of no service to any but scholars and that too to scholars who are specialists It is a work bristling with technicalities of every description and crammed with untranslated texts Indeed Reitzenstein belongs to that school of philological purists who think it a loss of dignity to translate anything this is a very convenient convention and I myself have often wished that I could have availed myself of it when face to face with innumerable difficulties of translation

[Ancient Egypt and Modern Psychotherapy](#) Todd Hayen, 2016-12-19 In

Ancient Egypt and Modern Psychotherapy Todd Hayen explores what the spiritual concepts of the enigmatic ancient

Egyptians can teach us about our own modern psyches and the pursuit of a meaningful life Hayen examines the ancient Egyptians possession of a concept contemporary academics have labeled consciousness of the heart an innate knowledge of the entirety of the universe While all human beings possess this consciousness of the heart our modern culture has largely lost the ability to tap into this inborn knowledge By examining the material accomplishments of ancient Egypt and how their seemingly deeper awareness of their inner world created a harmonious outer world we can begin to understand how modern psychotherapy through a Jungian perspective could be instrumental in achieving a more profound and meaningful personal experience of life Ancient Egypt and Modern Psychotherapy will be insightful reading for analytical psychologists in practice and in training Jungian psychotherapists and psychologists and academics and students of Jungian and post Jungian studies and ancient spirituality
