A Community Reinforcement Approach to Addiction Treatment Robert J. Meyers, William R. Miller, 2001-08-23. The community reinforcement approach (CRA) to treating alcohol and other drug problems is designed to make changes in the client's daily environment to reduce substance abuse and promote a healthier lifestyle. It is of proven effectiveness and should be more widely used. This 2001 book presents research on the effectiveness of the CRA for a clinical readership. It includes the original study comparing CRA with traditional treatments of alcohol dependence and summarizes other trials with alcohol, cocaine, and heroin users. The CRA program provides basic guidelines for clinicians focusing on communication skills, problem solving, and drink refusal strategies and addresses the needs of the client as part of a social community. Combining practical advice on such matters with a scientific survey of CRA in use, this book offers a treatment approach to all involved with the support and treatment of those with alcohol and drug problems.
