Economic Planning Studies:

Economic Planning Studies R. Frisch, 2012-12-06 It is probably true as the editor of these essays and studies by Ragnar Frisch points out that the majority of economists are not well aware of the contributions made to their discipline by Frisch This certainly does not apply however to econometricians In fact Frisch was one of the founding fathers of the Econometric Society and for the first decade of its existence its recognized leader in Europe The annual European meetings were inspired by his enthusiasm his unprecedented didactic talents and his amazingly diversified contributions It is also clear that those members of the Swedish Academy of Sciences who selected candidates for the Nobel Memorial Prize in Economic Science were fully aware of Ragnar Frisch's pathbreaking work when they decided to award him that famous Prize While much of Frisch's earlier work has been published in his later years of activity he hardly took the time to shape the results of his work in an optimal way for wider circulation Although an impressively lucid writer he evidently gave priority to solutions of some of the planning problems he was involved in rather than to formulating them in the characteristically crystal clear and well structured expositions of earlier years I very much welcome therefore Dr Long's initiative to make available to a wider public within the profession some of the few texts Frisch himself produced probably under pressure from his immediate friends and colleagues
