## **Economic Policymaking In A Conflict Society The Argentine Case Ctr For Intl Affairs Series:**

**Economic Policymaking in a Conflict Society** Richard D. Mallon,Juan V. Sourrouille,1975 Argentina is a fascinating and baffling case to scholars to economic development It has rich agricultural resources a fully monetized economy a domestic manufacturing sector that occupies a large share of the active labor force a relatively high level of literacy and other attributes that resemble a European nation more than a developing country This book is a new and vigorous attempt to explain the Argentinian paradoxes   **Foreign Service Journal ,2002**   **The International Politics of Natural**

**Resources** Zuhayr Mikdashi,2019-06-30 An impartial and shrewd observer here takes a close look at the major producers of today s most sought after commodities Mr Mikdashi deals with the ever shifting pattern of cooperation and antagonism between transnational enterprises companies owned by corporations in developed countries and active in more than one nation and their host governments especially those in the developing world Comparing operations in various countries and in various industries he describes how governments and transnationals work together and separately to exploit market opportunities Petroleum copper iron sulfur uranium bauxite and tin these are among the resources he examines He illuminates the policies strategies and relationships of the protagonists under different market and environmental conditions discussing the relations among the governments themselves and the alliances they have formed such as OPEC and CIPEC Finally he offers suggestions for cooperative action that could both serve the needs of the less developed areas and promote international harmony Practical in approach and original in concept the book clarifies complex contemporary problems and points the way toward solving them   **Defending the National Interest** Stephen D. Krasner,Harvard University. Center for International Affairs,1978-11-21 The book s basic analytic assumption is that there is a distinction between state and society Defending the National Interest shows that the problem for political analysis is how to identify the underlying social structure and the political mechanisms through which particular societal groups determine the government s behavior

the author shows that rapid socio economic growth has coincided with a substantial decline in turnout at the polls His ecological analysis of subnational aggregate voting data for the sixties and the explanation of his startling findings form the core of this up to date and comprehensive survey of Turkey s political development Turkey is one of very few countries to combine rapid socio economic change with a democratic system The author demonstrates that in this context modernization tends to increase autonomous instrumental and class based political participation and to decrease mobilized deferential and communal based political participation The topics he examines include social cleavages and the party system distribution of land and income geographical and social mobility access to education regional variations in voting turnout urban rural differences in voting behavior socio economic correlates of voting activity and party votes and patterns of participation among peasants and the urban poor Originally published in 1977 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Atkinson,Thomas Piketty,2010-04-01 A rapidly growing area of economic research investigates the top of the income distribution using data from income tax records This volume brings together studies of top incomes for twelve countries from around the world including China India Japan Argentina and Indonesia Together with the first volume published in 2007 the studies cover twenty two countries They have a long time span the earliest data relating to 1875 for Norway allowing recent developments to be placed in historical perspective The volume describes in detail the source data and the methods employed It will be an invaluable reference source for researchers in the field Individual country chapters deal with the specific nature of the data for each of the countries and describe the long term evolution of top income shares In the countries as a whole dramatic changes have taken place at the top of the income distribution Over the first part of the century top income shares fell markedly This largely took the form of a reduction in capital incomes The different authors examine the impact of the First and Second World Wars contrasting countries that were and were not engaged They consider the impact of depressions and banking crises and pay particular attention to the impact of progressive taxation In the last 30 years the shares of top incomes have increased markedly in the US and other Anglo Saxon countries reflecting the increased dispersion of earnings The volume includes statistics on the much discussed top pay and bonuses providing a global perspective that discusses important differences between countries such as the lesser increase in Continental Europe This book together with volume 1 documents this interesting development and explores the underlying causes The findings are brought together in a final summary chapter by Atkinson Piketty and Saez
