**Edwin Mullhouse** Steven Millhauser, 1996-04-16 A parody of a literary biography starring a 10 year old novelist who is mysteriously dead at 11 from the Pulitzer Prize winning author of *Martin Dressler* As a memorial Edwin Mullhouse's best friend Jeffrey Cartwright decides that the life of this great American writer must be told He follows Edwin's development from his preverbal first noises through his love for comic books to the fulfillment of his literary genius in the remarkable novel *Cartoons*

**Understanding Steven Millhauser** Earl G. Ingersoll, 2014-02-19 An exploration of the thematic interests and narrative strategies of a contemporary American master of fiction Earl Ingersoll introduces the fiction of Steven Millhauser whose distinguished career of more than four decades includes eight books of short fiction and four novels the latest being the Pulitzer Prize winning *Martin Dressler* 1996 In *Understanding Steven Millhauser* Ingersoll explores Millhauser's twelve books chronologically revealing the development of a major contemporary American writer and a master of fiction who cares as deeply about his craft as the modernists did earlier in the past century While most examinations of an author's work begin with at least a biographical sketch Ingersoll has faced distinct challenges because Millhauser has resisted efforts to read his fiction through the lens of his biography Responding to an interviewer's request for a brief biography Millhauser provided the succinct 1943 Part of such resistance Ingersoll argues arises from Millhauser's belief that if readers have too many questions about an author's work the author has failed and no amount of response can redress that failure Millhauser's central characters such as August Eschenburg and J Franklin Payne are often themselves artists or technicians who are overreachers and Ingersoll shows that Millhauser's early expressions of literary realism have given way to interest in departures from the real For Millhauser stories like conjuring tricks are invented because history is inadequate to our dreams Millhauser's strength is the ability to sustain obsessions because works of fiction succeed insofar as they are able to supplant reality As a master fabulist Ingersoll argues Millhauser is preoccupied with extravagance both in the subject matter of his fiction and in his style Whether it involves *Martin Dressler* doing himself in by designing and constructing increasingly complex hotels or the miniaturists in the short story *Cathay* pushing their impulse to extremes past the eye's ability to see

their art objects Millhauser's fiction is full of such an impulse which can produce prolific artists as well as compulsive lunatics The triumph of Millhauser's craft Ingersoll shows is that it merges a fascination with the relationship between imagination and experience with a precise and allusive prose to produce works seamlessly joining the everyday with the radical and fantastic in forms ranging from travelogues of the imagination to works merging the waking world with the world of dreams

in numerical analysis newton s method also known as the newton raphson method named after isaac newton and joseph raphson is a root finding algorithm which produces successively better approximations to the roots or zeroes of a real valued function the most basic version starts with a single variable function  $f$  defined for a real variable  $x$  the function s derivative  $f'$  and an initial guess  $x_0$  for a root of  $f$  if the function satisfies sufficient assumptions and the initial guess is close
