when it comes to the five realities that provide much of the book's substance the persistence of racism the will to power scientism and soulless technology the conflict in Israel Palestine and the threat of wars and pandemics Is it possible to believe in the God of Jesus Christ in such a world If so what does that mean and how does it help us live creatively redemptively and faithfully To answer these questions the author examines the meaning of faith the human desire for transcendence and the need for conversion wisdom solidarity and responsible freedom

Hearts of Darkness: Melville, Conrad and Narratives of Oppression Paweł Jędrzejko, Milton M. Riegelman, Zuzanna Szatanik, 2010-01-01 The volume came about as a result of a joint effort at a bifocal reflection of the international community of Melvillians and Conradians in Szczecin Poland in August 2007 What became clear in formal and informal discussion among the participants of that international gam was that Herman Melville and Joseph Conrad Korzeniowski shared the intuition that the essential liquidity of the existential human condition necessitates a universal squeeze of the hand This idea beautifully conceptualized by Melville in chapter 94 of Moby Dick caused both writers to examine in their complex narratives the ways in which various kinds of oppression prevent this desired possibility read more in the Introduction

Reality TV Mark Andrejevic, 2004-09-08 Drawing on cultural theory and interviews with fans cast members and producers this book places the reality TV trend within a broader social context tracing its relationship to the development of a digitally enhanced surveillance based interactive economy and to a savvy mistrust of mediated reality in general Surveying several successful reality TV formats the book links the rehabilitation of Big Brother to the increasingly important economic role played by the work of being watched The author enlists critical social theory to examine how the appeal of the real is deployed as a pervasive but false promise of democratization

The Cambridge Companion to the Modern Gothic Jerrold E. Hogle, 2014-12-04 This Companion explores the Gothic across literature film television and cyberspace revealing how it has proliferated since 1900 as an expression of modernity Essays examine the role of Gothic in major struggles of modern life over sex and gender the intermixing of

different cultures and the very nature of modernity **Русский Язык** ,1984 *Facing Fear* Michael Laffan,Max Weiss,2012-10-14 Fear is ubiquitous but slippery It has been defined as a purely biological reality derided as an excuse for cowardice attacked as a force for social control and even denigrated as an unnatural condition that has no place in the disenchanted world of enlightened modernity In these times of institutionalized insecurity and global terror *Facing Fear* sheds light on the meaning diversity and dynamism of fear in multiple world historical contexts and demonstrates how fear universally binds us to particular presents but also to a broad spectrum of memories stories and states in the past From the eighteenth century Peruvian highlands and the California borderlands to the urban cityscapes of contemporary Russia and India this book collectively explores the wide range of causes experiences and explanations of this protean emotion The volume contributes to the thriving literature on the history of emotions and destabilizes narratives that have often understood fear in very specific linguistic cultural and geographical settings Rather by using a comparative multidisciplinary framework the book situates fear in more global terms breaks new ground in the historical and cultural analysis of emotions and sets out a new agenda for further research In addition to the editors the contributors are Alexander Etkind Lisbeth Haas Andreas Killen David Lederer Melani McAlister Ronald Schechter Marla Stone Ravi Sundaram and Charles Walker *In the Swarm* Byung-Chul Han,2017-03-31 A prominent German thinker argues that contrary to Twitter Revolution cheerleading digital communication is destroying political discourse and political action The shitstorm represents an authentic phenomenon of digital communication from *In the Swarm* Digital communication and social media have taken over our lives In this contrarian reflection on digitized life Byung Chul Han counters the cheerleaders for Twitter revolutions and Facebook activism by arguing that digital communication is in fact responsible for the disintegration of community and public space and is slowly eroding any possibility for real political action and meaningful political discourse In the predigital analog era by the time an angry letter to the editor had been composed mailed and received the immediate agitation had passed Today digital communication enables instantaneous impulsive reaction meant to express and stir up outrage on the spot The shitstorm writes Han represents an authentic phenomenon of digital communication Meanwhile the public the senders and receivers of these communications have become a digital swarm not a mass or a crowd or Negri and Hardt s antiquated notion of a multitude but a set of isolated individuals incapable of forming a we incapable of calling dominant power relations into question incapable of formulating a future because of an obsession with the present The digital swarm is a fragmented entity that can focus on individual persons only in order to make them an object of scandal Han one of the most widely read philosophers in Europe today describes a society in which information has overrun thought in which the same algorithms are employed by Facebook the stock market and the intelligence services Democracy is under threat because digital communication has made freedom and control indistinguishable Big Brother has been succeeded by Big Data Literature as Cultural Ecology Hubert Zapf,2016-04-21 This book is available as open access through the Bloomsbury Open Access

programme and is available on www.bloomsburycollections.com Drawing on the latest debates in ecocritical theory and sustainability studies *Literature as Cultural Ecology* Sustainable Texts outlines a new approach to the reading of literary texts Hubert Zapf considers the ways in which literature operates as a form of cultural ecology using language imagination and critique to challenge and transform cultural narratives of humanity's relationship to nature In this way the book demonstrates the important role that literature plays in creating a more sustainable way of life Applying this approach to works by writers such as Emily Dickinson Edgar Allan Poe Herman Melville William Faulkner Toni Morrison Zakes Mda and Amitav Ghosh *Literature as Cultural Ecology* is an essential contribution to the contemporary environmental humanities

Fate and Faith after Heidegger's Contributions to Philosophy Peter S. Dillard, 2020-03-11 In this groundbreaking new work Dillard makes a powerful case for bringing contemporary Christian theology into critical dialogue with Martin Heidegger's *Contributions to Philosophy Of the Event* Following his initial receptivity to theology in his early writings Heidegger becomes increasingly agnostic and even atheistic in the 1930s until the sudden resurgence of religious discourse in *Contributions* Dillard shows that there are good reasons for Heidegger's striking reversal Key philosophical concepts from *Contributions* enable Heidegger to overcome earlier theological conundrums left unresolved in his earlier engagements with themes in St Paul and Luther while the need to make a fateful decision regarding the last god prevents the central philosophical task of *Contributions* from collapsing into empty tautology or relapsing into objectionable metaphysics Nevertheless Heidegger leaves us in the predicament of having no clear idea of how we are to make the crucial decision about divinity After considering several unsuccessful proposals for escaping the dilemma Dillard develops a christological solution based on Heidegger's engagement with the poetry of Georg Trakl The resulting theological perspective is defended from some possible criticisms and situated within the broader context of contemporary postmetaphysical Heideggerian theology
