Edison Morgan Tesla:

Edison, Morgan and Tesla Daniel Blair Stewart,1997

The World's Richest Neighborhood Quentin R. Skrabec,2010

The residents of Pittsburgh's East End controlled as much as 40% of America's assets at the turn of the last century. Mail was delivered seven times a day to keep America's greatest capitalists in touch with their factories, banks, and markets. The neighborhood had its own private station of the Pennsylvania Railroad with a daily non-stop express to New York's financial district. Many of the world's most powerful men, princes, artists, politicians, scientists, and American Presidents such as William McKinley, Teddy Roosevelt, William Taft, Calvin Coolidge, and Herbert Hoover came to visit the hard-working and high-flying captains of industry. Two major corporations, Standard Oil and ALCOA Aluminum, were formed in East End homes. It was the first neighborhood to adopt the telephone with direct lines from the homes to the biggest banks in Pittsburgh, which at the time was America's fifth largest city. The story of this neighborhood is a story of America at its greatest point of wealth and includes rags to riches stories, political corruption, scandals, and greed. The history of this unique piece of American geography makes for enjoyable reading that will satisfy a large cross-section of readers.

Tesla Marko Perko, Stephen M Stahl, 2022-05-01 The enigmatic Nikola Tesla stalked by his ever-present inner demons invents the modern world. His astonishing story is that of a new age god, a genius, a Zeus, a wonderful Wizard, yet a deeply troubled one. He tames the mysterious force called electricity; he dazzles the world with his endless inventions and discoveries; he blazes new paths in science that profoundly impact our daily lives; he turns fantasies into realities; his thought experiments disrupt scientific norms; he gives us many of the indispensable tools we use today; and famous actresses and chanteuses clamor for his attention as powerful men desire to be his friend. All before an astonished world. Yet all the while he keeps his own counsel as he simultaneously struggles with the challenging consequences of bipolar disorder, flights of manic energy alternating with depressive depths of great despair. He shuns the clichés of a quotidian life while forever seeking to lift the burdens from the shoulders of mankind. It would become his lifelong leitmotif, but at what cost to him? The authors, Marko Perko and Stephen M Stahl, M.D., Ph.D., D.Sc., propose a new style biography entitled *T E S L A His Tremendous and Troubled Life*. They will examine Nikola Tesla in a manner that has yet to be accomplished in publishing history, asking and answering the seminal question: Who was the real man with an extremely complex psyche, personality, who lived with obsessive compulsive disorder, OCD, and a hyperthymic temperament spilling over at times into high-flying bipolar mania and then crashing into devastating depression and not simply the iconoclastic scientist who invented the modern world?

George Westinghouse Quentin R. Skrabec, 2007 This is a biography of Westinghouse, genius inventor from railroad and gas distribution equipment to the corporate model of invention and research. He surpassed Edison in electricity pioneering and in managing workers too, but they both lost their companies in the panic of 1907. The bank always wins.

Malkin,2016-01-12 Conservative journalist Malkin provides an eclectic journey of American capitalism from the colonial period to the Industrial Age to the present spotlighting little known tinkerpreneurs who achieved their dreams of doing well by doing good Learn how Paul Revere became America's first tech titan how famous patent holders Abraham Lincoln and Mark Twain championed the nation's unique system of intellectual property rights and more **Dangerous Betrayal** Bill

Blowers,2018-10-01 Ingeniously blending fact and thrilling speculative fiction this award winning novel unveils a conspiratorial sabotage behind the Titanic disaster How was it that the unsinkable Titanic carrying 1320 passengers and a crew of 892 sank in freezing waters especially when the technology of luxury liner was such that she could have easily avoided the impact with the iceberg Was it a fated and bizarre accident Or was it the result of a sinister plot to undermine the success of White Star Lines feature attraction on her maiden voyage At the heart of the mystery the most brilliant inventor of the era Nikola Tesla and a plot to hold the Titanic hostage that went catastrophically wrong For more than a century the secret lay hidden in the bowels of the Titanic at the bottom of the North Atlantic Now in this bracing and plausible novel of conspiracy and revenge set in a gilded age of ruthless power barons geniuses and madmen does the truth finally surface **Cornered** Barry C. Lynn,2009-12-10 A manifesto for our times Thomas Frank Wall Street Journal Barry C

Lynn one of the most original and surprising students of the American economy paints a genuinely alarming picture most of our public debates about globalization competitiveness creative destruction and risky finance are nothing more than a cover for the widespread consolidation of power in nearly every imaginable sector of the American economy *Cornered* strips the camouflage from the secret world of twenty first century monopolies neofeudalist empires whose sheer size vast resources and immense political power enable the people who control to direct virtually every major industry in America in an increasingly authoritarian manner Lynn reveals how these massive juggernauts which would have been illegal just thirty

years ago came into being how they have destroyed or devoured their competition and how they collude with one another to maintain their power and create the illusion of open competitive markets A confluence of small government zealotry and misguided efficient market theories has lead to a complete dismantling of government oversight of industry Has that brought us the promised economic utopia Just the opposite For decades the dominant elite has used the federal government to all but encourage companies to buy one another up outsource all their production and make their profits by leveraging their complete power over the market itself Lynn makes clear it will take more than a lawsuit or two to overthrow America s corporatist oligarchy and restore a model of capitalism that protects our rights as property holders and citizens and the independence of our Republic Details how regular citizens can join together to beat the great powers and how to do so by relearning the real history and language of our democratic republic Includes stories of real people and real industries that show how monopolies threaten independent businesses squelch innovation degrade the quality and safety of products destabilize vital industrial and financial systems and destroy the fabric of democracy Explores monopoly power across a wide array of industries including appliances auto parts beer eyeglasses medical supplies pet food surfboards vitamins and more Demonstrates how the drive for always lower prices makes your job disappear puts your small business out of business and turns dreams of entrepreneurial success into impossible fantasies Lynn is that rarest of creatures a journalist whose theoretical writings are taken very seriously by the top policymakers and economic thinkers in Washington and around the world His work has been compared already to John Kenneth Galbraith and Peter Drucker The Washington Post called Lynn s last book on globalization Tom Friedman for grownups Cornered is essential reading for anyone who cares about America and its future
