Spencer, 2013-01-31 Canada has not always had the role of friendly neighbor to the north In fact the seemingly peaceful history of relations between the United States and Canada is punctuated with instances of border disputes annexation manifestos and trade disagreements David R Spencer reveals the complexity of this relationship through a fascinating examination of political cartoons that appeared both in the U S and Canada from 1849 through the 1990s By first examining both the cultural and political differences and similarities between the two nations Spencer lays the groundwork for the main focus of his study deeper analysis of the political perspectives of the editorial cartoons Including 141 actual cartoons of the time Spencer provides meaningful references to the historical material covered An intriguing study by a leading Canadian American scholar this work is sure to interest many across the disciplines of journalism history cartoons media studies communication and

international relations      Historical Dictionary of Journalism Ross Eaman, 2021-04-15 This book covers the history of journalism as an institutionalized form of discourse from the *acta diurna* in ancient Rome to the news aggregators of the 21st century. It traces how journalism gradually distinguished itself from chronicles, history, and the novel in conjunction with the evolution of news media from news pamphlets, newsletters, and newspapers through radio, film, and television to multimedia digital news platforms like Google News. *Historical Dictionary of Journalism* Second Edition covers 46 countries; it contains a chronology, an introduction, an extensive bibliography, and the dictionary section has more than 300 cross-referenced entries on a wide array of topics such as African American journalism, the historiography of the field, the New Journalism, and women in journalism. This book is an excellent resource for students, researchers, and anyone wanting to know more about journalism.

**Fat and the Body in the Long Nineteenth Century** Amy Shaw, Lynn Kennedy, 2024-12-16 In the nineteenth and early twentieth centuries, the body was a key focus of discourse. *Fat and the Body in the Long Nineteenth Century* animates discussion and analyses of fatness, highlighting how corporeal expectations fit into larger social systems and showing how interpretations have shifted over time. This collection examines a host of primary sources including literature, art, medical treatises, journalism, political cartoons, soldiers' letters home, and popular fiction to identify trends in how fat was perceived and promoted in the English-speaking world over the long nineteenth century. Divided into four thematic sections, the book addresses epistemologies, artistic and literary representations, the turn towards quantification and measurement, and the connections to imperialism and colonialism. It explores the complex debate about the meaning of fat and its signalling of health, beauty, moral strength, and class status. The book shows how contemporary presentations and discussions of fat offer insights into ideals of gender and race and the processes of imperialism and of professionalization in the social sciences and medicine. By tracing how debates shifted over time, the book ultimately reveals that there was no universal interpretation of fat as a positive or negative characteristic throughout the nineteenth century.

**Self-Help and Popular Religion in Modern American Culture** Roy M. Anker, 1999-11-30 The second of two volumes on the relationship between popular religion and the self-help tradition in American culture, this book continues chronologically where the first left off. As with the first volume, this work focuses on the intersection of American history and popular religion and is intended as an introductory interpretive guide to major self-help figures and movements with origins in popular religious movements. This volume spans from Romanticism, the Gilded Age, and the history of Christian Science with discussions of Mary Baker Eddy, Phineas Parkhurst Quimby, and Mary Baker Eddy through Norman Vincent Peale and Robert Schuller. Peale and Schuller, with the exception of Evangelist Billy Graham, constitute the public face of mainstream American Protestantism and bring this two-volume study to its conclusion in the second half of the 20th century. This reference will serve as a valuable research tool for American religion and popular culture scholars. Together with the first volume, *Self-Help and Popular Religion in Early American Culture*, these two meticulously researched volumes clearly define and present the broad scope of the self-help

tradition as it pervades American culture and as it developed and was influenced by popular religion An extensive bibliography is included

**Islamophobia and Anti-Muslim Sentiment** Peter Gottschalk, Gabriel Greenberg, 2018-07-19 In the minds of many Americans Islam is synonymous with the Middle East Muslim men with violence and Muslim women with oppression A clash of civilizations appears to be increasingly manifest and the war on terror seems a struggle against Islam These are all symptoms of Islamophobia Meanwhile the current surge in nativist bias reveals the racism of anti Muslim sentiment This book explores these anxieties through political cartoons and film media with immediate and important impact After providing a background on Islamic traditions and their history with America it graphically shows how political cartoons and films reveal Americans casual demeaning and demonizing of Muslims and Islam a phenomenon common among both liberals and conservatives Islamophobia and Anti Muslim Sentiment offers both fascinating insights into our culture s ways of picturing the enemy as Muslim and ways of moving beyond antagonism

Islamophobia Peter Gottschalk, Gabriel Greenberg, 2008 In the spirit of Edward Said s Orientalism this book graphically shows how political cartoons the print medium with the most immediate impact dramatically reveal Americans demonizing and demeaning Muslims and Islam It also reveals a fundamental misunderstanding of the Muslim world in general and issues a wake up call to the American people

Tradition, Solidarity and Empowerment: The Native Discourse in Canada Steffi Retzlaff, 2012-01-31 This study represents a significant step towards understanding an important social phenomenon in Canada at the end of the twentieth and beginning of the twenty first century Throughout much of the twentieth century the life of virtually all Aboriginal people had been marked by a set of policies directed from Ottawa These had contributed to undermining both their traditional cultures and also the familial bonds vital for the development of a positive self image and a healthy relationship with other members of society as also with society as a whole The negative impact of such policies is now very widely recognised and documented The study does not set out to shed further light on this set of causes and effects What it does do successfully is investigate a number of the linguistic strategies based partly on aboriginal discursive models partly on positive presentation of a range of topics handled very differently in Euro Canadian media and partly on the propagation and consistent use of key items of terminology some of which have begun to enter at least some of the Euro Canadian media and strands of political discourse Prof Robert Gould Carleton University Ottawa The analytical framework employed in this study is Critical Discourse Analysis CDA CDA is said to focus on relevant social cultural and political problems and processes Accordingly its task is both deconstructive and constructive However the emphasis of research in CDA is mainly on problems and the deconstructive moment which aims at revealing hidden and not so hidden linguistic strategies and how dominant discourses are appropriated or naturalized The analysis presented in this book runs counter to this generally employed CDA practice It pays attention to constructive moments The focus is on counter discourses as they are used by Aboriginal people in Canada to resist ingrained hegemonic practices to build and develop new
