Edmund Burke and Our Present Discontents Jim McCue, 1997 Published On The Bicentenary Of Edmund Burke S Death This Book Honours His Prescience And His Continuing Pertinence By Calling For A Return To His Principles Arguing That Many Of Today S Discontents Stem From A Tendency To Repeat The Mistakes Of The Revolutionaries **Edmund Burke** Edmund Burke, 1882 *Thoughts on the Cause of the Present Discontents* Edmund Burke, 1770 *Thoughts on the Present Discontents, and Speeches* Edmund Burke, 2018-08-05 **Thoughts on the Cause of the Present Discontents and the Two Speeches on America** Edmund Burke, 2020-08-30 An accomplished critic has observed with much truth that the only specimen of Burke is all that he wrote because every product of his pen contains additional proofs of his power Those who wish to understand the nature and importance of his multifarious labours should make the acquaintance of his writings in the mass and master them singly in detail It has long been understood that he who gives his nights and days to this task will acquire a knowledge of the principles of general politics of the limitations which modify those principles in our own national policy of the questions with which that policy deals and of the secret of applying the English tongue to their illustration which cannot be acquired in any other way In the prosecution of this task the student will learn the practical importance of the maxim laid down in the Preface to a previous volume of this series that all study to be useful must be pursued in a spirit of deference *Select Works of Edmund Burke: Thoughts on the present discontents. man happens not to succeed in such an inquiry he will be thought weak and visionary if he touches the true grievance there is a danger that he may come near to persons of weight and consequence who will rather be exasperated at the discovery of their errors than thankful for the occasion of correcting them If he should be obliged to blame the favourites of the people he will be considered as the tool of power if he censures those in power he will be looked on as an instrument of faction But in all exertions of duty something is to be hazarded In cases of tumult and disorder our law has invested every man in some sort with the authority of a magistrate When the affairs of the nation are distracted private people are by the spirit of that law justified in stepping a little out of their ordinary sphere They enjoy a privilege of somewhat more dignity and effect than that of idle lamentation over the calamities of their country They may look into them narrowly they may reason upon them liberally and if they should be so fortunate as to discover the true source of the mischief and to suggest any probable method of removing it though they may displease the rulers for the day they are certainly of service to the cause of Government Government is deeply interested in everything which even through the medium of some temporary uneasiness may tend finally to compose the minds of the subjects and to conciliate their affections I have nothing to do here with the abstract value of the voice of the people But as long as reputation the most precious possession of every individual and as long as opinion the great support of the State depend entirely upon that voice it can never be considered as a thing of little consequence either to individuals or to Government Nations are not primarily ruled by laws less by violence Whatever original energy may be supposed either in force or regulation the operation of both is in truth merely instrumental Nations are governed by the same methods and on the same principles by which an individual without authority is often able to govern those who are his equals or his superiors by a knowledge of their temper and by a judicious management of it I mean when public affairs are steadily and quietly conducted not when Government is nothing but a continued scuffle between the magistrate and the multitude in which sometimes the one and sometimes the other is uppermost in which they alternately yield and prevail in a series of contemptible victories and scandalous submissions The temper of the people amongst whom he presides ought therefore to be the first study of a statesman And the knowledge of this temper it is by no means impossible for him to attain if he has not an interest in being ignorant of what it is his duty to learn
