Education, Religion, and Literary Culture in the 4th Century CE Gabriela Ryser, 2020-01-20 This book contextualizes Claudian s handling of the Proserpina myth and the underworld in the history of literature and religion while showing intersections with and differences between the literary and religious uses of the underworld topos In doing so the study provides an incentive to rethink the dichotomy of the terms religious and non religious in favour of a more nuanced model of references and

refunctionalisations of elements which are or could be religiously connotated A close philological analysis of De raptu Proserpinae identifies the sphere of myth and poetry as an area of expressive freedom a parallel universe to theological discourses whether they be pagan philosophical or Christian while the profound understanding and skilful use of this particular sphere a formative aspect of European religious and intellectual history is postulated as a characteristic of the educated Roman and of Claudian s poetry

The Formal Education of the Author of Luke-Acts Steve Reece,2022-06-16 Steve Reece proposes that the author of Luke Acts was trained as a youth in the primary and secondary Greek educational curriculum typical of the Eastern Mediterranean during the Roman Imperial period where he gained familiarity with the Classical and Hellenistic authors whose works were the focus of study He makes a case for Luke s knowledge of these authors internally by spotlighting the density of allusions to them in the narrative of Luke Acts and externally by illustrating from contemporary literary papyrological and artistic evidence that the works of these authors were indeed widely known in the Eastern Mediterranean at the time of the composition of Luke Acts not only in the schools but also among the general public Reece begins with a thorough examination of the Greek educational system during the Hellenistic and Roman Imperial periods emphasizing that the educational curriculum was very homogeneous at least at the primary and secondary levels and that children growing up anywhere in the Eastern Mediterranean could expect to receive quite similar educations His close examination of the Greek text of Luke Acts has turned up echoes allusions and quotations of several of the very authors that were most prominently featured in the school curriculum Homer Aesop Euripides Plato and Aratus This reinforces the view that Luke along with other writers of the New Testament lived in a cultural milieu that was influenced by Classical and Hellenistic Greek literature and that he was not averse to invoking that literature when it served his theological and literary purposes

Rethinking Paul's Rhetorical Education Ryan S. Schellenberg,2013-09-03 Winner of the Canadian Society of Biblical Studies 2015 F W Beare Award Did Paul have formal training in Greco Roman rhetoric or did he learn what he knew of persuasion informally as social practice Pauline scholars recognize the importance of this question both for determining Paul s social status and for conceptualizing the nature of his letters but they have been unable to reach a consensus Using 2 Corinthians 10 13 as a test case Ryan

Schellenberg undertakes a set of comparisons with non Western speakers most compellingly the Seneca orator Red Jacket to demonstrate that the rhetorical strategies Paul employs in this text are also attested in speakers known to have had no formal training in Greco Roman rhetoric Since there are no specific indicators of formal training in the way Paul uses these strategies their appearance in his letters does not constitute evidence that Paul received formal rhetorical education

Education , **Teacher of the Nations** Devin L. White,2017-11-20 This study examines educational motifs in 1 Corinthians 1 4 in order to answer a question fundamental to the interpretation of 1 Corinthians Do the opening chapters of 1 Corinthians contain a Pauline apology or a Pauline censure The author argues that Paul characterizes the Corinthian community as an ancient school a characterization Paul exploits both to defend himself as a good teacher and to censure the Corinthians as poor students

While previous scholarship has seen Christian reactions to pagan educational culture as the product of an empire wide process of development Edward J Watts crafts two narratives that reveal how differently education was shaped by the local power structures and urban contexts of each city Touching on the careers of Herodes Atticus Proclus Damascius Ammonius Saccas Origen Hypatia and Olympiodorus and events including the Herulian sack of Athens the closing of the Athenian Neoplatonic school under Justinian the rise of Arian Christianity and the sack of the Serapeum he shows that by the sixth century Athens and Alexandria had two distinct locally determined approaches to pagan teaching that had their roots in the unique historical relationships between city and school
