wanting to know more about Kenya The International Journal of African Historical Studies ,1992 *Routledge Library Editions: Education Mini-Set H History of Education 24 vol set* Various,2021-07-14 Mini set H History of Education re issues 24 volumes which span a century of publishing 1900 1995 The volumes cover Education in Ancient Rome Irish education in the 19th century schools in Victorian Britain changing patterns in higher education secondary education in post war Britain education and the British colonial experience and the history of educational theory and reform *The Dilemma of Technical Education in Kenya* D. N. Sifuna,1983 *The Dynamics of Changing Higher Education in the Global South* Busani Mpofu,Sabelo Ndlovu-Gatsheni,2020-06-29 Today there are generally universities in Africa rather than African universities The legitimacy of the university in Africa is under serious questions now because of its complicity in racism patriarchy sexism colonialism capitalism genocide epistemicide linguicide culturecide and alienation In other words the university in Africa as we know it today is elitist and exclusionary Therefore rethinking the idea of the university is fundamental to overcoming its current deficiencies in the Global South This volume bringing together a number of national case studies and macro analyses on the dynamics of changing higher education in the Global South gestures towards the desired imagined decolonial African university which should be a site of multilingualism where African indigenous languages cosmologies and ontologies become a central part of its identity and soul intolerant of epistemicides linguicides and cultural imperialism but a site of cognitive and social justice that fully embraces the idea that all human beings are born into valid useful relevant and legitimate knowledge systems *The Presbyterian Church of East Africa* Evanson N. Wamagatta,2009 With over four million members the Presbyterian Church of East Africa PCEA is one of the major denominations in Kenya It was established in 1946 after the Gospel Missionary Society GMS from the United States of America and the Church of Scotland Mission CSM from Scotland merged The two missionary societies had been working independently in central Kenya since 1898 Consequently the GMS became the only mission in Kenya that failed to leave behind its own functioning self propagating self governing and self supporting church with links to its American mother church The Presbyterian Church of East Africa is therefore a study of the missionary work of the GMS from its inception in 1895 to 1946 when it merged with the CSM in order to establish why the mission gave up the struggle to establish its own church when victory seemed imminent The book also uses the GMS as a case study to analyze not only how Christian missions in colonial Africa struggled to win souls for Jesus Christ but also some of the major problems that they encountered and how they tried to solve them Handbook of Historical Studies in Education Tanya Fitzgerald,2020-04-03 This book offers an in depth historiographical and comparative analysis of prominent theoretical and methodological debates in the field Across each of the sections contributors will draw on specific case studies to illustrate the origins debates and tensions in the field and overview new trends directions and developments Each section includes an introduction that provides an overview of the theme and the overall emphasis within the section In addition each section has a concluding chapter that offers a critical and comparative analysis of the national case studies presented As a

Handbook the emphasis is on deeper consideration of key issues rather than a more superficial and broader sweep The book offers researchers postgraduate and higher degree students as well as those teaching in this field a definitive text that identifies and debates key historiographical and methodological issues The intent is to encourage comparative historiographical perspectives of the nominated issues that overview the main theoretical and methodological debates and to propose new directions for the field

Handbook of Research on Transformative and Innovative Pedagogies in Education Keengwe, Jared, 2022-05-13 Various pedagogies such as the use of digital learning in education have been used and researched for decades but many schools have little to show for these initiatives This contrasts starkly with technology supported initiatives in other fields such as business and healthcare Traditional pedagogies and general digital technology applications have yet to impact education in a significant way that transforms learning A primary reason for this minimal impact on learning is that digital technologies have attempted to make traditional instructional processes more efficient rather than using a more appropriate paradigm for learning As such it is important to look at digital technology as a partner and use transformative applications to become partners with students not teachers to empower their learning process both in and out of school The Handbook of Research on Transformative and Innovative Pedagogies in Education is a comprehensive reference that identifies and justifies the paradigm of transformative learning and pedagogies in education It provides exemplars of existing transformative applications that if used as partners to empower student learning have the potential to dramatically engage students in a type of learning that better fits 21st century learners Covering topics such as gamification project based learning and professional development this major reference work is an essential resource for pre service and in service teachers educational technologists instructional designers educational administration and faculty researchers and academicians seeking pedagogical models that inspire students to learn meaningfully

Handbook of Research on Innovations in Non-Traditional Educational Practices Keengwe, Jared, 2020-12-11 While many school districts and institutions of higher education still cling to the traditional agrarian school year with a factory model delivery of education and Carnegie units based on seat time when most people are no longer farmers factory workers or reliant on learning in a classroom there are bursts of promising practices that buck the norm by questioning the educational value of these traditions Though researchers have investigated the potential of students learning in their own homes via personalized instruction delivered by computers rather than attending traditional institutions the status quo in education has remained stubbornly resistant to change Mixed reality simulations year round schooling grouping students by competencies instead of age and game based teaching are just a few of the educational innovations that seek to maximize learning by recognizing that innovation is essential for successfully teaching students in the modern era The Handbook of Research on Innovations in Non Traditional Educational Practices is a comprehensive reference source that examines various educational innovations how they have developed workarounds to navigate traditional systems and their potential to radically transform teaching and

learning With each chapter highlighting a different educational innovation such as experiential learning game based learning online learning and inquiry based learning and their applications in all levels of education this book explores the issues and challenges these educational innovations face as well as their impact It is intended for academicians professionals administrators and researchers in education and specifically benefits academic deans vice presidents of academic affairs graduate students faculty technology leaders directors of teaching and learning centers curriculum and instructional designers policymakers principals and superintendents and teachers interested in educational change **Kenya's Running**

Women Michelle M Sikes,2023-12-01 Since Pauline Konga's breakthrough performance at the 1996 summer Olympics in Atlanta the world has become accustomed to seeing Kenyan women medal at major championships sweep marathons and set world records Yet little is known about the pioneer generation of women who paved the way for Kenya's reputation as an international powerhouse in women's track and field In *Kenya's Running Women A History* historian and former professional runner Michelle M Sikes details the triumphs and many challenges these women faced from the advent of Kenya's athletics program in the colonial era through the professionalization of running in the 1980s and 1990s Sikes reveals how over time running became a vehicle for Kenyan women to expand the boundaries of acceptable female behavior *Kenya's Running Women* demonstrates the necessity of including women in histories of African sport and of incorporating sport into studies of African gender and nation building **Burning Ambition** Elizabeth Cooper,2022-07-19 *Burning Ambition* explores how young people learn to understand and influence the workings of power and justice in their society Since 2008 hundreds of secondary schools across Kenya have been targeted with fire by their students Through an in depth study of Kenyan secondary students use of arson Elizabeth Cooper asks why With insightful ethnographic analysis she shows that these young students deploy arson as moral punishment for perceived injustices and arson proves an effective tactic in their politics from below Drawing from years of research and a rich array of sources Cooper accounts for how school fires stoke a national conversation about the limited means for ordinary Kenyans and especially youth to peacefully influence the governance of their own lives Further Cooper argues that Kenyan students' actions challenge the existing complacency with the globalized agenda of education for all demonstrating that submissive despondency is not the only possible response to the failed promises of education to transform material and social inequalities *Kenyan Youth Education in Colonial and Post-Colonial Times* Peter Otiato Ojiambo,2017-08-03 This book examines Joseph Kamiru Gikubu's impact on Kenyan youth education The author asserts that over his decades long career Gikubu played an active role in not only building and improving Kenyan youth education but also in demonstrating the role educational institutions play in imparting nation building skills Gikubu's educational contributions were wide ranging and include both practical and theoretical aspects of education through his works in various juvenile rehabilitation programs and youth clubs as well as his insights on youth education and school leadership Through Gikubu's educational work this volume interrogates Kenya's educational development transformation and

entailed challenges The book fills the gap in the dearth of African centered educational biographies and their role in shaping Africa s social political and economic spheres in both the colonial and post colonial period It also addresses emerging scholarship in African educational biographies div

Shrouded Witness Francis Omondi, 2025-06-30 The history of Christianity in Africa has often been told as a story of Western missions As such the contributions of local converts in shaping mission praxis and impacting the success of Christian witness on African soil has often been ignored In this study Dr Francis Omondi seeks to rectify historic omissions by exploring the role of African converts such as Reuben Omulo in establishing the Anglican Church in the Nyanza Province of western Kenya Utilizing Johannes Kritzinger s encounterological approach Omondi presents the growth of the church in Central Nyanza as the result of complex and dynamic encounters between Luo culture and Church Mission Society CMS theology Examining seven areas of belief and praxis such as contextual understanding interpretation of religious and cultural tradition and perspectives on the role of religious leaders he explores how CMS missionaries were impacted and ultimately transformed through their encounters with the Luo people and vice versa Filled with practical implications for the church in Kenya and beyond this study highlights the radical and often surprising power of encounter as the gospel becomes incarnate in all cultures and all places
