Part A General perspectives **UNESCO Without Borders** Aigul Kulnazarova, Christian Ydesen, 2016-06-23 The United Nations Educational Scientific and Cultural Organization UNESCO was established in 1945 with twin aims to rebuild various institutions of the world destroyed by war and to promote international understanding and peaceful cooperation among nations Based on empirical and historical research and with a particular focus on history teaching international understanding and peace UNESCO Without Borders offers a new research trajectory for understanding the roles played by UNESCO and other international organizations as well as the effects of globalization on education With fifteen chapters by authors from cross disciplinary and diverse geographical areas this book assesses the global implications and results of UNESCO s educational policies and practices It explores how UNESCO approved guidelines of textbook revisions and peace initiatives were implemented in member states illustrating the existence of both national confrontations with the new worldview promoted by UNESCO as well as the constraints of international cooperation This book provides an insightful analysis of UNESCO s past challenges and also indicates promising future research directions in support of international understanding for peace and cooperation As such it will be of key interest to researchers postgraduate students academics in the fields of international and comparative education education politics and policies and to those interested in the historical study of international organizations and their global impact The book will also appeal to practitioners especially those who conduct research on or work in post conflict societies *Games Without Frontiers* John Williams, 2017-09-29 What is the historical appeal of football How diverse are its players supporters and institutions throughout the world What are its various traditions and how are these affected by pressures to modernize In what ways does the game help to reinforce or overcome social differences and prejudices How can we understand football s subcultures especially football hooligan ones The 1994 World Cup Finals in the United States have again demonstrated the conflicts which exist around football over its international future The multi media age beckons new audiences for top level matches but worries remain that the historical and cultural appeal of football itself may be the real loser The global game has a breadth of skills playing techniques supporting styles and ruling bodies These are all subject to local and national traditions of team play and fan display Modern commercial influences and international cultural links through players and fan styles are accommodated within the game to an increasing extent Yet football s ability to differentiate remains at local regional national and even continental levels In some cases the game s traditions ensure that these differences are becoming as oppositional today as is modern football hooliganism But the overall picture is one of a game without frontiers rich in historical and cultural detail pluralistic in its traditions and identities This volume brings together essays by leading academics and researchers writing on world football Their studies draw on interdisciplinary researches in England Scotland France Italy Germany Austria Argentina and Australia

The book will be of interest to students of sports science cultural studies and social science and to all those who simply enjoy football as the world's greatest sporting passion

Politics Without Frontiers Mark Leonard, 1997 Europe Without Borders Isaac Stanley-Becker, 2025-01-14 The contested creation of free movement for people and goods in the Schengen area of Europe Europe is a place of free movement among nations or is it The Schengen area established in 1985 and today encompassing twenty nine European countries allows people goods and capital to cross borders without restraint Schengen transformed European life advancing both a democratic project of transnational citizenship and a neoliberal project of international free trade But the right of free movement always excluded non Europeans especially migrants of color from former colonies of the Schengen states In *Europe without Borders* Isaac Stanley Becker explores the contested creation of free movement in Schengen from treaty-making at European summits and disputes in international courts to the street protests of undocumented immigrants who claimed free movement as a human right Schengen laid the groundwork for the making of a single market and the founding of the European Union Yet its emergence is one of the great untold stories of modern European history one hidden in archives long embargoed Stanley Becker is among the first to have access to records of the treaty-making such as letters between France's François Mitterrand and West Germany's Helmut Kohl and *Europe without Borders* offers a pathbreaking account of Schengen's creation Stanley Becker argues that Schengen gave a humanist cast to a market paradigm but even in pairing the border crossing of human beings with the principles of free market exchange this vision of free movement was hedged by alarm about foreign migrants Meanwhile these migrants the sans papiers saw in the promise of a borderless Europe only a neocolonial enterprise

Global Classrooms: Learning Without Borders in the Digital Era Ahmed Musa, 2025-01-13 *Global Classrooms* explores how the digital era has broken down geographical barriers in education creating opportunities for learning without borders This book examines how online platforms virtual exchanges and digital tools are transforming classrooms around the world enabling students from different cultures and backgrounds to connect collaborate and share knowledge With an emphasis on the benefits of global education and cultural exchange *Global Classrooms* discusses how technology can democratize learning making high quality education accessible to anyone anywhere It also addresses the challenges of online education such as digital literacy and access to technology while offering solutions for educators and students to maximize the potential of this new global learning landscape

Economics without Borders Richard Blundell, Estelle Cantillon, Laszlo Matyas, Barbara Chizzolini, Marc Ivaldi, Wolfgang Leininger, Ramon Marimon, Frode Steen, 2017-04-27 This book uses surveys to bridge the gap between studies into European economics and policymaking in Europe It is also available as open access

Citizens Without Frontiers Engin F. Isin, 2012-11-02 States define who their citizens are and exert control over their life and movements But how does such power persist in a global world where people ideas and products constantly cross the borders of what the states see as their sovereign territory This groundbreaking work sets to examine and interpret such challenges to offer a

new way of thinking about citizenship Abandoning the sovereignty principle it develops a new image of citizenship using the connectedness principle To do so it interprets acts of citizenship by following activist citizens across the world through case studies from Wikileaks and the Gaza flotilla to China's virtual world and Darfur Written by a leader in the field this accessible and original work imagines citizens without frontiers as a politics without community and belonging inclusion without exclusion where the frontier becomes a form of otherness that citizens erase or create This unique work brings forth a new and creative way to approach citizenship beyond boundaries that will appeal to anyone studying citizenship social movements and migration *European and International Perspectives on Telematics in Healthcare* Stephan H. Schug, 2001
