**Educational Change A Humanistic Approach:**

**Educational Change** Ray Eiben,Alan P. Milliren,1976    **Educational Change** ,1976    **International Handbook of Interpretation in Educational Research** Paul Smeyers,David Bridges,Nicholas C. Burbules,Morwenna Griffiths,2015-01-06 This handbook focuses on the often neglected dimension of interpretation in educational research It argues that all educational research is in some sense interpretive and that understanding this issue belies some usual dualisms of thought and practice such as the sharp dichotomy between qualitative and quantitative research Interpretation extends from the very framing of the research task through the sources which constitute the data the process of their recording representation and analysis to the way in which the research is finally or provisionally presented The thesis of the handbook is that interpretation cuts across the fields both philosophically organizationally and methodologically By covering a comprehensive range of research approaches and methodologies the handbook gives early career researchers what they need to know in order to decide what particular methods can offer for various educational research contexts fields An extensive overview includes concrete examples of different kinds of research not limited for example to teaching and learning examples as present in the Anglo Saxon tradition but including as well what in the German Continental tradition is labelled p dagogisch examples from child rearing and other contexts of non formal education with full description and explanation of why these were chosen in particular circumstances and reflection on the wisdom or otherwise of the choice combined in each case with consideration of the role of interpretation in the process The handbook includes examples of a large number of methods traditionally classified as qualitative interpretive and quantitative used across the area of the study of education Examples are drawn from across the globe thus exemplifying the different opportunities and constraints that educational research has to confront in different societies    **Education Reform and Internationalisation** David Bridges,2014-08-28 This collection presents new investigations into the role of heritage languages and the correlation between culture and language from a pedagogic and cosmopolitical point of view    **Education for Social Change** Douglas Bourn,2021-12-16 This book introduces students to education as a vehicle for social change Douglas Bourn begins by providing historical context of how education has been linked to social change around the world and moves on in the second section of the book to discuss potential theoretical and conceptual frameworks for thinking about education for social change The third sections covers how social change has been explored and promoted within different areas of learning including schooling youth work and higher education The fourth section looks at the opportunities and challenges for promoting education for social change and reviews current international initiatives including those of global citizenship and climate change Key theorists are introduced throughout the book including bell hooks Dewey Giroux Gramsci and Freire Each chapter begins with an opening question and ends with bulleted concluding points questions for discussion and a further reading list The book includes a foreword written by Tania Ramalho State University of New York USA    *Policy Transfer and Educational Change* David

Scott,Mayumi Terano,Roger Slee,Chris Husbands,Raphael Wilkins,2016-05-15 Improving education through policy learning is an important notion for countries in need of educational reform However identifying a successful set of practices and transferring them from one national setting to another is a complex exercise Drawing from their extensive experience the authors explore a single case study of policy transfer in India demonstrating how and under what conditions educational reforms can be put into practice successfully and sustainably Coverage includes Policy Learning Inclusive Practices School Autonomy and School Leadership India and its system of education This book offers a unique international perspective on educational reform and is a useful resource for teachers policy makers and postgraduate level students **Educational Reform** Jordan T. Ville,2001 This book brings together the literature in a field which may define the 21st century Can economic and technological progress continue with educational systems which seem to answer to no one but themselves and which output graduates who can barely read and write and who have only the faintest clue how to use a map This bibliography provides access via Title Author and Subject Indexes Contents Educational Accountability Educational Change Educational Equalisation Educational Leadership Educational Planning Educational Indicates **Perspectives and Trends in Education and Technology** João Vidal Carvalho,António Abreu,Eusébio Ferreira da Costa,Enrique Vázquez-Justo,Hernán Viguera Figueroa,2024-11-29 This book from the LNNS Series is composed of the best selected papers accepted for presentation and discussion at the 2024 International Conference in Information Technology Education ICITED 24 The ICITED is a multidisciplinary conference with a special focus on new Technologies and Systems in the Education sector and was held between July 11 and 13 2024 The ICITED 24 was supported by the Pernambuco University Recife Brazil and by IADITI International Association for Digital Transformation and Technological Innovation The International Conference in Information Technology Education is an international forum for researchers and professionals in the education sector which enables the discussion of the latest innovations trends and concerns in several areas in the education sector associated with information technologies and systems It is an event for professionals in the sector in search of technology solutions where academics IT experts and business managers meet to discuss new ideas that help them maximize the potential of learning processes through technology The ICITED 24 Scientific Committee is composed of a multidisciplinary group of 143 experts who assessed some 262 papers from 26 countries received for each of the main topics proposed for the conference The papers accepted for presentation and discussion at the conference are published by Springer and will be submitted for indexing by ISI SCOPUS EI Compendex Google Scholar and SpringerLink *Catalog of Copyright Entries.
