Edsel Affair:

The Rest of the Edsel Affair C. Gayle Warnock, 2007 If someone had told me years ago that I was going to write a book I would have told them that they were crazy For years I've been writing down my deepest thoughts and emotions with absolutely no plans of exposing them to the public These writings act as short stories that chronicle my life's experiences These testimonies are emotional some of them are spiritual some of them funny some painful and some of them even deal with life's lessons that I had to struggle with on my own There would be times when my closest friends would share their secrets with me and because I felt deeply moved from what they shared I would put myself in their shoes and try to find a better way of resolving the issue Some of these encounters have even frustrated me so deeply that I would have absolutely no choice but to write them down just to get them off my chest My purpose is to inspire motivate and encourage those who want to make a difference or those who need another chance to make it right Every occurrence has allowed me to grow and be stretched in directions beyond explanation I enjoy writing poetry that every one can relate to These are more than just some words scribbled down on paper These are experiences and stories that I would like to share publicly I understand that any artistic expression may be subject to scrutiny This book is a reflection of me and anyone who can relate to it in some form or fashion It's for those who believe in the power of words and their ability to teach minister and heal *The Edsel Affair* C. Gayle Warnock, 1980

Auto-Opium David Gartman, 2013-01-11 This much needed book is the first to provide a comprehensive history of the profession and aesthetics of American automobile design The author reveals how the appearance of the automobile was shaped by the social conflicts arising from America's mass production system He connects the social struggles of American society with the organizational struggles of designers to create symbol laden substitutes for the American dream Theoretically sophisticated lucid and compelling *Auto Opium* will appeal to all interested in the American obsession with the car

Auto Mania Tom McCarthy, 2007-01-01 The twentieth century American experience with the automobile has much to tell us about the relationship between consumer capitalism and the environment Tom McCarthy contends In *Auto Mania* he presents the first environmental history of the automobile that shows how consumer desire and manufacturer decisions created impacts across the product lifecycle from raw material extraction to manufacturing to consumer use to disposal From the provocative public antics of young millionaires who owned the first cars early in the twentieth century to the SUV craze of the 1990s *Auto Mania* explores developments that touched the environment Along the way McCarthy examines how Henry Ford's fetish for waste reduction tempered the environmental impacts of Model T mass production how Elvis Presley's widely shared postwar desire for Cadillacs made matters worse how the 1970s energy crisis hurt small cars and why baby boomers ignored worries about global warming McCarthy shows that problems were recognized early The difficulty was addressing them a matter less of doing scientific research and educating the public than implementing solutions through America's market economy and democratic government Consumer and

producer interests have rarely aligned in helpful ways and automakers and consumers have made powerful opponents of regulation. The result has been a mixed record of environmental reform with troubling prospects for the future.

Innocents, Incidents, and Indiscretions C. Gayle Warnock, 1996 **From Family Firms to Corporate Capitalism** Kristine Bruland, Patrick O'Brien, 1998 What explains the growth of a business and more broadly the development or decline of a whole economy? What role do particular entrepreneurs or indeed a culture of entrepreneurship play? Does the evidence suggest that a particular structure or organizational form was or should be adopted to ensure best practice and commercial success? These fundamental questions have long pre-occupied business and economic historians. With the current expansion of business and management education and training the investigations and findings of the historian may have wider significance and relevance. This volume has been stimulated by the work of Peter Mathias one of the leading figures in this field in the post-war period. Here a number of his former students many now internationally distinguished historians pay tribute in a book that explores the move from family firms to corporate capitalism. In a series of chapters they explore at the level of the firm the myriad of micro decisions that ultimately help to explain the overall performance of industries, sectors and national economies as they evolve through time. The contributors argue that sustained growth has never been a matter of a few spectacular technical breakthroughs. Instead it rests on subtle economic and social transformations in cultures, in economic organizations and in the roles of science and technology.

The Challenge of Affluence Avner Offer, 2006-03-09 Since the 1940s Americans and Britons have experienced rising material abundance but also a range of social and personal disorders including family breakdown, obesity and addiction. Drawing on the latest cognitive research Avner Offer presents a detailed and reasoned critique of the modern consumer society.

Great Brand Blunders Rob Gray, 2014-02-25 What causes some marketing campaigns to go spectacularly wrong? Why might new product launches, publicity stunts or rebranding exercises be doomed to failure? How can you prevent a social media backlash spiralling out of control? When should you apologise, cut your losses, make a U-turn? Great Brand Blunders takes an informed and at times acerbic look at the worst marketing and social media disasters of all time and treats them as an amazing learning opportunity. The first book for several years to examine brand failures and the first with a special focus on social media, Great Brand Blunders offers a mix of entertaining commentary and authoritative advice and features several first-hand interviews with those involved. A fascinating roll call of over 150 brands in sticky situations, the book will be required reading not only for professional marketers, academics and students but for anyone interested in the gritty stories and testing challenges that lie behind the polished brand images marketers hope to present to the public. From awful advertising to ridiculous brand extensions via misguided sales promotions and ill-conceived social media activity, Great Brand Blunders pulls no punches, putting rash decisions under the microscope and offering advice on how to avoid landing in the same foul mess yourself.

Corporate Disasters: What Went Wrong and Why Gale, Cengage Learning, 2017-04-21 Corporate Disasters: What Went Wrong and Why profiles the biggest

corporate mistakes or misdeeds throughout history covering the people the times the decisions made This volume covers Management and Leadership Failures Each essay puts the business and its operators in the context of its own time explaining the market social and technology forces at play and each explores the key make or break decisions that led to disaster **History's Greatest Automotive Mysteries, Myths and Rumors Revealed** Matt Stone, Preston

Lerner, 2012-11-05 Chock full of amusing car related trivia and miscellany Detroit News Did you know that after James Dean's death behind the wheel of his Porsche 550 Spyder parts of the car were sold off and said parts then cursed their new owners Or did they Did you know Bonnie and Clyde stole Ford V 8s almost exclusively as getaway cars because they were the fastest cars of their day and that Clyde wrote Henry Ford a thank you note Did you know that a monkey by the name of Jocko Flocko once won a Grand National race NASCAR Hall of Fame driver Tim Flock helped Rumors myths and fantastic stories have swirled around the automobile for over a century This fascinating collection compiles funny stories and a trunkful of trivia What was the first car to break the sound barrier Who won the first Indy 500 What kind of car was dancer Isadora Duncan in when she was killed What car performed the most spectacular stunt in the James Bond movie oeuvre In all of these cases the answers may not be what you think Entertaining stories of vehicular crime racing moviemaking and various mishaps and mayhem The New York Times **Field & Stream**, 1980-09 FIELD STREAM America's largest outdoor sports magazine celebrates the outdoor experience with great stories compelling photography and sound advice while honoring the traditions hunters and fishermen have passed down for generations **The Design Method** Sydney A. Gregory, 2013-11-27

American Automobile Advertising, 1930-1980 Heon Stevenson, 2008-11-24 This book provides a comprehensive history of American print automobile advertising over a half century span beginning with the entrenchment of the Big Three automakers during the Depression and concluding with the fuel crises of the 1970s and early 1980s Advances in general advertising layouts and graphics are discussed in Part One together with the ways in which styling mechanical improvements and convenience features were highlighted Part Two explores ads that were concerned less with the attributes of the cars themselves than with shaping the way consumers would perceive and identify with them Part Three addresses ads oriented toward the practical aspects of automobile ownership concluding with an account of how advertising responded to the advance of imported cars after World War II Illustrations include more than 250 automobile advertisements the majority of which have not been seen in print since their original publication **The Lincoln Story** Thomas E. Bonsall, 2004 Lincoln's heritage is as rich as that of any car built anywhere in the world and more impressive than all but a few Generations of Americans have known it as the Car of Presidents since the days of Franklin Roosevelt the White House has exhibited a marked preference for Lincolns This comprehensive illustrated history describes in detail the successes and failures of the Lincoln from World War II up to the present day Aviator It discusses the forces in the market and in Ford Motor Company that have affected the Lincoln and is a must read for anyone interested in this classic marque The Living and the Dead

Paul Hendrickson, 2015-02-18 One of the finest books to emerge from the Vietnam experience *The Living and the Dead* presents a brilliant study of Robert McNamara his decision making during the war and the way his decisions affected his own life and the lives of five individuals A monumental work about power its abuse and its victims this meticulously researched beautifully written explosive and passionate book is often in conflict with McNamara's version of events First serial in the Washington Post 8 photos [The Other Fifties](#) Joel Foreman, 1997 From the Edsel to Eisenhower from Mau Mau to Doris Day and from Ayn Rand to Elvis contributors to *The Other Fifties* topple the decade's already weakened image as a time of unprecedented peace prosperity and conformity Representing the fifties as a period of cultural transformation contributors reveal the gradual unmaking of traditions and value systems that took place as American culture prepared itself for the more easily observed cultural turbulence of the 1960s Well known contributors demonstrate how television the novel the Hollywood movie the Broadway musical and rock and roll assaulted midcentury American attitudes toward sexuality race gender and class so altering public sensibilities that what was novel or shocking in the fifties seems tame or even downright difficult to grasp today They also rebut the widely held view that 1950s consumerism led to cultural homogeneity replacing this view with a picture of robust popular markets that defied conservative controls and actively subverted conventional norms and values Brushing away the haze of an era *The Other Fifties* will help readers understand the decade not as placid or repressed but as a time when emancipatory desires struggled to articulate themselves *Dream Car* Dimitry Anastakis, 2024-03-26 *Dream Car* tells the story of entrepreneur Malcolm Bricklin's fantastical 1970s era Safety Vehicle 1 SV1 audaciously launched during a tumultuous breakpoint in postwar history The tale of the sexy yet safe SV1 reveals the influence of automobiles on ideas about the future technology entrepreneurship risk safety showmanship politics sex gender business and the state as well as the history of the auto industry's birth decline and rebirth Written as an open road the book invites readers to travel a narrative arc that unfolds chronologically and thematically *Dream Car*'s seven chapters have been structured so that they can be read in any order determined by whichever theme each reader finds most interesting The book also includes a musical playlist of car songs from the era and songs about the SV1 itself **Project Management Tools and Techniques** Aidan Turner, 2025-09-22 *Project Management Tools and Techniques A Guide to Good Practice* presents a unique approach to the teaching of project management by blending theory application and case studies Each chapter focuses on a specific tool or technique used by the project manager in a practical and applied way The chapters approach this by addressing the following questions What does the tool or technique provide for the project How is the tool technique delivered managed and used A case study of the tool or technique in use The historical context and development of the tool This book covers core project management topics such as project feasibility lifecycle scheduling budgets risk complexity leadership handover and much more Together the four sections of each chapter look at the benefits of using the PM process or why the process is used followed by how it is delivered and then address what can go wrong if it is ignored before noting

its development as a tool within Modern Project Management Each chapter includes a discussion of how each tool has developed using examples of landmark projects throughout the world to enable the reader to bring the theoretical and practical elements together This new textbook covers essential skills required for successful project management allowing both students and practitioners to apply the topics discussed directly to their environment heightening understanding of the what how and why of project management This book is suitable for use on a variety of global project management courses in disciplines across engineering built environment and business It is also a useful reference for newly established PMs looking for a handy toolkit

Divining Desire Liza Featherstone, 2018-02-15 Over the course of the last century the focus group has become an increasingly vital part of the way companies and politicians sell their products and policies Few areas of life from salad dressing to health care legislation to our favorite TV shows have been left untouched by the questions put to controlled groups about what they do and don't like Divining Desire is the first ever popular survey of this rich topic In a lively sweeping history Liza Featherstone traces the surprising roots of the focus group in early twentieth century European socialism its subsequent use by the Mad Men of Madison Avenue and its widespread deployment today She also explores such famous failures of the method as the doomed launch of the Ford Edsel with its vagina shaped radiator grille and the even more ill fated attempt to introduce a new flavor of Coca Cola which prompted street protests from devotees of the old formula As elites have become increasingly detached from the general public they rely ever more on focus groups whether to win votes or to sell products And in a society where many feel increasingly powerless the focus group has at least offered the illusion that ordinary people will be listened to and that their opinions count Yet it seems the more we are consulted the less power we have That paradox is particularly stark today when everyone can post an opinion on social media our 24 hour focus group yet only plutocrats can shape policy In telling this fascinating story Featherstone raises profound questions about democracy desire and the innermost workings of consumer society

Saving Ourselves from Big Car David Obst, 2025-09-16 Cars are killing people and making the planet uninhabitable Crashes take the lives of more than a million people around the world each year Air pollution linked to motor vehicles contributes to even more untimely deaths Highways and unsafe streets have devastated cities yet traffic congestion still swallows up countless hours And carbon emissions from transportation are a key driver of climate change which now threatens to make the world unlivable Why do we still worship at the altar of the car How can we find alternatives that are healthier for the planet and ourselves This book exposes how Big Car the complex of companies in the automobile oil insurance media and concrete industries that promote and entrench car dependence has pursued profit at the expense of the common good David Obst explores how Big Car gained almost immeasurable influence over our lives weighing the benefits and the costs of reliance on private automobiles He details how industry covered up the harms of lead additives fought against seatbelts and continues to fund climate change denialism Obst considers the future of mobility surveying how cities from Taipei to Tempe Copenhagen to Chicago are experimenting with forms of transportation

that offer alternatives to the dominance of cars Provocative and comprehensive Saving Ourselves from Big Car is a powerful wake up call for us to change how we use cars before it s too late
