## Educacion En La Ciudad La:

**Educación, universidad y sociedad: el vínculo crítico (eBook)** Hugo Casanova,2004-07-21 La educación de nuestros días está inmersa en un conflicto de complejas dimensiones y reproduce las desigualdades en la distribución de bienes y saberes a nivel internacional. Es posible afirmar que la educación vive una suerte de modernización sin modernidad que se manifiesta por contar con infraestructuras de alto nivel formal y tecnológico bajo condiciones de desigualdad y de opresión individual y social. Dicho escenario que alcanza su mayor expresión en las naciones más pobres del planeta se expresa también de una manera inocultable prácticamente todos los países incluyendo naturalmente los de América Latina y el sur de Europa. Por sus alcances globales la modernización es un factor que enlaza real o virtualmente a grupos y a individuos más allá de las fronteras geográficas. En tal sentido el eje configurado por la modernización y la educación pone en contacto a determinados segmentos sociales que de manera independiente a sus orígenes culturales y regionales llegan a encontrar grandes afinidades entre sí merced a sus condiciones e intereses socioeconómicos.

En la educación de principios del siglo XXI los grandes avances y los indicadores exitosos siguen teniendo como contraparte la ignorancia y la desigual distribución social y regional del conocimiento. *Historia de la educación. 1, De la antiguedad al 1500* Mario Alighiero Manacorda,2004-05-31 El libro que aquí presentamos amplía y profundiza los temas de una serie de transmisiones radiofónicas intituladas La escuela a través de los siglos realizada por el departamento de educación de la Rai TV italiana y fundamentada en la lectura directa de los textos. De manera inevitable más exhaustivos en la parte antigua y centrados en una serie de leyes y estatutos significativos para la parte moderna y contemporánea estos volúmenes sea por los textos solemnes o curiosos sea por la lectura desencantada que sugiere a través de ellos propone un nuevo modo de conocer y comprender la historia de la educación. Por el logrado esfuerzo de síntesis se trata de un manual cuyas características lo convierten en una rica fuente de noticias, una óptima y rápida integración al conocimiento de la historia de la educación y al mismo tiempo una lectura básica con miras a la revisitación selecta de textos clásicos conocidos y no tan conocidos.

*Campo intelectual de la educación y la pedagogía* Vargas Guillén, Germán, Ruiz Silva, Alexander, Bustamante Zamudio, Guillermo, Martínez Boom, Alberto, Orozco Tabares, Jhon Henry, Herrera, Marta Cecilia, Noguera Ramírez, Carlos Ernesto, Páramo Bernal, Pablo, Torres Carrillo, Alfonso, Cárdenas Salgado, Fidel Antonio, Cárdenas Paez, Alfonso, 2024-12-15 Que hace de la educación y la pedagogía un campo de conocimiento. Hasta dónde pueden llegar los límites y enfoques de la educación como objeto de estudio. Este libro reúne las reflexiones más recientes y transformadoras de la primera Cátedra Doctoral de la Universidad Pedagógica Nacional un espacio donde docentes e investigadores del Doctorado Interinstitucional en Educación trazaron nuevas rutas para comprender y transformar la práctica educativa en el país. A través de una selección compilación de artículos esta obra explora los fundamentos teóricos y epistemológicos de la educación desde enfoques tan diversos como la fenomenología, la pedagogía urbana, la educación popular y la teoría de la complejidad entre otros. Cada capítulo cuestiona y redefine conceptos clave iluminando el diálogo.

entre la historia las políticas educativas y las dinámicas sociales Dirigido tanto a académicos como a lectores curiosos por entender el impacto de la educación en la construcción de una sociedad democrática este libro no solo analiza la disciplina pedagógica sino que también ofrece herramientas y perspectivas que prometen influir en el futuro de las prácticas educativas en Colombia
