Education And Morals An Experimentalist Philosophy Of Education:

Education and Morals John Lawrence Childs, 1950 *Education and Morals* John L. Childs, 2011-10-01 **Educational and Morals** John Lawrence Childs, 1950 **Educational Philosophy** Edward J. Power, 2021-12-12

The first step in education's long road to respectability lay in the ability of its proponents to demonstrate that it was worthy of collaborating with traditional disciplines in the syllabus of higher learning. The universities where the infant discipline of education was promoted benefited from scholars who engaged in teaching and research with enthusiasm and preached the gospel of scientific education. These schools: Teachers College, Columbia University, the University of Chicago, and Stanford University gained a reputation as oases of pedagogical knowledge. Soon public and private colleges alike introduced professional academic programs for the preparation of teachers. Foremost among the subjects for these programs was education philosophy, with its long history and the impeccable credentials of its ancient and modern expositors. Although the principal focus of this study is the history of educational philosophy in colleges and universities, it also recognizes educational philosophy's antecedents. Chapters cover ancient roots, Christian educational theory, educational theory and the modern world, philosophy and education in early America, development of philosophies of education, disciplinary maturity for educational philosophy and prospects. There is a bibliography and an index.

Education and the Philosophy of Experimentalism John Lawrence Childs, 1931 *Works about John Dewey, 1886-1995* Barbara Levine, 1996

Although she has devised a new format for this bibliography, Barbara Levine has included most of the materials published in the two editions of the Checklist of Writings about John Dewey. Material new to this volume includes recently discovered items published during the ninety years covered by the Checklist, as well as items published since 1977. Because certain studies at best have only marginal value or because they can be obtained through ordinary library research tools, Levine has deleted some classes of material that appeared in the 1974 and 1978 Checklist editions: primary sources with only brief references to Dewey; the entire section entitled Unpublished Works about Dewey, which included theses, dissertations, and papers presented at meetings; and Educational Resources Information Center (ERIC) documents. Levine has included all of the material published about Dewey during the 108 years between 1886 and 1994 and has included many 1995 items as well. She has verified all items and, whenever possible, obtained copies. She has discovered hundreds of items omitted from the second edition of the Checklist and has augmented the current bibliography by nearly two thousand items published since 1977. The bibliography is divided into four parts. The first, Books and Articles about Dewey, lists works alphabetically by author. Replies and responses to articles immediately follow the work cited. The Reviews of Dewey's Works lists titles alphabetically. Reviews are grouped alphabetically by journal under the Dewey work reviewed. The Author Index includes multiple authors and editors, authors of replies and responses, and reviewers of works, both by and about Dewey. The Title/Key Word Index lists key words from most titles and subtitles. The CD-ROM version of *Works about John Dewey* contains both Windows and Macintosh formats and
