Walsh, 2012-11-12 Education Reform and Social Change is about addressing and changing the structures policies and practices of schools that differentially advantage white middle class native English speakers over students of color for whom English may be a second or additional language It is also about helping people to think critically about what it is schools do and to consider more democratic participatory and equitable approaches The chapters in the text provide first hand documentation of the voices struggles and visions of students parent activists advocates attorneys and educators involved in educational and social change processes It chronicles real life efforts of people challenging the status quo and working to build a more participatory equitable and transformative future The goal of this book is twofold first to consider the structures policies and practices that shape and limit educational change and learning and teaching and second to document grassroots collaborative and creative efforts to change them It offers a critical framework both for conceptualizing and for actualizing educational change Organized into four sections this book provides a theoretical and practical framework for thinking about educational reform and social change one that moves from the broader structural concerns that are embedded in policy to case studies that document activism and collaborative efforts to change school city and state policies to classroom based directions and initiatives and to the construction of personal and collective visions for a more democratic equitable and just education Each section includes an overview of the chapters necessary background information to help the reader contextualize what follows and guiding questions to encourage reflective thought and engagement with the text and to invite personal linkages Two resource sections are included at the end of the volume Radical Educational Reform Critical Pedagogy and Multicultural Education Selected Readings and Resources and National Organization Networks and Resources with a Critical Perspective *The Literacy Curriculum and Bilingual Education* Karen Cadiero-Kaplan, 2004 This book focuses on how ideologies of literacy influence literacy instruction and bilingual education policies While classroom teachers in both English and other languages are given a wealth of curriculum guides and texts and are coached and trained as to how to best teach their subjects issues of policy ideology or politics are rarely engaged or explored The Literacy Curriculum and Bilingual Education offers a critical look at how literacy is defined by whom and for what purposes illustrating not only how ideology influences policy and curriculum but how our own ideologies relate to curriculum and teaching Utilizing critical theory this book demonstrates how functional cultural progressive and critical ideologies informed by particular social political and historical contexts develop and situate policies for literacy programs and bilingual education *Cimboa*, 1996 Revista caboverdiana de letras artes e estudos a journal of letters arts and studies **Parents Left Behind** Kyshun Andre Webster, 2010 Parents Left Behind is an in depth analysis of the policy implementation process for Section 1118 of the No Child Left Behind NCLB federal legislation Section 1118 was designed to increase parental involvement in local schools Four years after being signed into law the question of how Section

1118 is understood and is being implemented by selected stakeholders from the local state and federal levels were not answered in the available literature This multi level case study began the examination effort by describing how parental involvement programs were being implemented according to federal mandates in NCLB and how policy decisions to implement this law were made and interpreted by public actors at each governmental level to the street level context of the New Orleans Public School District Findings from this study suggest that resources for implementation were at best inadequate communications and translations of the policy have been slow and parents and teachers have been left behind not having been significantly involved in or informed about the policy The study provides insights and recommendations for federal policymakers State Education Authorities SEA and Local Education Authorities LEA to improve implementation and monitoring in future iterations of the law Awards and recognition Webster selected as 2010 Characters Unite award recipient

Language, Power and Pedagogy Jim Cummins,2000-09-22 Population mobility is at an all time high in human history One result of this unprecedented movement of peoples around the world is that in many school systems monolingual and monocultural students are the exception rather than the rule particularly in urban areas This shift in demographic realities entails enormous challenges for educators and policy makers What do teachers need to know in order to teach effectively in linguistically and culturally diverse contexts How long does it take second language learners to acquire proficiency in the language of school instruction What are the differences between attaining conversational fluency in everyday contexts and developing proficiency in the language registers required for academic success What adjustments do we need to make in curriculum instruction and assessment to ensure that second language learners understand what is being taught and are assessed in a fair and equitable manner How long do we need to wait before including second language learners in high stakes national examinations and assessments What role if any should be accorded students first language in the curriculum Do bilingual education programs work well for poor children from minority language backgrounds or should they be reserved only for middle class children from the majority or dominant group In addressing these issues this volume focuses not only on issues of language learning and teaching but also highlights the ways in which power relations in the wider society affect patterns of teacher student interaction in the classroom Effective instruction will inevitably challenge patterns of coercive power relations in both school and society
