Cultural Capital John Guillory, 2023-10-24 An enlarged edition to celebrate the thirtieth anniversary of John Guillory's formative text on the literary canon Since its publication in 1993 John Guillory's *Cultural Capital* has been a signal text for understanding the codification and uses of the literary canon *Cultural Capital* reconsiders the social basis for aesthetic judgment and exposes the unequal distribution of symbolic and linguistic knowledge on which culture has long been based Drawing from Pierre Bourdieu's sociology Guillory argues that canon formation must be understood less as a question of the representation of social groups and more as a question of the distribution of cultural capital in schools which regulate access to literacy to the practices of reading and writing Now as the crisis of the canon has evolved into the so called crisis of the humanities Guillory's groundbreaking incisive work has never been more urgent As scholar and critic Merve Emre writes in her introduction to this enlarged edition Exclusion selection reflection representation these are the terms on which the canon wars of the last century were fought and the terms that continue to inform debates about for instance decolonizing the curriculum and the rhetoric of antiracist pedagogy

Within School Walls AnnMarie Wolpe, 2012-05-16 Drawing from her in depth ethnographic study of a London comprehensive school the author shows how gender formation for both girls and boys is mediated by disciplinary control sexuality and the curriculum Her findings for girls and boys with their important emphases are revealed So are the responses and perspectives of the teachers Prior to publication of this volume much feminist writing depicted the subordination of girls as a function of patriarchal control both in terms of the teaching the girls receive and the behaviour of the boys around them The author s narrative implicitly and explicitly challenges some of these views

Culture and Educational Policy in Hawai'i Maenette K.P. A Benham, Ronald H. Heck, 2013-10-18 This comprehensive educational history of public schools in Hawai i shows and analyzes how dominant cultural and educational policy have affected the education experiences of Native Hawaiians Drawing on institutional theory as a scholarly lens the authors focus on four historical cases representing over 150 years of contact with the West They carefully link historical events significant people educational policy and law to cultural and social consequences for Native Hawaiian children and youth The authors argue that since the early 1800s educational policy in Hawai i emphasizing efficiency has resulted in institutional structures that have degenerated Hawaiian culture self image and sovereignty Native Hawaiians have often been denied equal access to quality schools and resulting increased economic and social status These policies were often overtly or covertly racist and reflected wider cultural views prevalent across the United States regarding the assimilation of groups into the American mainstream culture The case of education in Hawai i is used to initiate a broader discussion of similar historical trends in assimilating children of different backgrounds into the American system of education The scholarly analysis presented in this book draws out historical political cultural and organizational implications that can be employed to understand other Native and non Native contexts Given the increasing cultural diversity of the United States and the perceived failure of the American educational system in light of these changes this book provides an exceptionally appropriate starting point to begin a discussion about past present and future schooling for our nation s children Because it is written and comes from a Native perspective the value of the insider view is illuminated This underlying reminder of the Native eye is woven throughout the book in Ha awina No ono o the sharing of thoughts from the Native Hawaiian author With its primary focus on the education of native groups this book is an extraordinary and useful work for scholars thoughtful practitioners policymakers and those interested in Hawai i Hawaiian education and educational policy and theory

Marxism Against Postmodernism in Educational Theory Mike Cole, Dave Hill, Peter McLaren, 2002-12-11 Postmodernism has become the orthodoxy in educational theory It heralds the end of grand theories like Marxism and liberalism scorning any notion of a united feminist challenge to patriarchy of united anti racist struggle and of united working class movements against capitalist exploitation and oppression For postmodernists the world is fragmented history is ended and all struggles are local and particularistic Written by internationally renowned British and American educational theorists Marxism Against Postmodernism in Educational Theory a substantially revised edition of the original 1999 work Postmodernism in Educational Theory critically examines the infusion of postmodernism and theories of postmodernity into educational theory policy and research The writers argue that postmodernism provides neither a viable educational politics nor the foundation for effective radical educational practice and offer an alternative
