Emerging Trends In Teacher Preparation The Future Of Field Experiences:

Emerging Trends in Teacher Preparation Gloria Appelt Slick, 1995-06-09 Critical issues facing the future of teacher education are presented in this book. The contributors tackle factors including multicultural education for an increasingly multicultural population, using technology in teacher preparation programmes, developing teacher leadership abilities for on the spot decision making, and international perspectives in teacher education. Teacher Education Programs and Online Learning Tools: Innovations in Teacher Preparation Hartshorne, Richard, Heafner, Tina L., Petty, Teresa, 2012-07-31 While online learning has become pervasive in many fields in higher education, it has been adopted somewhat slower in teacher education. In addition, more research is needed to empirically evaluate the effectiveness of online education in teacher preparation. Teacher Education Programs and Online Learning Tools: Innovations in Teacher Preparation presents information about current online practices and research in teacher education programs and explores the opportunities, methods, and issues surrounding technologically innovative opportunities in teacher preparation. It presents empirical evidence of teacher candidate learning and assessment in the context of various online aspects of teacher licensure.

This text calls together teacher educators who address the complex ways that social and environmental injustices like racism, sexism, classism, ableism, and speciesism weave together to produce dangerous conditions for all life. The volume shares with readers a glimpse into alternatives possible for teaching that are situational, local, and in support of social justice and sustainability. Contributors are Marissa E.
