**The First Emperor of China** Arthur Cotterell, 1989 Including Illustrations Of The Many Artefacts Of The Chin Period That Have Been Uncovered Together With Detailed Ground Plans And Cross Sectional Views Of The Three Main Pits This Is The Definitive Work On The Spectacular Findings At Mount Li Tomb Of China S First Emperor **The First Emperor of China** Jonathan Clements, 2015-05-12 Ying Zheng was born to rule the world claiming descent from gods crowned king while still a child He was the product of a heartless brutal regime devoted to domination groomed from an early age to become the First emperor of China after a century of scheming by his ancestors He faked a foreign threat to justify an invasion He ruled a nation under 24 hour surveillance He ordered his interrogators to torture suspects He boiled his critics alive He buried dissenting scholars He declared war on death itself Back of book **The First Emperor of China** Li Yu-Ning, 2017-10-03 This title was first published in 1975 The long history of China has produced many outstanding rulers but few as significant as Ch in Shih Huang the first emperor of China When he ascended the royal throne of Ch in as King Cheng in 246 B C the territory of China was divided among several rival kingdoms the last of a large number of states which had been engaged in almost uninterrupted warfare for centuries Through a combination of warfare diplomacy and intrigue King Cheng successively annihilated the rival six states destroying the last in 221 B C Since 1972 a radically different official view of the First Emperor has been given prominence throughout China Now he is seen as a farsighted ruler who destroyed the forces which had kept China divided unified the nation and established the first centralized state in Chinese history This phenomenon prompts students of Chinese history and politics alike to ask Is this only a historical controversy If not what might be the motivation behind this movement It is hoped that the materials in this volume in addition to providing a representative sampling of the current reinterpretation of Ch in Shih Huang may also be helpful in formulating answers to the above and more questions *Emperor of China: Self-portrait of K'ang-Hsi* Jonathan D. rise of Qin and the military conquest of the warring states The First Emperor and the Qin empire Imperial tours and mountain inscriptions The First Emperor s tomb the afterlife universe A two thousand year old underground empire **The Emperors of China in a Nutshell Volume 1** Bill McCann, 2015-03-12 Paper the umbrella gunpowder the compass porcelain the civil service silk printing ice cream football and pasta These and much else were first given to the world by China She also has longest continuous civilisation the world has ever known stretching back for more than 4 600 years For a little over 4 500 of those years she was ruled by a single emperor Her history under those emperors stretches from the end of the New Stone Age through the Bronze and Iron Ages right down to the early 20th century We are fortunate that the Chinese began to keep detailed records of the lives of the emperors and events in their reigns from an early date The first reliable

written records in China appeared more than 3 200 years ago For the 1 400 years before that we have the records of an oral tradition which was written down at a later date The period covered by this first volume in the Nutshell Series on Chinese Emperors covers the first 1 012 years of that oral tradition Naturally there are problems in assigning precise dates to events derived at a distance from any oral tradition and it was no surprise to find that this was the case here In fact there is great confusion and frequent contradiction in the dates for the earliest emperors quoted in the various histories available to us today in libraries and on the internet As a result in order to remain consistent it was necessary to go back to the basics and produce a revised chronology especially for this series This was actually an exciting piece of work and incorporated evidence from the latest archaeological work in the areas traditionally associated with the Yellow Emperor and the Xia Dynasty The precise details of the methodology used in constructing this chronology are set out in Part One Amongst other results the revised chronology has allowed us to date the first practical instrument for observing the winter solstice has given us a date for the earliest solar eclipse on record given us dates for the earliest two earthquakes ever recorded and has given us a date for the first ever recorded volcanic winter in planet earth s history Internally the revised chronology gives us dates for the reign of the Yellow emperor as the Han Chinese people still look on the Yellow Emperor as the father of their civilisation and their remote ancestor this date is of deep cultural significance It has also proposed a working solution to the problems surrounding the dating of the Xia and early Shang Dynasties The chronology for the Xia Dynasty is internally consistent and can be firmly anchored to the volcanic winter associated with the catastrophic eruption at Thera in 1628 BC As for the Emperors themselves we find them heroically fighting devastating floods composing music and developing new musical instruments building a solar observatory and maintaining it over a period of more than 500 years indulging in ornithology and an naming new bird species and most human of all perhaps indulging in wild alcohol fuelled sex orgies on the surface of a lake filled with wine
