Empire On The Pacific:

Empire on the Pacific Norman Arthur Graebner, 2018-12-12 In this stimulating volume which was originally published in 1955 Professor Norman A Graebner argues that historians have exaggerated the role played by the spirit of manifest destiny in the expansionism of the 1840s In his view neither the overland migrations nor eastern public opinion had any direct bearing on the diplomacy that won Oregon and California for the United States Instead the principal objective of every statesman from Jackson on was maritime the acquisition of the harbors at San Diego San Francisco and the Strait of Juan de Fuca as gateways to the trade of the Orient Land was necessary to them merely as a right of way to ocean ports a barrier to be spanned by improved avenues of commerce This diplomacy reached a climax under Polk and triumphed with the Trist mission and the treaty of Guadalupe Hidalgo giving America its empire on the Pacific It is upon this premise that Professor Graebner has built a reinterpretation of the diplomacy of the 1840s An invaluable addition to any American History library

Empire on the Pacific N. A. Graebner, 1966 *Empire on the Pacific* Norman A. Graebner, 1989 **Empire on the Pacific** Norman A. Graebner, 1983-06-01 *American Empire in the Pacific* Arthur Power Dudden, 2022-02-16 American Empire in the Pacific explores the empire that emerged from the Oregon Treaty of 1846 with Great Britain and the outcome of the Mexican War in 1848 Together they signalled the mastery of the United States over the continent of North America the Pacific Ocean and the ancient civilizations of Asia at last lay within reach England's East India Company in the 17th and 18th centuries had introduced Asian wares including tea to the American colonists but wars against France and then the struggle for American independence held back expansion by Yankee entrepreneurs until 1783 Thereafter from the Atlantic seaboard American ships began regularly to reach China Merchants sailors and missionaries motivated toward trade and redemption like the Europeans they met along the way encountered the exotic peoples and cultures of the Pacific Would be empire builders projected a manifest destiny without limits Russian Alaska the native kingdom of Hawai i Japan Korea Samoa and Spain's Philippine Islands as well as a transcontinental railroad and an isthmian canal acquired strategic significance in American minds in time to outweigh both commerce and conversion *Winding up the British Empire in the Pacific Islands* W. David McIntyre, 2014-03-06 Little has been written about when how and why the British Government changed its mind about giving independence to the Pacific Islands Using recently opened archives *Winding Up the British Empire in the Pacific Islands* gives the first detailed account of this event As Britain began to dissolve the Empire in Asia in the aftermath of the Second World War it announced that there were some countries that were so small remote and lacking in resources that they could never become independent states However between 1970 and 1980 there was a rapid about turn Accelerated decolonization suddenly became the order of the day Here was the death warrant of the Empire and hastily arranged independence ceremonies were performed for six new states Tonga Fiji Solomon Islands Tuvalu Kiribati and Vanuatu The rise of anti imperialist pressures in the United Nations had a major role in this change in policy as did the pioneering

examples marked by the release of Western Samoa by New Zealand in 1962 and Nauru by Australia in 1968 The tenacity of Pacific Islanders in maintaining their cultures was in contrast to more strident Afro Asia nationalisms The closing of the Colonial Office by merger with the Commonwealth Relations Office in 1966 followed by the joining of the Commonwealth and Foreign Offices in 1968 became a major turning point in Britain's relations with the Islands In place of long nurtured traditions of trusteeship for indigenous populations that had evolved in the Colonial Office the new Foreign Commonwealth Office concentrated on fostering British interests which came to mean reducing distant commitments and focussing on the Atlantic world and Europe

Guardians of Empire Brian McAllister Linn, 1997 In a comprehensive study of four decades of military policy Brian McAllister Linn offers the first detailed history of the U S Army in Hawaii and the Philippines between 1902 and 1940 Most accounts focus on the months preceding the Japanese attack on Pearl Harbor By examining the years prior to the outbreak of war Linn provides a new perspective on the complex evolution of events in the Pacific Exhaustively researched *Guardians of Empire* traces the development of U S defense policy in the region concentrating on strategy tactics internal security relations with local communities and military technology Linn challenges earlier studies which argue that army officers either ignored or denigrated the Japanese threat and remained unprepared for war He demonstrates instead that from 1907 onward military commanders in both Washington and the Pacific were vividly aware of the danger that they developed a series of plans to avert it and that they in fact identified even if they could not solve many of the problems that would become tragically apparent on 7 December 1941

Empire of Love Matt K. Matsuda, 2005-01-20 In this broad ranging survey of Paris Tahiti Indochina Japan New Caledonia and the South Pacific generally Matt Matsuda illustrates the fascinating interplay that shaped the imaginations of both colonizer and colonized Drawing on a wealth of primary sources Matsuda describes the constitution of a French Pacific through the eyes of Tahitian monarchs Kanak warriors French politicians and prisoners Asian revolutionaries and Central American laborers among others He argues that French imperialism in the Pacific both real and imagined was registered most forcefully in languages of desire and love for lost islands promised wealth and riches carnal and spiritual pleasures and political affinities Exploring the conflicting engagements with love for and against the empire in the Pacific this book is an imaginative and ground breaking work in global imperial and colonial histories as well as Pacific histories

The Greater Second World War Andrew N. Buchanan, Ruth Lawlor, 2025-04-15 *The Greater Second World War* challenges the traditional temporal and geographic frameworks of World War II expanding the timeline to include a series of regional conflicts and revolutions that began in 1931 and continued into the mid 1950s These conflicts bookended a central paroxysm defined by the intervention of the United States into every theater of the war rendering it genuinely global The essays within this volume bring top level accounts of US European and Axis strategic maneuvering into conversation with social histories of bottom up agency in ways that destabilize conventional narratives Working with novel and overlapping scales of time and space and attuned to ongoing

and lively debates about the place of the nation state in global history after 1945 the scholars featured in *The Greater Second World War* seek to not only describe the war's beginnings in Asia and Africa rather than in Europe but also trace its ends to the shatter zones of the Soviet frontier the struggles for sovereignty in contested spaces and the long reaches of US imperialism well into the late twentieth century Together their contributions reveal how the cascading imperial and economic crises of the mid twentieth century triggered a series of discrete local and regional struggles that took on the character of a singular unified world war after the entry of the United States into every theater and almost every corner of the world

with a complicated and challenging legacy Along with the important new introduction they provide a basis for the reassessment of British imperialism in the Pacific region Public Documents Washington (State),1919 **Proceedings of the Third Pan-Pacific Science Congress, Tokyo, October 30th-November 11th, 1926** ,1928
