Emergent Horticultural Economics Of The Eastern Woodlands:

Emergent Horticultural Economies of the Eastern Woodlands William F. Keegan, 1987 *Mississippian Political Economy* Jon Muller, 2013-11-21 This ambitious work offers a coherent and comprehensive look at the material conditions underlying and stimulating political development in southeastern North America during the Mississippian period After introducing theoretical issues Muller addresses reproduction production distribution and consumption within their social and material contexts Examined through the lens of the production distribution and consumption of prestige and staple goods a profoundly domestic though significantly differentiated Mississippian political economy emerges This study's broad synthetic view ensures that neither environment nor ideology are overemphasized A fine statement of an important theoretical position the volume features considerable graphic and tabular presentation of data

Pottery Economics in Mesoamerica Christopher A. Pool, George J. Bey, 2022-08-23 Pottery is one of the most important classes of artifacts available to archaeologists and anthropologists Every year volumes of data are generated detailing ceramic production distribution and consumption How these data can be interpreted in relation to the social and cultural framework of prehistoric societies in Mesoamerica is the subject of this book Nine chapters written by some of the most well known and respected scholars in the field offer readers an in depth look at key advances from the past fifteen years These scholars examine ethnoarchaeological studies and the Preclassic Formative Classic and Postclassic periods and cover geographic areas from eastern to central Mesoamerica In a series of case studies contributors address a range of new and developing theories and methods for inferring the technological organizational and social dimensions of pottery economics and draw on a range of sociopolitical examples Specific topics include the impacts and costs of innovations the role of the producer in technological choices the outcomes when errors in vessel formation are tolerated or rectified the often undocumented multiple lives and uses of ceramic pieces and the difficulties associated with locating and documenting ceramic production areas in tropical lowlands A compelling collection that clearly integrates and synthesizes a wide array of data this book is the definitive text on pottery economics in Mesoamerica and an important contribution to the fields of anthropology archaeology ancient history and the economics of pre industrial societies

Rivers of Change Bruce D. Smith, 2007-01-21 Organized into four sections the twelve chapters of Rivers of Change are concerned with prehistoric Native American societies in eastern North America and their transition from a hunting and gathering way of life to a reliance on food production Written at different times over a decade the chapters vary both in length and topical focus They are joined together however by a number of shared rivers of change

Wisconsin Land and Life Robert Clifford Ostergren, Thomas R. Vale, 1997 Rolling green hills dotted with Holstein cows red barns and blue silos The Great Lakes ports at Superior Ashland and Kenosha A Polish wedding dance or a German biergarten in Milwaukee The dappled quiet of the Chequamegon forest A weatherbeaten but tidy town hall at the intersection of two county trunk highways Ojibwa families gathering wild rice into canoes The boat ride through the Dells The upland ridges of the Driftless Area falling away into hidden valleys These are images of Wisconsin's land and life images that evoke a strong sense of place This book Wisconsin Land and Life is an exploration of place a series of original essays by Wisconsin geographers that offers an introduction to the state's natural environment the historical processes of its human habitation and the ways that nature and people interact to create distinct regional landscapes To read it is to come away with a sweeping view of Wisconsin's geography and history the glaciers that carved lakes and moraines the soils and climate that fostered the prairies and great northern pine forests the early Native Americans who began to shape the landscape and who established forest trails and river portages the successive waves of Europeans who came to trade in furs mine for lead and iron cut the white pines establish farms work in the lumber and paper mills and transform spent wheatfields into pasture for dairy cattle Readers will learn too about the platting and naming of Wisconsin's towns the establishment of county and township governments the growth of urban neighborhoods and parishes the role of rivers railroads and religion in shaping the state's growth and the controversial reforestation of the cutover lands that eventually transformed hardscrabble farms and swamps into a sportsman's paradise Abundantly illustrated with photos and maps this book will richly reward anyone who wishes to learn more about the land and life of the place we know as Wisconsin

Archaeology of the Mississippian

Culture Peter N. Peregrine, 2013-04-11 First published in 1996 In recent years there has been a general increase of scholarly and popular interest in the study of ancient civilizations Yet because archaeologists and other scholars tend to approach their study of ancient peoples and places almost exclusively from their own disciplinary perspectives there has long been a lack of general bibliographic and other research resources available for the non specialist This series is intended to fill that need

Imperfect Balance David L. Lentz, 2000-09-26 We often envision the New World before the arrival of the Europeans as a land of pristine natural beauty and undisturbed environments However David Lentz offers an alternative view by detailing the impact of native cultures on these ecosystems prior to their contact with Europeans Drawing on a wide range of experts

from the fields of paleoclimatology historical ecology paleontology botany geology conservation science and resource management this book unlocks the secret of how the Western Hemisphere s indigenous inhabitants influenced and transformed their natural environment A rare combination of collaborators uncovers the changes that took place in North America Mexico Central America the Andes and Amazonia Each section of the book has been comprehensively arranged so that a botanical description of the natural vegetation of the region is coupled with a set of case studies outlining local human influences From modifications of vegetation to changes in soil wildlife microclimate hydrology and the land surface itself this collection addresses one of the great issues of our time the human modification of the earth

General History of the Caribbean Sued-Badillo, Jalil, UNESCO, 2003-12-31 This is the first in a six volume publication which examines the history of the Caribbean its people and landscape on a thematic basis This volume covers the history of the origins of the earliest Caribbean peoples and analyses their various political social cultural and economic organisations over time in and around the region Topics covered include ethnohistorical research biogeographic teleconnections the Palaeoindians in Cuba and surrounding regions agricultural societies indigenous societies at the time of the Spanish Conquest the hierarchy of chiefdoms and the development of slavery

Archaic Societies Thomas E. Emerson, Dale L. McElrath, Andrew C. Fortier, 2012-02-01 Sweeping and detailed this long awaited volume is an indispensable guide to the Archaic period across the midcontinent Archaeologists throughout the region share the latest excavation results and analytical perspectives to reveal and reinterpret the worlds of those Native peoples who lived there for some 9 000 years up to about 3 000 years ago Of particular concern is the establishment of relative and absolute chronologies for the Archaic period the relationships between the artifacts left behind and the peoples who made and used them and the changing interactions between cultures climate and landscape Archaeologists offer useful up to date overviews of Archaic societies assessment of stratigraphic sequences and detailed discussions of finds and interpretations from the Mississippi and Ohio river regions and the Great Lakes Comprehensive and accessible this landmark book is a must for anyone wanting to understand a crucial but little understood period in North America s prehistory

Foraging and Farming David R. Harris, Gordon C. Hillman, 2014-10-30 This book is one of a series of more than 20 volumes resulting from the World Archaeological Congress September 1986 attempting to bring together not only archaeologists and anthropologists from many parts of the world as well as academics from contingent disciplines but also non academics from a wide range of cultural backgrounds This volume develops a new approach to plant exploitation and early agriculture in a worldwide comparative context It modifies the conceptual dichotomy between hunter gatherers and farmers viewing human exploitation of plant resources as a global evolutionary process which incorporated the beginnings of cultivation and crop domestication The studies throughout the book come from a worldwide range of geographical contexts from the Andes to China and from Australia to the Upper Mid West of North America This work is of interest to anthropologists archaeologists botanists and geographers Originally published 1989

C4 Plant

Biology ,1998-12-21 Due to many issues related to long term carbon dynamics an improved understanding of the biology of C4 photosynthesis is required by more than the traditional audience of crop scientists plant physiologists and plant ecologists This work synthesizes the latest developments in C4 biochemistry physiology systematics and ecology The book concludes with chapters discussing the role of C4 plants in the future development of the biosphere particularly their interactive effects on soil hydrological and atmospheric processes *Exploring Agrodiversity* H. C. Brookfield,2001 Small farmers are often viewed as engaging in wasteful practices that wreak ecological havoc Exploring Agrodiversity sets the record straight Small farmers are in fact ingenious and inventive and engage in a diverse range of land management strategies many of them resourcefully geared toward conserving resources especially soil Using case studies from Africa Asia Latin America and the Pacific this book provides in depth analysis of agricultural diversity and explores its history People and Plants in Ancient Eastern North America Paul E. Minnis,2010-01-15 The environmental diversity of North America is astounding from the circumpolar tundra with few plants more than a few centimeters tall to the lush semitropical forests of the southeastern United States and Caribbean Basin No less remarkable is the record of plants usage by the various indigenous people who have been living there for more than twelve millennia For the vast majority of this time their livelihood food shelter fuel and medicine depended on their knowledge and use of the environment The most comprehensive overview in more than half a century about the interconnectedness of prehistoric Native Americans and their botanical world this book and its forthcoming companion volume *People and Plants in Ancient Western North America* present the latest information on three major topics the use of native plants the history of crops and their uses and how humans affected their environment In this volume expert scholars summarize the prehistoric ethnobotany of four regions the Eastern Woodlands W Cowan K Gremillion M Scarry B Smith and G Wagner Northeast G Crawford and D Smith Plains M Adair and Caribbean L Newsom and D Pearsall This volume contributes significantly to our understanding of the lives of prehistoric people as well as the forces that influenced their communities their ingenuity and their ecological impact It also serves as a guide for designing environmentally sustainable lives today Constructing Frames of Reference Lewis R. Binford,2019-05-07 Many consider Lewis Binford to be the single most influential figure in archaeology in the last half century His contributions to the New Archaeology changed the course of the field as he argued for the development of a scientifically rigorous framework to guide the excavation and interpretation of the archaeological record This book the culmination of Binford s intellectual legacy thus far presents a detailed description of his methodology and its significance for understanding hunter gatherer cultures on a global basis This landmark publication will be an important step in understanding the great process of cultural evolution and will change the way archaeology proceeds as a scientific enterprise This work provides a major synthesis of an enormous body of cultural and environmental information and offers many original insights into the past Binford helped pioneer what is now called ethnoarchaeology the study of living societies to help explain cultural patterns in the archaeological record and

this book is grounded on a detailed analysis of ethnographic data from about 340 historically known hunter gatherer populations The methodological framework based on this data will reshape the paradigms through which we understand human culture for years to come **Late Woodland Societies** Thomas E. Emerson,Dale L. McElrath,Andrew C.

Fortier,2000-01-01 Archaeologists across the Midwest have pooled their data and perspectives to produce this indispensable volume on the Native cultures of the Late Woodland period approximately A D 300 1000 Sandwiched between the well known Hopewellian and Mississippian eras of monumental mound construction the Late Woodland period has received insufficient attention from archaeologists who have frequently characterized it as consisting of relatively drab artifact assemblages The close connections between this period and subsequent Mississippian and Fort Ancient societies however make it especially valuable for cross cultural researchers Understanding the cultural processes at work during the Late Woodland period will yield important clues about the long term forces that stimulate and enhance social inequality Late Woodland Societies is notable for its comprehensive geographic coverage exhaustive presentation and discussion of sites artifacts and prehistoric cultural practices and critical summaries of interpretive perspectives and trends in scholarship The vast amount of information and theory brought together examined and synthesized by the contributors produces a detailed coherent and systematic picture of Late Woodland lifestyles across the Midwest The Late Woodland can now be seen as a dynamic time in its own right and instrumental to the emergence of complex late prehistoric cultures across the Midwest and Southeast

Hopewell Settlement Patterns, Subsistence, and Symbolic Landscapes A. Martin Byers,DeeAnne Wymer,2010-05-23 The IRA 1926 1936 *The Making of the American Landscape* Michael P. Conzen,2014-06-03 The only compact yet comprehensive survey of environmental and cultural forces that have shaped the visual character and geographical diversity of the settled American landscape The book examines the large scale historical influences that have molded the varied human adaptation of the continent s physical topography to its needs over more than 500 years It presents a synoptic view of myriad historical processes working together or in conflict and illustrates them through their survival in or disappearance from the everyday landscapes of today **The Cambridge World History of Food** Kenneth F. Kiple,Kriemhild Coneè Ornelas,2000

A two volume set which traces the history of food and nutrition from the beginning of human life on earth through the present *Regional Approaches to Mortuary Analysis* Lane Anderson Beck,2013-11-11 In this volume archaeologists offer a new direction for burial research by expanding the models for mortuary analysis from a site specific to a regional level Contributors explore how regional mortuary approaches allow the introduction of new questions about peer polity interactions and regional alliances extending traditional settlement system and exchange analyses This volume features case studies examining mortuary sites as components of the archaeological landscape **Companion Encyclopedia of Archaeology** Graeme Barker,1999 This comprehensive fully illustrated Companion answers the need for an in depth archaeology reference that provides authoritative coverage of this complex and interdisciplinary field The work brings

together the myriad strands and the great temporal and spatial breadth of the field into two thematically organized volumes. In twenty-six authoritative and clearly written essays, this Companion explores the origins, aims, methods, and problems of archaeology. Each essay is written by a scholar of international standing, and illustrations complement the text.
