*Emerging young architecture* Hans Achim Grube, 2004 Bewag hans Heinrich Müller prize for 2004 *wonderland*  
*MANUAL FOR EMERGING ARCHITECTS* *wonderland platform for european architecture*, Silvia Forlati, Anne Isopp, 2018-11-05 In den ersten fünf Jahren eines neuen Architekturbaus entstehen typische Probleme die bewältigt werden müssen Basierend auf den Erfahrungsberichten junger Architekturbaus die europaweit in Workshops eingeholt wurden analysiert dieses Handbuch bereinstimmend beobachtete häufig auftretende Problemfälle und bietet Ansätze zu deren Lösung Das Besondere sie wurden aus der täglichen Arbeitspraxis heraus entwickelt und sind real umsetzbar auch weil sie auf die verschiedenen Aufbauphasen ausgerichtet wurden Getting started Making mistakes Going Public Getting specialized und Making competitions Für die zweite Auflage wurden die Texte ergänzt und korrigiert Statistiken und Charts aktualisiert Das flotte Erscheinungsbild bleibt so ansprechend wie in der ersten Auflage *The Rise of Awards in Architecture* Jean-Pierre Chupin, Carmela Cucuzzella, Georges Adamczyk, 2022-09-06 This book is the first scientific study to focus on awards in architecture and the built environment investigating their exponential growth since the 1980s The celebration of excellence in architecture and related fields remains a phenomenon on which there is strangely little scientific scrutiny What is to be understood from the plethora of award winning projects award winning buildings and awarded professional practices in the built environment year after year Glossy images partake in an intense ballet at every local regional national or international award ceremony and they are meant to embody proofs of architectural excellence However it is necessary to take a critical distance to question what awards are meant to embody symbolize and perhaps measure Each of the 10 chapters in this volume is centered on one question related to themes as varied as the comparison of Pritzker and Nobel Prizes the Prix de Rome the redefinition of quality through awards green awards and sustainability the multiplication of sustainable awards heritage awards architecture book awards the awarding of school architecture awards as mediations and awards as pedagogical devices Many fields once consolidated have featured a sharp increase in related prizes The original data compiled and summarized in 4 appendices cover more than 150 award granting organizations in some 30 countries Our inventory includes upwards of 24 000 prizes awarded at more than 3 100 events the earliest of which is the first instance of Western architecture's seminal Grand Prix de Rome in France in 1720 A history of contemporary architecture is thus written through press releases that praise the merits of the heroes as much as their works and achievements And while awards can be vehicles that propel architecture forward they can also be Trojan horses in an era that is constantly on the lookout for event driven products small and big news and brand imaging *Constructing a Place of Critical Architecture in China* Guanghui Ding, 2016-03-09 For the past 30 years The Chinese journal Time Architecture Shidai Jianzhu has focused on publishing innovative and exploratory work by emerging architects based in private design firms who were committed to new material theoretical and pedagogical practices In doing so this book argues that the journal has engaged in the presentation

and production of a particular form of critical architecture described as an intermediate criticality as a response to the particular constraints of the Chinese cultural and political context The journal's publications displayed a dual critique a resistant attitude to the dominant modes of commercial building practice characterised by rapid and large scale urban expansion and an alternative publishing practice focusing on emerging independent architectural practitioners through the active integration of theoretical debates architectural projects and criticisms This dual critique is illustrated through a careful review and analysis of the history and programme of the journal By showing how the work of emerging architects including Yung Ho Chang Wang Shu Liu Jiakun and Urbanus are situated within the context of the journal's special thematic editions on experimental architecture exhibition group design new urban space and professional system the book assesses the contribution the journal has made to the emergence of a critical architecture in China in the context of how it was articulated debated presented and perhaps even produced within the pages of the publication itself The protagonists of critical architecture have endeavoured to construct an alternative mode of form and space with strong aesthetic and socio-political implications to the predominant production of architecture under the current Chinese socialist market economy To rebel against certain forms of domination and suppression by capital and power is by no means to completely reject them rather it is to use them

*Jugendstil Women and the Making of Modern Design* Sabine Wieber, 2021-10-21 Jugendstil that is Germany's distinct engagement with the international Art Nouveau movement is now firmly engrained in histories of modern art architecture and design Recent exhibitions and publications across the world explored Jugendstil's key protagonists and artistic centres to firmly anchor their activities within the trajectories of German modernism Women however continue to be largely absent from these revisionist accounts *Jugendstil Women and the Making of Modern Design* argues that women in fact actively participated in the cultural and socio-economic exchanges that generated German design responses to European modernity By drawing on previously unpublished archival material and a series of original case studies including Elsa Bruckmann's Munich salon the Photo Studio Elvira and the Debschitz School the book explores women's important contributions to modern German culture as collectors consumers critics designers educators and patrons This book offers a new interpretation of this vibrant period by considering diverse manifestations of historical female agency that pushed against historically entrenched conventions and gender roles The book's rigorous approach reshapes Jugendstil historiography by positing women's lived experiences against dominant ideologies that emerged at this precise moment In short the book advocates women as an integral part of the emergence dissemination and reception of Jugendstil and questions the deeply gendered histories of this key period in modern art architecture and design

*Global Perspectives on Critical Architecture* Gevork Hartoonian, 2016-03-03 Judging from the debates taking place in both education and practice it appears that architecture is deeply in crisis New design and production techniques together with the globalization of capital and even skilled labour have reduced architecture to a commodified object its aesthetic qualities tapping into the current pervasive desire for the spectacular These developments have changed the architect's role in the design and production processes of architecture Moreover critical architectural theories including those of Breton Heidegger and Benjamin which explored the concepts of technology modernism labour and capital and how technology informed the cultural along with later theories from the 1960s which focused more on the architect's theorization of his/her own design strategies seem increasingly irrelevant In an age of digital reproduction and commodification these theoretical approaches need to be reassessed Bringing together essays and interviews from leading scholars such as Kenneth Frampton Peggy Deamer Bernard Tschumi Donald Kunze and Marco Biraghi this volume investigates and critically addresses various dimensions of the present crisis of architecture It poses questions such as Is architecture a conservative cultural product servicing a given producer-consumer system Should architecture's affiliative ties with capitalism be subjected to a measure of criticism that can be expanded to the entirety of the cultural realm Is architecture's infusion into the cultural the reason for the visibility of architecture today What room does the city leave for architecture beyond the present delirium of spectacle Should the thematic of various New Left criticisms of capitalism be taken as the premise of architectural criticism Or alternatively putting the notion of criticality aside is it enough to confine criticism to the production of insightful and pleasurable texts **American Architect and the Architectural Review**, 1891 **Architecture**, 1925 **The**

Architecture's Evil Empire? Miles Glendinning, 2010-10-15 From Chicago to Toronto to Shanghai cities around the world have sprouted iconic buildings by celebrity architects like Frank Gehry and Daniel Libeskind that compete for attention both on the skyline and in the media But in recent years criticism of these extreme gestural structures known for their often exaggerated forms has been growing Miles Glendinning's impassioned polemic *Architecture's Evil Empire* looks at how today's trademark architectural individualism stretches beyond the well known works and ultimately extends to the entire built environment Glendinning examines how the global empire of the current modernism emerged particularly in relation to the excesses of global capitalism and explains its key organizational and architectural features placing its most influential theorists and designers in a broader context of history and artistic movements Arguing against the excesses of iconic architecture Glendinning advocates a vision of modern renewal that seeks to remedy the shattered and alienated look he sees in contemporary architecture Mingling scholarship with wry humor and a genuine concern for the state of architecture *Architecture's Evil Empire* will raise many heated debates and appeal to a wide range of readers from architects to historians interested in the built environment
