Fate, Providence and Moral Responsibility in Ancient, Medieval and Early Modern Thought Pieter d'Hoine, Gerd Van Riel, 2014-03-05 Essays on key moments in the intellectual history of the West This book forms a major contribution to the discussion on fate providence and moral responsibility in Antiquity the Middle Ages and Early Modern times Through 37 original papers renowned scholars from many different countries as well as a number of young and promising researchers write the history of the philosophical problems of freedom and determinism since its origins in pre socratic philosophy up to the seventeenth century The main focus points are classic Antiquity Plato and Aristotle the Neoplatonic synthesis of late Antiquity Plotinus Proclus Simplicius and thirteenth century scholasticism Thomas Aquinas Henry of Ghent They do not only represent key moments in the intellectual history of the West but are also the central figures and periods to which Carlos Steel the dedicatory of this volume has devoted his philosophical career *Ethics, Emotion and the Unity of the Self* (Routledge Revivals) Oliver Letwin, 2010-07-02 This Routledge Revival reissues Oliver Letwin's philosophical treatise *Ethics Emotion and the Unity of the Self* first published in 1987 which concerns the applicability of the artistic classifications of romanticism and classicism to philosophical doctrine Dr Letwin examines three particular theses associated with philosophical romanticism that there is within us a high self and a low self that there is a moral self in inevitable conflict with an amoral self and that there is a rational self disjoined from and in tension with a passionate self He argues that these notions of philosophical romanticism are in fact radically false and instead takes the view that man can be a unified being of the sort described by philosophical classicists But man has to work to achieve this status The intrinsic unity of the human personality is not a guarantee of a coherent life but a challenge to be met Modern Historians on British History 1485-1945 (Routledge Revivals) G.R. Elton, 2009-12-10 The twenty five year period following the Second World War saw an enormous expansion of activity in the writing of the history of modern Britain and with that expansion a major transformation of the state of knowledge in many parts of the area First published in 1970 this Revivals reissue which includes an extensive coverage of books and a reasonable selection of articles endeavours both to survey the work done and to reduce it to some comprehensible order It indicates achievements and probable lines of development and collects the materials that have grown around the main controversies Omitted are local history in the main and the history of empire and commonwealth except where the latter really arises out of the affairs of the mother country There are special sections on social history the history of ideas Scotland and Ireland **Encyclopedia of Renaissance Philosophy** Marco Sgarbi, 2022-10-27 Gives accurate and reliable summaries of the current state of research It includes entries on philosophers problems terms historical periods subjects and the cultural context of Renaissance Philosophy Furthermore it covers Latin Arabic Jewish Byzantine and vernacular philosophy and includes entries on the cross fertilization of these philosophical traditions A unique feature of this encyclopedia is that it does not aim to define what Renaissance philosophy is rather simply to cover the

philosophy of the period between 1300 and 1650 **Whitaker's Books in Print** ,1998 *Bibliographia Cartesiana* Gregor Sebba,2012-12-06 This book offers a new type of working tool for Cartesian studies It presents the literature of the last 160 years in alphabetical order Part Two combined with a systematic analytical survey Part One and a detailed topical index to the whole Part Three This organization makes it possible to turn bibliograph phy from a repository of references into a workshop of research The system atic survey of Part One and the topical index of Part Three together offer a mise au point of Descartes studies over their full historical and topical range The results have often been surprising and illuminating to the author and if his experience is any guide the reader too will begin to wonder about certain seemingly well settled points or marvel at the Protean shapes which our elusive philosopher assumes when mighty commentators force him to reveal his true nature A work which has been in the making for fifteen years must show the traces of expansion in scope and changes in evaluation *Bibliographia cartesiana* amends my Descartes chapter in *A Critical Bibliography of French Literature* v 3 1961 see no I9a and supersedes an earlier version of Parts One and Two published in 1959 under the main title Descartes and his Philosophy v 1 set no I8a Part I Introduction to Descartes Studies divides the field into eleven broad areas **The New Blackwell Companion to the Sociology of Religion** Bryan S. Turner,2016-10-03 THE NEW BLACKWELL COMPANION TO THE Sociology of Religion I enjoyed reading this book for its in depth examination of the complexities of the social forces that are shaping and are being shaped by religious groups around the world I certainly see this being of theoretical value for researchers engaging the new religious realities of our world *Sociology of Religion A Quarterly Review* The new companion is a timely and valuable work validly updating the original companion and a good addition to the reference shelves of any academic or specialist library Reference Reviews Reflecting recent developments in the field this companion provides a comprehensive introduction to the sociology of religion with a clear emphasis on comparative and historical approaches Covering all the areas relevant to undergraduate courses in this area the Companion begins by laying down the anthropological and sociological foundations of the study of religion and their contemporary developments It continues with an analysis of both traditional and contemporary forms of organization such as church sect typologies as well as megachurches and modern forms of spirituality The secularization and post secular society debates are considered in depth along with the globalization process fundamentalism charismatic movements and revivalism It also discusses the sociology of Buddhism Christianity Hinduism Islam Judaism and religions of China as well as the areas of American exceptionalism from de Tocqueville onwards religious nationalism women and piety movements and the spirituality of Native American communities Considering new developments in social theory and religion the collection concludes with a discussion of recent work that attempts to understand the future of religion blending the sociology of modern societies anthropological ethnography and philosophical inquiry *Emotions in Social Life* Gillian Bendelow,Simon J Williams,2002-09-11 The development of a sociology of emotions is crucial to our understanding of social life as they hold the key to our understanding

of social processes and sociological investigation First published in 1997 Emotions in Social Life consolidates the sociology of emotions as a legitimate and viable field of enquiry It provides a comprehensive assessment of the sociology of emotions using work from scholars of international stature as well as newer writers in the field It presents new empirical research in conjunction with innovative and challenging theoretical material and will be essential reading for students of sociology health psychology anthropology and gender studies

Mindfulness and Learning Terry Hyland, 2011-08-21 In recent decades education at all levels has been seriously impoverished by a growing obsession with standards targets skills and competences According to this model only a circumscribed range of basic cognitive skills and competences are the business of education whose main role is to provide employability credentials for people competing for jobs in the global economy The result is a one dimensional economistic and bleakly utilitarian conception of the educational task In Mindfulness and Learning Celebrating the Affective Dimension of Education Terry Hyland advances the thesis that education stands in need of a rejuvenation of its affective function the impact it has on the emotional social moral and personal development of learners Drawing on the Buddhist conception of mindfulness he advances a powerful argument for redressing this imbalance by enhancing the affective domain of learning Mindfulness and Learning Celebrating the Affective Dimension of Education shows how the concept and practice of mindfulness non judgmental present moment awareness and experience can enrich learning at all levels Mindfulness thus contributes to the enhanced achievement of general educational goals and helps remedy the gross deficiency of the affective emotional aspects of contemporary theory and practice The author outlines a mindfulness based affective education MBAE programme and shows how it might be introduced into educational provision from the early years to adult education with a view to harmonising the cognitive affective balance across the system

Emotions and Health, 1200-1700 Elena Carrera, 2013-07-04 Emotions and Health 1200 1700 examines the Aristotelian and Galenic understandings of the passions or accidents of the soul as alterations of both mind and body across a wide range of medieval and early modern cultural discourses Aquinas s Summa canonization inquests medical and natural philosophical texts drama and the London Bills of Mortality The essays in this collection focus on notions such as death from sorrow physiological explanations of fear physicians advice on the harmful and beneficial effects of anger and of sex medical and philosophical constructions of the melancholic subject and theological and medical discussions on the impact of music in moderating the passions and maintaining health Contributors include Nicole Archambeau Elena Carrera Penelope Gouk Angus Gowland Nicholas E Lombardo William F MacLehose Michael R Solomon and Erin Sullivan

The Clergy in Early Modern Scotland Michelle D. Brock, 2021 From the early percolation of Protestant thought in the sixteenth century through to the controversies and upheaval of the civil wars in the seventeenth century the clergy were at the heart of religious change in Scotland By exploring their lived experiences and drawing upon historical theological and literary approaches the essays here paint a fresh and vibrant portrait of ministry during the kingdom s long Reformation The contributors investigate

how clergy as well as their families and flocks experienced and negotiated religious social and political change through examination of both wider themes and individual case studies the chapters emphasise the flexibility of local decision making and how ministers and their families were enmeshed in parish dynamics while also highlighting the importance of clerical networks beyond the parish What emerges is a ministry that despite the increasing professionalisation of the role maintained a degree of local autonomy and agency The volume thus re focuses attention on the early modern European ministry offering a multifaceted and historically attuned understanding of those who stood at the forefront of Protestant reform **Moral**

Psychology in History: From the Ancient to Early Modern Period Virpi Mäkinen, Simo Knuuttila, 2024-10-09 This book provides a comprehensive study of major issues of moral psychology throughout history from ancient to early modern philosophy The volume focuses primarily on the Western history of philosophy but also deals with Jewish and Islamic heritage The Introduction chapter lays out the historical background in broad strokes giving the reader the lay of the land when it comes to the terms of analysis and their overall development within the Western tradition of moral psychology The book continues by studying and analyzing moral anthropology moral agency and motivation virtues and social and political commitments taking a thematic approach in a specific time period and focus on the most unique and or fruitful discussions about a particular historically situated discussion when it comes to thinking about questions and or problems in the field of moral psychology Aimed at both a layman and academic audience this book is of great interest to a broad readership

Contemporary East Asia and the Confucian Revival Jana S. Rošker, Nataša Visočnik, 2015-10-28 The so called Confucian revival which came to prominence at the end of the twentieth century and which is manifested in the philosophical stream of Modern Confucianism is one of the most significant elements within new Asian modernisation ideologies By providing new insights into the culturally conditioned structure of Asian societies this book contributes to the improvement of political economic and cultural relations between Western and East Asian countries Most classical Western modernisation theories have assumed that Confucianism would have to be abandoned if East Asia wanted to dev **Trauma and the Ontology of**

the Modern Subject John L. Roberts, 2017-09-11 Recent scholarship has inquired into the socio historical discursive genesis of trauma Trauma and the Ontology of the Modern Subject however seeks what has not been actualized in trauma studies that is how the necessity and unassailable intensity of trauma is fastened to its historical emergence We must ask not only what trauma means for the individual person s biography but also what it means to be the historical subject of trauma In other words how does being human in this current period of history implicate one s lived possibilities that are threatened and perhaps framed through trauma Foucauldian sensibilities inform a critical and structural analysis that is hermeneutically grounded Drawing on the history of ideas and on Lacan s work in particular John L Roberts argues that what we mean by trauma has developed over time and that it is intimately tied with an ontology of the subject that is to say what it is to be and means to be human He argues that modern subjectivity as articulated by Heidegger Levinas and Lacan is structurally

traumatic founded in its finitude as self withdrawal in time its temporal self absence becoming the very conditions for agency truth and knowledge The book also argues that this fractured temporal horizon as an effect of an interrupting Otherness or alterity is obscured through the discourses and technologies of the psy disciplines psychiatry psychology and psychotherapy Consideration is given to social political and economic consequences of this concealment Trauma and the Ontology of the Modern Subject will be of enduring interest to psychoanalysts and psychotherapists as well as scholars of philosophy and cultural studies **Founders of Modern Psychology** Granville Stanley Hall,1912 Revival:Fertility and Sterility in

Marriage - Their Voluntary Promotion and Limitation (1929) Theodoor Hendrik van de Velde,2018-12-18 In this work the eminent Dutch physician offers for the intelligent layman as well as for doctors psychologists teachers and social workers a guide to the causes and effects of fertility and sterility This book is the third and last volume in Dr Theodoor Hendrik van de Velde s trilogy on the problems of marriage and this book completes his internationally authoritative work on eugenics and volitional sex behavior Following his other book Ideal Marriage and Sexual Tensions in Marriage this book considers such problems as sexual abstinence and excess family limitation the achievement of desired pregnancy the causes and consequences physically and emotionally and sterility in women and impotence in men artificial insemination and the delicate personal and social aspects of undesired conception Scientific in its approach and simple in its presentation this book is for doctors and laymen It offers information that contributes to a healthier understanding of voluntary and planned conception and helps safeguard happiness in marriage The Vinyl Revival, Gender, and Collecting Aesthetics Veronica

Skrimsjö,2025-09-08 The book explores record collecting and vinyl consumption in the 21st century within the context of the vinyl revival The book highlights gender and how gender disparity is expressed in vinyl communities Veronica Skrimsj considers vinyl consumerism and collecting and how the collector identifies themselves within the socio political environment of the Global North with a particular focus on gender The book includes considerations of Record Store Day DIY and DI together cultures as well as the historic context needed to evaluate record collecting in the 21st century The work is aimed at both an academic and a general readership and as such strikes a more informal tone Personal experiences are emphasised throughout because vinyl consumers are not a homogenous group and it is only via personal experiences that we can understand the complexity of consumption The personal experience also helps make the content more relatable which is crucial as old stereotypes helped distance the collector from the everyday consumer Readers will benefit from a different perspective on record collecting and consumptions as the book highlights active creative consumption and provides an in depth innovative analysis of how gender inequality is constructed within this context **Illustrated Catalogue and**
