The Ascent of Information Caleb Scharf, 2022-06-14 Full of fascinating insights drawn from an impressive range of disciplines The Ascent of Information casts the familiar and the foreign in a dramatic new light Brian Greene author of The Elegant Universe Your information has a life of its own and it's using you to get what it wants One of the most peculiar and possibly unique features of humans is the vast amount of information we carry outside our biological selves But in our rush to build the infrastructure for the 20 quintillion bits we create every day we've failed to ask exactly why we're expending ever increasing amounts of energy resources and human effort to maintain all this data Drawing on deep ideas and frontier thinking in evolutionary biology computer science information theory and astrobiology Caleb Scharf argues that information is in a very real sense alive All the data we create all of our emails tweets selfies AI generated text and funny cat videos amounts to an aggregate lifeform It has goals and needs It can control our behavior and influence our well being And it's an organism that has evolved right alongside us This symbiotic relationship with information offers a startling new lens for looking at the world Data isn't just something we produce it's the reason we exist This powerful idea has the potential to upend the way we think about our technology our role as humans and the fundamental nature of life The Ascent of Information offers a humbling vision of a universe built of and for information Scharf explores how our relationship with data will affect our ongoing evolution as a species Understanding this relationship will be crucial to preventing our data from becoming more of a burden than an asset and to preserving the possibility of a human future

War Crimes in Japan-Occupied Indonesia J. Kevin Baird, Sangkot Marzuki, 2015-05-15 Shortly after Pearl Harbor the Japanese Imperial Army invaded the Dutch East Indies now known as Indonesia A deceitful campaign promoting Asian brotherhood recruited and coerced young Indonesian men to support the Japanese occupation with the sinister outcome that several million of them were worked to death or summarily killed as expendable slave laborers or romusha as they were called While many romusha disappeared from the record nine hundred were known victims of a brutal and immoral medical experiment perpetuated by an increasingly desperate Imperial Japan In anticipation of a land assault the Japanese needed a means to protect their troops from tetanus and they used these nine hundred men as human guinea pigs to test an insufficiently vetted vaccine Within days all nine hundred suffered the protracted agonizing death of acute tetanus With the Allied forces poised for victory the Japanese needed a scapegoat for this well documented incident if they were to avoid war

crimes prosecution They brutally tortured Achmad Mochtar a native Indonesian and renowned scientist along with his colleagues at the Eijkman Institute in Batavia now Jakarta until Mochtar signed a confession to the murders in exchange for the liberty of his fellow scientists The Japanese beheaded Mochtar weeks before the war ended War Crimes in Japan Occupied Indonesia unravels the deceit of the Japanese Army the reasons for the mass murder of the romusha and Mochtar s heroic role in these tragic events The end result finds justice for Mochtar and reveals the true extent of one of the least recognized war crimes of World War II
