Empiricism And History:

Empiricism and History Stephen Davies, 2003-05-16 In this concise introduction Steve Davies explains what historians

The New History Alun Munslow, 2016-09-17 The notion of history has always been one strenuously debated by both academics and the wider population This deeply provocative re thinking of our engagement with the past by one of the world's leading post modern historians takes that debate one step further Alun Munslow re assesses history in the light of post modernism and other intellectual challenges which have questioned the primacy of the modernist epistemology of empiricism In an original and stimulating vision of history that will intrigue all those seriously interested in the subject Munslow argues that history is not only about the sources but a literary construction Munslow concludes that history as a cultural narrative about the past can never tell us what the past really means This far reaching conclusion is based on the radical idea that the content of history is defined as much by the nature of the language used to represent and interpret that content as it is by research into the sources This suggests that history does not produce the most likely meaning of the past but rather can only generate alternative meanings The lead volume in a major new series on historical thinking and practice this is an accessible yet absorbing study that breaks new ground in discussing the stage history is at now and perhaps most engagingly the direction it will take in the future

Religion within the Limits of History Alone Demian Wheeler, 2020-09-01 Among the greatest challenges facing religious thinkers today is that created by historicism the notion that human beings and their myriad understandings of reality are utterly historical conditioned by contingent circumstances and tied to particular contexts In this book Demian Wheeler confronts the historicist challenge by delineating and defending a particular trajectory of historicist thought known as pragmatic historicism Rooted in the German Enlightenment and fully developed within the early Chicago school of theology pragmatic historicism is a predominantly American tradition that was philosophically nurtured by classical pragmatism and its intellectual siblings naturalism and radical empiricism *Religion within the Limits of History Alone* not only undertakes a detailed genealogy of this pragmatic historicist lineage but also sets forth a constructive program for contemporary theology by charting a path for its future development Wheeler shows that pragmatic historicism is an underdeveloped resource for contemporary theology since it offers a model for normative religious thought that is theologically compelling yet wholly nonsupernaturalistic deeply pluralistic unflinchingly liberal and radically historicist

Philosophy and Practice in Writing a History of Ancient Israel Megan Bishop Moore, 2009-07-01 An examination of current methodologies for writing Israel's history

How Economics Forgot History Geoffrey Martin Hodgson, 2001 Hodgson calls into question the tendency of economic method to explain all economic phenomena using the same catch all theories He argues that you need different theories and that historical contexts must be taken into account
