En Estas Tierras Elías Miguel Muñoz,1989 **Strike Fear in the Land** W. George Lovell,Christopher H. Lutz,Wendy Kramer,2020-05-07 The conquest of Guatemala was brutal prolonged and complex fraught with intrigue and deception and not at all clear cut Yet views persist of it as an armed confrontation whose stakes were evident and whose outcomes were decisive especially in favor of the Spaniards A critical reappraisal is long overdue one that calls for us to reconsider events and circumstances in the light of not only new evidence but also keener awareness of indigenous roles in the drama While acknowledging the prominent role played by Pedro de Alvarado 1485 1541 **Strike Fear in the Land** reexamines the conquest to give us a greater appreciation of indigenous involvement in it and sustained opposition to it Authors W George Lovell Christopher H Lutz and Wendy Kramer develop a fresh perspective on Alvarado as well as the alliances forged with native groups that facilitated Spanish objectives The book reveals for instance that during the years most crucial to the conquest Alvarado was absent from Guatemala more often than he was present he relied on his brother Jorge de Alvarado to act in his stead A pact with the Kaqchikel Maya was also not nearly as solid or long lived as previously thought as Alvarado s erstwhile allies soon turned against the Spaniards fomenting a prolonged rebellion Even the story of the K iche leader Tec n Um n hailed in Guatemala as a national hero who fronted native resistance undergoes significant revision **Strike Fear in the Land** is an arresting saga of personalities and controversies conveying as never before the turmoil of this pivotal period in Mesoamerican history Latin American Writers on Gay and Lesbian Themes David William Foster,1994-11-07 Gay and lesbian themes in Latin American literature have been largely ignored This reference fills this gap by providing more than a hundred alphabetically arranged entries for Latin American authors who have treated gay or lesbian material in their works Each entry explores the significance of gay and lesbian themes in a particular author s writings and closes with a bibliography of primary and secondary sources The figures included have a professed gay identity or have written on gay or lesbian themes in either a positive or negative way or have authored works in which a gay sensibility can be identified The volume pays particular attention to the difficulty of ascribing North American critical perspectives to Latin American authors and studies these authors within the larger context of Latin American culture The book includes entries for men and women and for authors from Latin American countries as well as Latino writers from the United States The entries are written by roughly 60 expert contributors from Latin America the U S and Europe Caribbean National Forest (N.F.) and Luquillo Experimental Forest, Land and Resource(s) Management Plan (LRMP) ,1997 **The Forum** Loretta Sutton Metcalf,Walter Hines Page,Joseph Mayer Rice,Frederic Taber Cooper,Arthur Hooley,George Henry Payne,Henry Goddard Leach,1896 Current political social scientific education and literary news written about by many famous authors and reform movements Forum and Column Review ,1897 Cosmos Alexander von Humboldt,1900 **Cosmos v.2, 1884** Alexander von Humboldt,1880 **The Discovery of North America** Harris,1892 **LBLA - La Biblia de las Américas / New**

Pandemic and Narration: Covid-19 Narratives in Latin America Andrea Espinoza Carvajal, Luis A. Medina Cordova, 2024-07-02 Pandemic and Narration Covid 19 Narratives in Latin America sheds light on how as Covid 19 spread infecting and killing millions across the world life not only continued to be experienced but also continued to be narrated By putting together this volume we help understand what happened in the region from a perspective in which unlike most of what we saw during the health emergency numbers statistics and percentages are not at the centre of the analysis The essays gathered here foreground something else the manifold ways Covid 19 was subjectively and collectively narrated in the news government reports political speeches NGO communications social media literature songs and many other media From a wide range of disciplinary approaches the contributors to this edition pay attention to how fictional and non fictional stories official discourses as well as personal and political accounts documented represented and shaped the health crisis laying bare how in Latin American countries the spread of the virus intersected with corruption gender based violence inequality and exclusion as with community solidarity and hope Readers will find that the focus on narrative provides an alternative source of knowledge on Latin America's Covid 19 experience Our perspective contrasts with the usual emphasis on death tolls infection rates weekly cases vaccination counts and the plethora of statistics that illustrated the gravity of the situation in the build up to during and after the peak of the crisis While extremely important to understand the situation numbers do not tell the whole story A comprehensive picture of the pandemic can only be achieved when the stories of the virus are accounted for Health after all is no stranger to narrative And neither is Latin America

The Worlds of Langston Hughes Vera M. Kutzinski, 2012-09-18 The poet Langston Hughes was a tireless world traveler and a prolific translator editor and marketer Translations of his own writings traveled even more widely than he did earning him adulation throughout Europe Asia and especially the Americas In The Worlds of Langston Hughes Vera Kutzinski contends that for writers who are part of the African diaspora translation is more than just a literary practice it is a fact of life and a way of thinking Focusing on Hughes's autobiographies translations of his poetry his own translations and the political lyrics that brought him to the attention of the infamous McCarthy Committee she shows that translating and being translated and often mistranslated are as vital to Hughes's own poetics as they are to understanding the historical network of cultural relations known as literary modernism As Kutzinski maps the trajectory of Hughes's

writings across Europe and the Americas we see the remarkable extent to which the translations of his poetry were in conversation with the work of other modernist writers Kutzinski spotlights cities whose role as meeting places for modernists from all over the world has yet to be fully explored Madrid Havana Buenos Aires Mexico City and of course Harlem The result is a fresh look at Hughes not as a solitary author who wrote in a single language but as an international figure at the heart of a global intellectual and artistic formation

Mapping Indigenous Land Ana Pulido Rull, 2020-05-28 Between 1536 and 1601 at the request of the colonial administration of New Spain indigenous artists crafted more than two hundred maps to be used as evidence in litigation over the allocation of land These land grant maps or mapas de mercedes de tierras recorded the boundaries of cities provinces towns and places they made note of markers and ownership and at times the extent and measurement of each field in a territory along with the names of those who worked it With their corresponding case files these maps tell the stories of hundreds of natives and Spaniards who engaged in legal proceedings either to request land to oppose a petition or to negotiate its terms Mapping Indigenous Land explores how as persuasive and rhetorical images these maps did more than simply record the disputed territories for lawsuits They also enabled indigenous communities and sometimes Spanish petitioners to translate their ideas about contested spaces into visual form offered arguments for the defense of these spaces and in some cases even helped protect indigenous land against harmful requests Drawing on her own paleography and transcription of case files author Ana Pulido Rull shows how much these maps can tell us about the artists who participated in the lawsuits and about indigenous views of the contested lands Considering the mapas de mercedes de tierras as sites of

cross cultural communication between natives and Spaniards Pulido Rull also offers an analysis of medieval and modern Castilian law its application in colonial New Spain and the possibilities for empowerment it opened for the native population An important contribution to the literature on Mexico s indigenous cartography and colonial art Pulido Rull s work suggests new ways of understanding how colonial space itself was contested negotiated and defined **Land Reform, Land Settlement and Cooperatives** ,2007 *Paths to a Middle Ground* Charles A. Weeks,2010-07-07 Spanish imperial attempts to form strong Indian alliances to thwart American expansion in the Mississippi Valley Charles Weeks explores the diplomacy of Spanish colonial officials in New Orleans and Natchez in order to establish posts on the Mississippi River and Tombigbee rivers in the early 1790s Another purpose of this diplomacy urged by Indian leaders and embraced by Spanish officials was the formation of a regional Indian confederation that would deter American expansion into Indian lands Weeks shows how diplomatic relations were established and maintained in the Gulf South between Choctaw Chickasaw Creek and Cherokee chiefs and their Spanish counterparts aided by traders who had become integrated into Indian societies He explains that despite the absence of a European state system Indian groups had diplomatic skills that Europeans could understand full scale councils or congresses accompanied by elaborate protocol interpreters and eloquent metaphorical language *Paths to a Middle Ground* is both a narrative and primary documents Key documents from Spanish archival sources serve as a basis for the examination of the political culture and imperial rivalry playing out in North America in the waning years of the 18th century Prehispanic Settlement Patterns in the Northwestern Valley of Mexico Jeffrey R. Parsons,2008-01-01 This monograph presents data from a systematic regional archaeological survey carried out over an area of ca 600 square kilometers during May through December 1973 by the University of Michigan Museum of Anthropology
