poca Puede parecer una obviedad recordar que los musulmanes estuvieron en la península durante más de ocho siglos y que su estancia determinó numerosos aspectos de nuestra identidad nacional como el flamenco los dulces navideños gran parte de nuestro lenguaje o el germen de nuestra poesía. No obstante aún es necesario recordar la historia de la estancia musulmana en España y también es necesario hacerlo de un modo divulgativo y accesible a cualquier persona. Esta es la tarea a la que Ana Martos se enfrenta en Breve Historia de Andalucía presentar la historia de un pueblo que supo convivir con los antiguos habitantes de la península y que trajo además la civilización y la cultura que España había perdido tras la marcha de los romanos. El islam hereda el saber grecorromano y el saber oriental por su pacífica expansión por Persia y por Bizancio ese saber se había perdido en la Europa gobernada por los bárbaros. A la Península Ibérica llegaron invitados por un rey visigodo para que le ayudaran en sus luchas intestinas. Los musulmanes aprovechando la debilidad y la fragmentación visigoda decidieron quedarse y trajeron con ellos un esplendor cultural que ya no se recordaba. Breve Historia de Andalucía nos presenta de un modo sintético y desmitificador la gloria del califato de Córdoba creado por los Omeyas pero también las divisiones y los enfrentamientos dinásticos que provocaron la entrada de almorávides y almohades y la consecuente división en reinos independientes. La resistencia cristiana que había convivido pacíficamente con el islam aprovecha esa división para ir recuperando territorios. La recuperación total de la península no se daría hasta que los Reyes Católicos unan los reinos de Castilla y Aragón y aprovechen la debilidad nazarí para conquistar Granada.

Breve historia de la Reconquista José Ignacio de la Torre, 2023-04-01. La fascinante historia del proceso de recuperación de Hispania bajo control musulmán desde el año 711. Desde los primeros germen del reino Astur-Leonés y la expansión cristiana en el siglo XIII hasta las Taifas las Navas de Tolosa y la entrega final del reino nazarí de Granada a los Reyes Católicos en 1492. Una rigurosa y actualizada historia de los 800 años que definen el medievo peninsular. El año 711 marcará profundamente a la península ibérica. La concatenación de diversos factores que provocaron el caos en el reino visigodo permitir la invasión peninsular del creciente poder islámico al punto que en unos pocos años todo el territorio ibérico quedó bajo su control e incluso se adentraron en territorio franco. Los cristianos tan sólo lograron poner un mínimo de resistencia y reorganizarse en las montañas del norte Cordillera Cantábrica y Pirineos donde se crearon diversos núcleos germen de los reinos medievales de Asturias León y Navarra y los condados Portucalense Castilla Aragón y los condados catalanes. Estos núcleos cristianos gracias a campañas militares decididas lograron asentarse y prosperar aunque muy lentamente especialmente el reino astur-leonés ya que Zaragoza suponía un freno muy importante para el desarrollo de los núcleos pirenaicos. Tras el momento de las campañas de Almanzor y la formación de los reinos de Taifas que supusieron la desmembración del califato la balanza del poder cambiaba siendo la iniciativa ya propia de los reinos cristianos en detrimento de los taifas. Ni la ayuda de las tribus almorávides almohades y benimerines supusieron un cambio sustancial en la situación. Los reinos cristianos siguieron ocupando plazas musulmanas especialmente en el siglo XIII momento en que el que Castilla y León ocupa Andalucía Portugal logra reconquistar el Algarve y Aragón puede incluso hacer
