Containing information on everything from how to make a good cup of coffee or tea to producing the perfect pie, this early cook book is highly recommended for those with an interest in making traditional British food and would make for a fantastic addition to culinary collections. Contents include English Breakfast, Frying and Grilling, Home made Bread, Huffkins, Wiggs, Oatcakes etc, Luncheon, Dinner and Supper Dishes, Appetisers and Food Adjuncts, Soups, Sauces and Stuffings, Fish, The Roast Meat of Old England, Oven Cookery and Stews, Boiled Meats etc. Many vintage books such as this are becoming increasingly scarce and expensive. John Pilger: Britain is a well documented nation. We know a lot about the characteristics of our society, who we are and what we do. We know much less about what we think and feel about our world and ourselves. The indispensable annual British Social Attitudes survey fills this gap. It compiles, describes and comments on a range of current social attitudes. The information is derived from interviews carried out by the National Centre for Social Research's own interviewers among a nationwide sample of around 3,500 people each year. The series seeks to chart changes in British social values over a period of time in relation to other changes in society and is core funded by the Gatsby Charitable Foundation. A full report is published each year. The 17th Report summarizes and interprets data from the most recent survey as well as making comparisons with findings from previous years. The data are publicly available through the ESRC Data Archive at the

Stackhouse Jr., 2008-04-02 What should be the Christian's attitude toward society When so much of our contemporary culture is at odds with Christian beliefs and mores it may seem that serious Christians now have only two choices transform society completely according to Christian values or retreat into the cloister of sectarian fellowship In *Making the Best of It* John Stackhouse explores the history of the Christian encounter with society the biblical record and various theological models of cultural engagement to offer a more balanced and fruitful alternative to these extremes He argues that rather than trying to root up the weeds in the cultural field or trying to shun them Christians should practice persistence in gardening God's world and building toward the New Jerusalem Examining the lives and works of C S Lewis Reinhold Niebuhr and Dietrich Bonhoeffer for example and direction Stackhouse suggests that our mission is to make the most of life in the world in cooperation with God's own mission of redeeming the world he loves This model takes seriously the pattern of God's activity in the Bible and in subsequent history of working through earthly means through individuals communities and institutions that are deeply flawed but nonetheless capable of accomplishing God's purposes Christians must find a way to live in this world and at the same time do work that honors God and God's plan for us In an era of increasing religious and cultural tensions both internationally and domestically the model that Stackhouse develops discourages the all or nothing attitudes that afflict so much of contemporary Christianity Instead he offers a fresh and refreshingly nuanced take on the question of what it means to be a Christian in the world today      The Idea of Englishness Krishan Kumar, 2016-02-24 Ideas of Englishness and of the English nation have become a matter of renewed interest in recent years as a result of threats to the integrity of the United Kingdom and the perceived rise of that unusual thing English nationalism Interrogating the idea of an English nation and of how that might compare with other concepts of nationhood this book enquires into the origins of English national identity partly by questioning the assumption of its long standing existence It investigates the role of the British empire the largest empire in world history in the creation of English and British identities and the results of its disappearance Considering the myths of the English the ideas and images that the English and others have constructed about their history and their sense of themselves as a people the distinctiveness of English social thought in comparison with that of other nations the relationship between English and British identity and the relationship of Englishness to Europe this wide ranging comparative and historical approach to understanding the particular
