The Labour Markets of Emerging Economies Sandrine Cazes, Sher Verick, 2013-08-09 The past few decades have witnessed the economic and geopolitical rise of a number of large middle income countries around the world This volume focuses on the labour market situations trends and regulations in these emerging economies Perspectives on Global Development 2012 Social Cohesion in a Shifting World OECD, 2011-11-18 This report analyses the impact of Shifting wealth on social cohesion largely focusing on high growth converging countries **World Development** Prodromos Panayiotopoulos, Gavin Capps, 2001-06-20 Do the structures of the world economy invariably work against the interests of the Third World What is the impact of industrialisation How does it affect people and their livelihoods gender relations the environment movements for social justice and democracy World Development offers answers to these questions A comprehensive introductory guide for students teachers volunteers and NGO workers in development World Development examines the substantive issues surrounding development industrialisation and globalization and places them within a historic context It outlines the historical development of the world economy and assesses the current prospects for developing countries The book contains in depth analyses of how particular industries operate at local and global levels drawing from case studies on textiles tourism and copper There are also case studies of specific countries including South Korea Cyprus Mexico China and Spain Spatial Justice, Contested Governance and Livelihood Challenges in Bangladesh Lutfun Nahar Lata, 2023-03-09 This book analyses the key livelihood and governance challenges that the urban poor experience while navigating public spaces in Dhaka Bangladesh Using data collected through extensive fieldwork in Bangladesh the book contributes to the emerging scholarship of resilient cities gendered space spatial justice and poverty in cities of the Global South The book assesses the everyday politics of survival for the urban poor how the poor negotiate different levels of formal and informal modes of power and governance and the dynamics of gender It explores how tenuous counter spaces are created when these factors combine to provide a valuable framework for work in other urban contexts in the Global South beyond Bangladesh Using cross disciplinary perspectives this book investigates the issues of human development urban governance urban planning and the gendered nature of urban space to outline how these issues enable or constrain poor people s livelihood practices and their rights to be in the city Exploring debates surrounding placemaking and inclusive cities and their connection to poor people s livelihoods this book will be of interest to scholars in the field of Sociology Development Studies Planning Geography and Anthropology *Learning from the South Korean Developmental Success* Ilcheong Yi, Thandika Mkandawire, 2014-04-13 This analysis of South Korea s development experience can present lessons for development in the 21st century Situating the development experience of South Korea within the framework of the capability enhancing state this volume examines the empowering institutions and policies of South Korea between 1945 and 2000 Gender Inclusion in India Sabiha Hussain, Suraiya Tabassum, 2023-06-16 This book not only aims at highlighting

existing inequalities between men and women but also their efforts to overcome these challenges especially so in women belonging to marginalized communities It tries to explore systematic denial of rights to marginalized women opportunities and resources that are normally and easily available to other members of a group and which are fundamental to social political integration and observance of human rights such as housing employment healthcare civic engagement and democratic participation The authors through their in depth discussions and writings have tried to sketch Equal World as imagined by John Stuart Mill in the opening lines of *The Subjugation of Women* This book is co published with Aakar Books Print edition not for sale in South Asia India Sri Lanka Nepal Bangladesh Pakistan and Bhutan *Regional Economic Outlook, October 2011, Sub-Saharan Africa* International Monetary Fund. African Dept.,2011-10-26 This year looks set to be another encouraging one for most sub Saharan African economies Reflecting mainly strong demand but also elevated commodity prices the region s economy is set to expand by more than 51.4 percent in 2011 For 2012 the IMF staff s baseline projection is for growth to be higher at 53.4 percent owing to one off boosts to production in a number of countries There are however specters at the feast the increase in global food and fuel prices amplified by drought affecting parts of the region has hit the budgets of the poor and sparked rising inflation and hesitations in the global recovery threaten to weaken export and growth prospects The projection for 2012 for the region is highly contingent on global economic growth being sustained at about 4 percent A further slowing of growth in advanced economies curtailing global demand would generate significant headwinds for the region s ongoing expansion with more globally integrated countries likely to be most affected Policies in the coming months need to tread a fine line between addressing the challenges that strong growth and recent exogenous shocks have engendered and warding off the adverse effects of another global downturn In some slower growing mostly middle income countries without binding financial constraints policies should clearly remain supportive of output growth even more so if global growth sputters Provided the global economy experiences the currently predicted slow and steady growth most of the region s low income countries should focus squarely on medium term considerations in setting fiscal policy while tightening monetary policy wherever nonfood inflation has climbed above single digits In the event of a global downturn subject to financing constraints policies in these countries should focus on maintaining planned spending initiatives while allowing automatic stabilizers to operate on the revenue side For the region s oil exporters better terms of trade provide a good opportunity to build up policy buffers against further price volatility *A New European Agenda for Labour Mobility* Anna Turmann,2004 **Precarious Work** Arne L. Kalleberg,Steven P. Vallas,2017-12-08 This volume presents original theory and research on precarious work in various parts of the world identifying its social political and economic origins its manifestations in the USA Europe Asia and the Global South and its consequences for personal and family life **Globalization, Labour Market Institutions, Processes and Policies in India** K.R. Shyam Sundar,2019-05-14 This book explores the effects of product market and labour market reforms on firms labour institutions

and labour rights in the economic and industrial relations system in India India has over the years liberalized its economy through a broad range of reforms concerning the product market and complementing these it has also sought to reform the labour market and the industrial relations system The book assesses the impact of these reforms on both the formal and informal labour markets in India critically examines the labour processes and uncovers describes precarious conditions of labour in various industries and occupations and analyzes the dynamics involved in the making of industrial employment and labour policies in contemporary India *New Frontiers in Feminist Political Economy* Shirin Rai, Georgina

Waylen, 2013-11-07 This volume brings together the work of outstanding feminist scholars who reflect on the achievements of feminist political economy and the challenges it faces in the 21st century The volume develops further some key areas of research in feminist political economy understanding economies as gendered structures and economic crises as crises in social reproduction as well as in finance and production assessing economic policies through the lens of women's rights analysing global transformations in women's work making visible the unpaid economy in which care is provided for family and communities and critiquing the ways in which policy makers are addressing or failing to address this unpaid economy

New Directions in Development Economics Mats Lundahl, Benno Ndulu, 2005-08-10 This volume is divided into two thematic parts economic growth or its absence in developing countries and contributions to the debate on the role of the state versus the market It outlines possible policy prescriptions of relevance both in the North and South **The New Poverty Strategies** P. Mosley, 2002-12-17 The contributors to this collection examine the progress and impact of the new poverty strategies which have governed the policies of development agencies over the past decade While in some areas progress has been impressive in others it has been hampered by persisting inequalities civil conflict institutional gaps and turbulence in the international financial system In light of this The New Poverty Strategies proposes a range of new policies and donor initiatives designed to achieve greater success in poverty reduction in the new century *The New Palgrave Dictionary of Economics*, 2016-05-18 The award winning The New Palgrave Dictionary of Economics 2nd edition is now available as a dynamic online resource Consisting of over 1 900 articles written by leading figures in the field including Nobel prize winners this is the definitive scholarly reference work for a new generation of economists Regularly updated This product is a subscription based product **State-permeated Capitalism in Large Emerging Economies** Andreas

Nölke, Tobias ten Brink, Christian May, Simone Claar, 2019-08-30 This book systematically analyzes the economic dynamics of large emerging economies from an extended Comparative Capitalisms perspective Coining the phrase state permeated capitalism the authors shift the focus of research from economic policy alone towards the real world of corporate and state behaviour On the basis of four empirical case studies Brazil India China South Africa the main drivers for robust economic growth in these countries from the 2000s until the 2010s are revealed These are found in particular in mutual institutional compatibilities of state permeated capitalism in their large domestic markets and beneficial global economic constellations

Differences in their institutional arrangements are explored to explain why China and India have been more economically successful than Brazil and South Africa The authors highlight substantial challenges for the stability of state permeated capitalism and assess the potential future growth sustainability and likely pitfalls for these large emerging economies Opening further avenues for empirical and theoretical research this book raises questions for the future of the global economic order and should appeal to academics graduate students and advanced undergraduates in politics economics economic sociology and development studies It should also prove a worthwhile and provocative read for development practitioners and policy makers

Transition, Recession and Labour Supply Paolo Verme, 2020-11-25 This title was first published in 2001 Exploring the relationship between the recession and labour supply in Kazakhstan during the 1990s this volume develops an innovative new model of the transitional process in the context of the CIS It departs from conventional economic models explaining the process of transition transferring the focus of attention from labour demand to labour supply with a view to clarifying how the transitional recession has affected households and in turn how these changes modified the supply of labour Paolo Verme examines how the dynamic of the reallocation of labour between state and private enterprises has been drastically altered by the growth of self employment and also takes a much needed look at the contribution of other factors offering an original explanation of this most important economic phenomenon

Rural Wage Employment in Developing Countries Carlos Oya, Nicola Pontara, 2015-05-22 There is a striking scarcity of work conducted on rural labour markets in the developing world particularly in Africa This book aims to fill this gap by bringing together a group of contributors who boast substantial field experience researching rural wage employment in various developing countries It provides critical perspectives on mainstream approaches to rural agrarian development and analysis of agrarian change and rural transformations from a long term perspective This book challenges the notion that rural areas in low and middle income countries are dominated by self employment It purports that this conventional view is largely due to the application of conceptual frameworks and statistical conventions that are ill equipped to capture labour market participation The contributions in this book offer a variety of methodological lessons for the study of rural labour markets focusing in particular on the use of mixed methods in micro level field research and more emphasis on capturing occupation multiplicity The emphasis on context history and specific configurations of power relations affecting rural labour market outcomes are key and reoccurring features of this book This analysis will help readers think about policy options to improve the quantity and quality of rural wage employment their impact on the poorest rural people and their political feasibility in each context

Social Insurance, Informality, and Labor Markets Markus Frölich, David Kaplan, Carmen Pagés, Jamele Rigolini, David Robalino, 2014-12-04 Most countries implement social protection programs to help individuals manage risks such as unemployment disability illness longevity or death In many middle income countries these are often based on a Bismarckian model named after Otto von Bismarck where benefits are financed by contributions levied on salaried employment In

countries with a large informal sector however only a fraction of the population is covered by this system and non contributory programs have been added or are planned to increase coverage This can create distortions in the labor market and the book is about policies to expand the coverage of social insurance programs to all workers without reducing incentives to job creation and formal work While few would argue against the need and social merits of social insurance and social assistance programs there are growing concerns about their unintended consequences on labor markets because of poor design The programs can distort incentives and individual behaviors in ways that either reduce employment levels and or promote informality ultimately affecting productivity and economic performance For instance high social security contribution rates can reduce formal employment badly designed unemployment benefits can reduce incentives to keep search and take jobs and fragmented social assistance programs can become a tax on formal labor and encourage informality The book reviews the evidence regarding the effects of social insurance and social assistance programs on labor market outcomes and discusses options to improve their design and implementation The book focuses particularly on middle income countries in Latin America and Asia with a large informal sector and suggests ways to reduce these distortions and better manage and finance the subsidies to make coverage universal while creating good jobs The book compiles expert papers from the joint conferences of the World Bank WB the Institute for the Study of Labor IZA and the Inter American Development Bank IDB on Employment and Development

The Broken Ladder Anirudh Krishna, 2017-08-07 Despite becoming a global economic force why does India win so few Olympic medals and have so many people living in poverty Why have opportunities not become available more broadly How can growing individuals assist with the task of building a growing economy Krishna presents a refreshingly unusual perspective of emergent realities drawing on the stories of everyday lives of people like you and me and those less privileged Through decades long investigations living in villages and slum communities the author presents eye opening details of missed opportunities and immense untapped talent that can be harnessed with tremendous consequences for equity and growth Offering possible solutions for inequality and those in need *The Broken Ladder* is a comprehensive and fascinating account of development strategies in a fast growing yet largely agrarian developing economy

Globalisation and Trade Oliver Morrissey, Igor Filatotchev, 2001 The papers collected in this volume report the results of research on issues dealing with the failure of globalization to benefit poor countries They explain how exports could be improved for these countries and reveal the role that UK supermarkets play in African poverty
