Oram, 2014-05-21 Academic collection practices in recent years have extended to the private libraries of notable individual authors As a consequence book historians have become more interested in the study of provenance of the contents of these libraries while literary scholars have devoted more attention to authorial annotations At the same time the Internet has encouraged both scholarly and hobbyist reconstructions of private libraries see for example the Legacy Libraries on Librarything com Although there are many bibliographies and reconstructions of the libraries of authors this is the first general consideration of these libraries and serves as an introduction to best practices for academic libraries in their acquisition cataloging and issues of access This collection begins with principal editor Richard Oram's historical overview of writers libraries and institutional collecting focusing primarily on English language authors The co editor Joseph Nicholson has provided a definitive review of best cataloging and arrangement practices that facilitate scholarly access The bookseller Kevin Mac Donnell discusses the marketing of these collections and obstacles to placing intact author libraries in institutions Also included are case studies by Amanda Golden and David Faulds relating to the

A Political Companion to Ralph Waldo Emerson Alan Levine, 2011-09-16 From before the Civil War until his death in 1882 Ralph Waldo Emerson was renowned and renounced as one of the United States most prominent abolitionists and as a leading visionary of the nation's liberal democratic future Following his death however both Emerson's political activism and his political thought faded from public memory replaced by the myth of the genteel man of letters and the detached sage of individualism In the 1990s scholars rediscovered Emerson's antislavery writings and began reviving his legacy as a political activist A Political Companion to Ralph Waldo Emerson is the first collection to evaluate Emerson's political thought in light of his recently rediscovered political activism What were Emerson's politics A Political Companion to Ralph Waldo Emerson authoritatively answers this question with seminal essays by some of the most prominent thinkers ever to write about Emerson Stanley Cavell George Kateb Judith N Shklar and Wilson Carey McWilliams as well as many of today's leading Emerson scholars With an introduction that effectively destroys the pernicious myth about Emerson's apolitical individualism by editors Alan M Levine and Daniel S Malachuk A Political Companion to Emerson reassesses Emerson's famous theory of self reliance in light of his antislavery politics demonstrates the importance of transcendentalism to his politics and explores the enduring significance of his thought for liberal democracy Including a

substantial bibliography of work on Emerson's politics over the last century *A Political Companion to Ralph Waldo Emerson* is an indispensable resource for students of Emerson American literature and American political thought as well as for those who wrestle with the fundamental challenges of democracy and liberalism *Nineteenth Century Prose*, 2003

Lecturing the Atlantic Tom F. Wright, 2017-04-06 In the early nineteenth century the public lecture emerged as one of the Anglo American world's most important cultural forms On both sides of the Atlantic audiences and performers transformed a cultural practice with origins in the medieval cloister into an unexpected flashpoint medium of public life In the United States as part of the lyceum movement lecturing became crucial to literary and political life multiple social reform movements and the rise of public intellectualism offering speakers from across the cultural spectrum a platform from which to promote their ideas and explain contemporary life *Lecturing the Atlantic* argues for a new interpretation of this neglected institution It reorients our understanding of the lyceum by seeing it as an international and cross media phenomenon patterned by cultural investment in an Anglo American commons Tom F Wright shows how some of the mid century North Atlantic world's most enduring cultural figures such as Frederick Douglass William Makepeace Thackeray and Ralph Waldo Emerson as well as fascinating marginal voices such as Lola Montez and John B Gough used lecture hall discussions of a transatlantic imaginary to offer powerful commentaries on slavery progress comedy order tradition and reform Crucially this world was a matter as much of print as performance since as the book reveals a remarkable culture of newspaper commentary allowed oratory to resonate far beyond the realm of the lecture hall Through a series of inventive readings of Anglo American relations as understood through performance and print re mediation Wright connects the transatlantic turn in cultural studies to important recent debates in media theory and public sphere scholarship *Lecturing the Atlantic* speaks to those interested in the literature and history of Victorian Britain and the early US to students of performance communication and rhetoric and all those seeking a deeper understanding of nineteenth century public culture New Makers of Modern Culture Wintle Justin, 2013-05-13 *New Makers of Modern Culture* is the successor to the classic reference works *Makers of Modern Culture* and *Makers of Nineteenth Century Culture* published by Routledge in the early 1980s The set was extremely successful and continues to be used to this day due to the high quality of the writing the distinguished contributors and the cultural sensitivity shown in the selection of those individuals included *New Makers of Modern Culture* takes into full account the rise and fall of reputation and influence over the last twenty five years and the epochal changes that have occurred the demise of Marxism and the collapse of the Soviet Union the rise and fall of postmodernism the eruption of Islamic fundamentalism the triumph of the Internet Containing over eight hundred essay style entries and covering the period from 1850 to the present *New Makers* includes artists writers dramatists architects philosophers anthropologists scientists sociologists major political figures composers film makers and many other culturally significant individuals and is thoroughly international in its purview Next to Karl Marx is Bob Marley next to John Ruskin is Salmon

Rushdie alongside Darwin is Luigi Dallapiccola Deng Xiaoping runs shoulders with Jacques Derrida Julia Kristeva with Kropotkin Once again Wintle has enlisted the services of many distinguished writers and leading academics such as Sam Beer Bernard Crick Edward Seidensticker and Paul Preston In a few cases for example Michael Holroyd and Philip Larkin contributors are themselves the subject of entries With its global reach New Makers of Modern Culture provides a multi voiced witness of the contemporary thinking world The entries carry short bibliographies and there is thorough cross referencing There is an index of names and key terms **Against Slavery** Mason Lowance,2000-02-01 An invaluable resource to students scholars and general readers alike Amazon com This collection assembles more than forty speeches lectures and essays critical to the abolitionist crusade featuring writing by William Lloyd Garrison Frederick Douglass Lydia Maria Child Wendell Phillips Harriet Beecher Stowe and Ralph Waldo Emerson For more than seventy years Penguin has been the leading publisher of classic literature in the English speaking world With more than 1 700 titles Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors as well as up to date translations by award winning translators **Conservation Reconsidered** Charles T. Rubin,2000 The prominent contributors in Conservation Reconsidered establish a fundamentally original view of the conservation movement and the impact of public policy on nature This collection of essays articulate the belief that the thinkers and actors who helped develop the conservation movement notably John Muir Theodore Roosevelt Gifford Pinchot and Aldo Leopold have been seriously misunderstood by scholars who have analyzed them in the context of contemporary environmental debates Conservationism the contributors argue was a diverse movement dealing with difficult questions about the relationship of human beings to nature in a modern liberal democratic state The essays place conservationism within the framework of 19th century American political thinkers including Darwin Emerson Thoreau and Olmsted and they illuminate perennial questions about citizenship and our place in the natural world Conservation Reconsidered takes a new look at what is problematic about the legacy of American conservationism and explores worthy alternatives to the dominant environmentalist thinking of today **Emerson's Literary Philosophy** Reza Hosseini,2020-10-21 This book situates Ralph Waldo Emerson in the tradition of philosophy as spiritual exercise arguing that the defining feature of his literary philosophy is the conviction that there is an inherent link between moral persuasion and literary excellence Hosseini persuasively argues that the Emersonian project can be viewed as an extension of Socrates call for a return to the beginning of philosophy to search for a way of revolutionizing our ways of seeing from within Examining Emerson's provocative style of writing Hosseini contends that his prose is shaped by a desire to bring about psychagogia or influencing the soul through the power of words This book furthermore examines the evolving nature of Emerson's thoughts on scholarly action and its implications his religious temperament as an aesthetic experience of the world through wonder and the reasons for a resounding acknowledgment of

despair in his essay *Experience* In the concluding chapter Hosseini explores the depth of Emerson's engagement with the classical Persian poets and argues that what we may call his literary humanism is informed by Persian Adab exemplified in the writings of Rumi Hafiz and Saadi Weaving together themes from Persian philosophy and Emersonian transcendentalism Hosseini establishes Emerson's way of seeing as refreshingly relevant showing that the questions he tackled in his writings are as pressing today as they were in his time

A House Divided Mason I. Lowance Jr., 2018-06-05 This anthology brings together under one cover the most important abolitionist and unique to this volume proslavery documents written in the United States between the American Revolution and the Civil War It makes accessible to students scholars and general readers the breadth of the slavery debate Including many previously inaccessible documents *A House Divided* is a critical and welcome contribution to a literature that includes only a few volumes of antislavery writings and no volumes of proslavery documents in print Mason Lowance's introduction is an excellent overview of the antebellum slavery debate and its key issues and participants Lowance also introduces each selection locating it historically culturally and thematically as well as linking it to other writings The documents represent the full scope of the varied debates over slavery They include examples of race theory Bible based arguments for and against slavery constitutional analyses writings by former slaves and women's rights activists economic defenses and critiques of slavery and writings on slavery by such major writers as William Lloyd Garrison John Greenleaf Whittier Walt Whitman Henry David Thoreau and Ralph Waldo Emerson Together they give readers a real sense of the complexity and heat of the vexed conversation that increasingly dominated American discourse as the country moved from early nationhood into its greatest trial

Fleshing Out America Carolyn Sorisio, 2002-12-01 Can we work through the imaginative space of literature to combat the divisive nature of the politics of the body That is the central question asked of the writings Carolyn Sorisio investigates in *Fleshing Out America* The first half of the nineteenth century ushered in an era of powerful scientific and quasi scientific disciplines that assumed innate differences between the types of humankind Some proponents of slavery and Indian Removal as well as opponents of women's rights supplanted the Declaration of Independence's higher law of inborn equality with a new set of laws proclaiming the physical inferiority of women Negroes and Aborigines *Fleshing Out America* explores the representation of the body in the work of seven authors all of whom were involved with their era's reform movements Lydia Maria Child Frances E W Harper Ralph Waldo Emerson Margaret Fuller Walt Whitman Harriet Jacobs and Martin R Delany For such American writers who connected the individual body symbolically with the body politic the new science was fraught with possibility and peril Covering topics from representation spectatorship and essentialism to difference power and authority Carolyn Sorisio places these writers' works in historical context and in relation to contemporary theories of corporeality She shows how these authors struggled in diverse and divergent ways to flesh out America to define even defend the nation's body in a tumultuous period Drawing on Euro and African American authors of both genders who are notable for their aesthetic and political differences *Fleshing Out*

America demonstrates the surprisingly diverse literary conversation taking place as American authors attempted to reshape the politics of the body which shaped the politics of the time American Aesthetics Walter B. Gulick, Gary Slater, 2020-05-01 Although there are distinctly American artists Walt Whitman Herman Melville Grandma Moses Thomas Hart Benton and Andy Warhol for example very little attention has been devoted to formulating any distinctively American characteristics of aesthetic judgment and practice This volume takes a step in this direction presenting an introductory essay on the possibility of such a distinctly American tradition and a collection of essays exploring particular examples from a variety of angles Some of the essays in this collection extend pragmatist and process insights about the important place aesthetics has in molding and assessing experience Other essays examine the place of American aesthetics in relation to such particular forms of art as painting literature music and film Three essays attend to the aesthetic aspects of a flourishing life In each of the essays American aesthetics is understood to arise out of deeply felt personal historical and cultural backgrounds Consequently not only are such relatively abstract notions as harmony fit elegance proportion and the like involved in aesthetic judgment but also religious political and social factors become embroiled in aesthetic discernment Thus the ongoing pattern of American aesthetics is shown to be distinguishable from such other varieties of aesthetic thought as analytic aesthetics New Criticism and postmodern approaches to aesthetics
