Passage to the World Kevin Brown, 2013-04-30 From the early nineteenth century onwards literally millions of people left their homes to cross the seas Some like the convicts transported to Australia had no choice others like the indentured Indian and Chinese labourers had almost no alternative but the vast majority were driven to escape war famine or grinding poverty in Europe by seeking a new life abroad Whatever their circumstances and wherever their destination the one experience they all shared in common was the sea voyage This book is centred on the rite of passage that marked the transition from one life to the other tracing the story of the emigrant through a fresh look at original sources and first hand accounts from the decision to emigrate the journey to the port and the voyage itself to arrival in the new world It describes the emigrant trade the differing conditions on board sailing ships and steamers convict and coolie ships and the perils of overcrowding epidemics fire shipwreck and even cannibalism It also investigates the varied receptions emigrants were likely to face not necessarily the welcome promised the homeless tempest tost by the Statue of Liberty This unprecedented population shift left few European families untouched by emigration while the present day populations of the Americas and Australasia are dominated by the descendants of those who made the journey This gives the emigrants story a universal interest

the Earth Beauvais a Cathedral of the Seas Titanic and a Cathedral of the Air Hindenburg and tells their stories from the viewpoint of material transcendence By interweaving their stories he reveals how technologies can succeed in elevating human beings and in taking them to whole new realms of being he explores and explains why these experiences are Transports of Delight

Ocean Liners Anthony Burton, 2024-07-30 There has always been a romance around ocean liners but this book looks behind the romance to show the reality of travelling the oceans of the world The book starts with the first scheduled transatlantic crossings in the age of sail then moves on through the development of the steamers and ends in the present day when ocean liners have given way to airliners All aspects of the subject are discussed The experience of travelling by sea varied enormously from the luxury of first class travel to the often brutal conditions endured by immigrants Ship design developed in the race between competing companies to provide the most powerful ships

But while technology came into the fundamental design when it came to decor for many of the great liners the interiors looked back with a romanticised view of the past It is not always realised that a great liner might have almost as many crew as passengers and this looks at all those who kept the ships running from the black gang in the engine room to the captain on the bridge The result is a rounded view of what it meant to travel on some of the greatest ships ever built
