### **Images of Childhood**

C. Philip Hwang, Michael E. Lamb, Irving E. Sigel, 2014-02-04 The twentieth century will surely be remembered as a period of remarkable calamity vigorous intellectual activity and striking technological progress For the first time in history the development of rapid forms of communication and transportation shrunk the effective size of the world so that many of its citizens were made aware of events occurring in far distant locations and came to appreciate cultural differences more directly than was previously possible Among the many trends and events for which the century may be remembered however one will surely be the ascendancy of science and scientific thinking Given adequate resources and ample time scientists have

argued they will be able to reduce the mysteries of the universe as well as the mysteries of life and death to objectifiable processes and events The editors of this book draw attention to the implicit and explicit images of childhood that various disciplines especially development psychology have constructed These sometimes unspoken metaphors have enduring value in that they provide a means of drawing together integrating and interpreting otherwise disparate findings or conclusions They also provide a ready means of conveying the fruits of scientific research to the people who constitute its primary consumers The contributors strive to show that the images of childhood that each professional implicitly carries in her or his head vary across historical epochs just as they vary across cultures and subcultures Perhaps even more alarmingly some of these images seem to reflect the politically correct ideology of particular times and places at least as much as they represent the objective findings they purport to summarize This volume's main objective is to unpackage cultural and historical variations in the conception of childhood in order to make clearer those which might be considered universal aspects of behavioral and psychological development and those which must be seen as temporary cultural constructions or images The specific aims of this volume are to delineate images of childhood in diverse cultural subcultural and historical contexts illustrate how these images of childhood are manifested in popular proverbs as well as in distinct patterns of childrearing broadly conceived to include aspects of parental behavior childcare arrangements education indoctrination and the assignment of responsibilities indicate how these images of childhood are manifest in the development and implementation of educational and social policies as well as in the legal status of children consider whether children are believed to have a privileged place in society and whether age graded constraints limit their roles and participation in society and evaluate the extent to which cultural images affect the ways in which developmental processes are viewed or understood *Children's Literature Comes of Age* Maria Nikolajeva, 2015-08-27 Originally published in 1996 A detailed analysis of the art of children's literature covering world literature for children children's literature as a canonical art form the history of children's literature from a semiotic perspective and epic polyphony chronotope intertextuality and metafiction in children's literature

**The Asylum** Johan Theorin, 2013-03-14 FROM THE WINNER OF THE CWA INTERNATIONAL DAGGER 2010 FOR THE DARKEST ROOM A compelling and scary psychological thriller Sunday Mirror Who amongst us can really say they're sane Jan has just started working at the Dell nursery But this is no normal nursery It's linked to a high security asylum by a dimly lit underground tunnel which is used for the children to visit their parents Who are some of the most dangerous psychopaths in the country And Jan has complicated reasons for being here There's something he's not telling people about his past And there's someone in the asylum who he really wants to see [The Global History of Childhood Reader](#) Heidi Morrison, 2013-03-05 The Global History of Childhood Reader provides an essential collection of chapters and articles on the global history of childhood The Reader is structured thematically so as to provide both a representative sampling of the historiography as well as an overview of the key issues of the field such as childhood as a social construct commonalities and

differences globally and why the twentieth century was not the century of the child for most of the world's children The Reader is divided into four parts Theories and methodologies of the history of childhood Constructions of childhood in different times and places Children's experiences in different times and places Usage of the past to articulate solutions to problems facing children today Topics covered include theories and methodologies in the global history of childhood sources for writing a global history of childhood education gender disability race class and religion the individual in history and emotions violence labour and illiteracy With introductions that contextualize each of the four parts and the articles further reading sections and questions this is the perfect guide for all students of the history of childhood

*Baptism in Times of Change* Harald Hegstad, Steinunn Arnþrúður Björnsdóttir, Magnus Evertsson, Jonas Adelin Jorgensen, Jyri Komulainen, 2025-04-10 What happened to baptism in Nordic countries Traditionally most newborns were baptized into the Lutheran majority churches The rapid decline of this practice in recent decades has sparked reflection on the church's role in society and on the cultural and theological meaning of baptism in a secularized society The decline of infant baptism has made way for new practices and ecclesial strategies This book analyzes these developments from historical social scientific and theological perspectives comparing material from the five Nordic Lutheran folk churches The essays gathered here provide an extensive overview of research and resources connected to baptism in the Nordic folk churches over the last two decades but they also contribute constructive theological reflection on baptism's wider implications This anthology emerged from the larger joint Nordic project Baptism in Times of Change conducted between 2020 and 2022 The project was part of the joint Nordic initiative Churches in Times of Change focusing on changes in ecclesial practice and theology in the Nordic region
