Ultimately isn't it a very holy and religious obligation to cultivate and educate the divine spiritual element that manifests anew in every human being who is born. Isn't this educational service a religious service in the highest sense of the word. Isn't it so that our holiest stirrings which we dedicate to religious feeling must all come together in our service at the altar when we attempt to cultivate the divine spiritual aspect of the human being whose potentials are revealed in the growing child. Science that comes alive. Art that comes alive. Religion that comes alive. In the end that's what education is. Rudolf Steiner. Sept 7 1919. Sponsored by the industrialist Emil Molt and inspired by the philosopher Rudolf Steiner the first Free Waldorf school opened in Stuttgart Germany on September 7 1919. Since then the Waldorf movement has become international with many hundreds of schools around the world. This book contains all of the more or less informal talks given by Steiner in the Stuttgart school from 1919 to 1924. Included are speeches given by him at various school assemblies parents evenings and other meetings. Steiner spoke here with spontaneity warmth and enthusiasm. Readers will find a unique glimpse of the real Steiner and how he viewed the school and the educational philosophy he brought into being. Leadership in Waldorf schools has a specific history. Whereas 40 years ago it was hardly allowed to formally exist because it represented power and hierarchy now it is commonplace to have a headmaster rector or director. In this book Hans Passenier examines the development of leadership and organisation in Waldorf schools. He starts at the origins and finds principles that can help develop school organisations and their leadership in the future. In four parts he unfolds the foundations the tools to develop leadership and organisations and finally describes exercises to support that development as a school community. His thesis is that education is about children being diverse having different abilities. Also that the educator should not be a carpenter but a gardener. The image of the school as an organism is guiding in which the school community is a place for the inner development of each individual in that school community. The horizontal and vertical dimensions guide the view of both leadership and organisational design. Student-Friendly Teaching Approaches Asim Ari, 2022-02-21. sciences **The Essentials of Education** Rudolf Steiner,1998-02 5 lectures Stuttgart April 8 11 1924 CW 308 These talks were given during an educational conference in 1924 They are the last public lectures given by Rudolf Steiner in Germany According to one member of his audience Seventeen hundred people listened to him the prolonged applause from this great crowd at the end of every lecture was deeply moving while at the end of the last lecture the applause became an ovation that seemed as if it would never end This kind of adoration was the result not only of who Steiner was as an individual but of what he accomplished as well People had already begun to realize the potential and the promise for the future that Waldorf education held out to the children of the world The Essentials of Education together with its companion book The Roots of Education present a remarkable synthesis of what Waldorf education is and what it can become The Waldorf experiment had matured for five years since 1919 when Steiner helped to establish the first Waldorf school He had guided that school from its beginning observing very closely all that happened As a result he was able to distill and present the essentials of Waldorf education with elegance as well as with the urgency he felt for the coming times German source Die Methodik des Lehrens und die Lebensbedingungen des Erziehens GA 308 **Waldorf Education and Anthroposophy 1** Rudolf Steiner,1995

Practical Advice to Teachers Rudolf Steiner,2000-06 A seer sees more than meets the eye using the eyes of the soul along with the physical eyes As all seeing is a form of cognition higher seeing is the key to higher cognition or knowing For human beings the spiritual world is hidden deep within the disguise of the world available to the senses and deep within the human psyche and human consciousness enmeshed as it usually is in the physical senses cannot easily be aware of both worlds The human soul is the link between the physical sense imbued body and direct experience of the spirit because it has the latent ability to focus consciousness into any number of levels The ability to determine the focus of awareness is our great gift and our great challenge In this practical and accessible guidebook Dennis Klocek building on the alchemical tradition and the Western path of initiation developed by Rudolf Steiner shows how the soul s latent ability can be awakened by conscious acts of will and rhythmical practices The practices begin wherever we are in our everyday lives and take the seeker through the levels of concentration the ability to create and hold an inner image contemplation the ability to transform the image and make it dynamic and meditation the ability to reverse the image or think it backward into inner silence After presenting the practical exercises along with commentary that identify and lay out the steps Klocek shows us how the path can be followed through to an understanding of a seemingly impenetrable alchemical image of the soul s journey as he guides us up the Alchemical Mountain to heartfelt thinking Through such a journey it becomes possible for human beings to live as spiritual beings among other spiritual beings For those who are serious about developing faculties of higher knowing and seeing The Seer s Handbook is a unique practical and friendly handbook of exercises meditations and insightful commentary that will guide both beginners and more advanced students along the path to higher worlds *Waldorf Education and Anthroposophy 2* Rudolf Steiner,1996-10 Julian is without doubt one of the most wonderful of all Christian voices She gets

greater and greater in my eyes as I grow older Thomas Merton Other than what is contained in her singular work Showings of Divine Love we know almost nothing of the personal life of Julian We do however know something about her background as a recluse or anchoress and the social cultural and political life of late fourteenth century England Although nothing of it is mentioned in her Showings the times in which Julian lived were fraught with political social and economic upheavals in both Church and state There are indeed many parallels to the present age This in part helps to explain why Julian speaks so loudly to today after six hundred years of silence On the thirteenth of May 1373 Julian received a series of sixteen visions centered on the person and sufferings of Jesus and on the Trinity A short time later she wrote an account of them in twenty five chapters known as the Short Text Twenty years later after much prayer and reflection she wrote another account consisting of eighty six chapters called the Long Text During this important interim Julian the visionary became Julian the theologian Julian s visions correspond to the classic understanding of such phenomena Some visions were spiritual locutions In this experience God spoke directly to her heart in such a way as to communicate with absolute unquestioned clarity the desired message Actual words were probably not used but the visionary was left with no doubt as to the authenticity or the meaning of the message Other visions were visual or experienced as coming through the corporeal senses These resulted from the direct action of God on the imagination Still others were spiritual visions not easily expressed and usually concerned with the deeper mysteries of God such as the Trinity Many of Julian s visions were combinations of all three types This book is not a translation or paraphrase of Julian s Showings of Divine Love Rather it is a commentary in 86 brief meditative chapters intended to provide information reflections and further theological understanding that will enhance the modern Christian s reading of Julian s book It can be read independently prior to reading Julian s book or along with it chapter by chapter
