

EMOTION-FOCUSED COPING

Emotion-focused coping refers to strategies to manage stress that involve emotional regulation. It is juxtaposed to the problem-focused approach.

DEFINITION

Lazarus and Folkman (1984) make a distinction between problem-focused and emotion-focused coping:

"a distinction that we believe is of overriding importance, namely, between coping that is directed at managing or altering the problem causing the distress and coping that is directed at regulating emotional response to the problem" (p. 150).

EXAMPLES

Journaling: Writing about stressful events is a way of releasing negative energy. Describing what happened can increase perceptions of control and help regulate emotions.

Selective Attention: After a difficult day at work, focusing on the positive things that happened can reduce the anxiety of the negative events that occurred that day.

Emotion-Focused Couples' Communication Program Dr. Joshy Vazhappilly CMI, 2018-04-06 There is no perfect marriage In all relationships there will be stages of fluctuations Intimacy and understanding may not always remain at a high level Couples may sometimes feel that they are living with strangers their passion ebbing out like a receding tide and they may feel trapped in the same old arguments over finance or kids And it is normal too Life may seem to go in a monotonously

boring way with all its daily stresses propelling emotional distance between the partners and ushering in boredom in the bedroom. However, the problem arises when partners neglect or fail to address these fluctuations in a constructive and positive manner. This will lead them to coldness and distance, conflicts of interests, disagreements in decisions, aggressiveness and violence in communication, even to the point of physical aggression and ultimately to the degeneration and dissolution of marriage and family. EFCCP proposes a novel style of communication based on Nonviolent Communication by Marshall Rosenberg and Emotionally Focused Therapy by Johnson. The program will teach the couples how to engage in a compassionate communication and how to relate to their own feelings and needs as well as to that of their partners in a constructive manner leading to reconnection and healing.

Emotion Focused Family Therapy with Children and Caregivers Mirisse Forouge, 2018-03-15. This book introduces emotion focused family therapy (EFFT) as an evidence-based intervention for children through the integration of parent trauma treatment and emotion focused techniques. A team of expert authors, including the founders of EFT and EFFT, contribute to the chapters in which recent findings from longitudinal clinical trials are woven into a rich and deeply presented overview of using EFFT practically with clients. This immensely practical book also provides illustrative case studies, intervention strategies, and do's and don'ts at the end of each chapter.

Emotion Regulation Ivan Nyklíček, Ad Vingerhoets, Marcel Zeelenberg, 2007-10-23. An increasing number of studies have been conducted on the role of expression and regulation of emotion in health. Emotion Regulation addresses the question of these studies from diverse angles while encompassing conceptual, developmental, and clinical issues. Central concepts discussed in this volume that are related to health include coping styles and aggression, alexithymia, emotional intelligence, emotional expression and depression, emotional expression and anxiety disorders, in addition to the emotional competence in children.

Coping C. R. Snyder, 1999-03-25. Most people take the process of coping for granted as they go about their daily activities. In many ways, coping is like breathing, an automatic process requiring no apparent effort. However, when people face truly threatening events, what psychologists call stressors, they become acutely aware of the coping process and respond by consciously applying their day-to-day coping skills. Coping is a fundamental psychological process, and people's skills are commensurately sophisticated. This volume builds on people's strengths and emphasizes their role as positive copers. It features techniques for preventing psychological problems and breaks from the traditional research approach, which is modeled on medicine and focuses on pathology and treatment. Collecting both award-winning research and new findings, this book may well set the agenda for research on stress and coping for the next century. These provocative and readable essays explore a variety of topics, including reality negotiation, confessing through writing, emotional intelligence, optimism, hope, mastery-oriented thinking, and more. Unlike typical self-help books available at any newsstand, this volume features the work of some of the most eminent researchers in the field. Yet like those books, it is written for the general reader as well as for the specialist and includes numerous practical suggestions and techniques. It will prove an invaluable tool for a wide range of

readers **Handbook of Emotions** Lisa Feldman Barrett, Michael Lewis, Jeannette M. Haviland-Jones, 2018-03-20
 Recognized as the definitive reference this handbook brings together leading experts from multiple psychological subdisciplines to examine one of today's most dynamic areas of research. Coverage encompasses the biological and neuroscientific underpinnings of emotions as well as developmental, social, and personality, cognitive, and clinical perspectives. The volume probes how people understand, experience, express, and perceive affective phenomena and explores connections to behavior and health across the lifespan. Concluding chapters present cutting edge work on a range of specific emotions. Illustrations include 10 color plates. New to This Edition: Chapters on the mechanisms, processes, and influences that contribute to emotions such as genetics, the brain, neuroendocrine processes, language, the senses of taste and smell; Chapters on emotion in adolescence and older age and in neurodegenerative dementias; Chapters on facial expressions and emotional body language; Chapters on stress, health, gratitude, love, and empathy. Many new authors and topics extensively revised with the latest theoretical and methodological innovations. A Choice Outstanding Academic Title. *Understanding Consumer Decision Making* Thomas J. Reynolds, Jerry C. Olson, 2001-05 This edited volume will help business and academic researchers understand the means-end approach to understanding consumers. This is a qualitative marketing research method to gain customer insight into decision making. Emotional Development and Families Julie Hakim-Larson, 2017-09-30 This lively and engaging book conducts a thorough review of the current research literature in developmental psychology and socialisation and then clearly links theory to practical applications in both clinical and everyday situations. Life's first important lessons on how to handle emotions often emerge early on within family relationships forming the foundation for emotional development over the life span. Couples, siblings, parents, and extended family members all have profound influences on each other's emotional lives as well as on the lives of the children they are socialising. Students can expect to learn a wide range of relevant topics bringing together theory, practice, and research in a comprehensive and lucid way. Covering the main topics of emotional development, this textbook reviews contemporary research and makes recommendations for how students might practically use the findings in their future studies or in practice. Filled with a wealth of resources and suggestions for further reading, this book is an ideal supplementary text suitable for students taking undergraduate and postgraduate courses on developmental psychology, family psychology, and child clinical psychology. This book may also be helpful for those taking undergraduate and postgraduate courses on social work, counselling education, studies, and family studies. *Emotion-Focused Cognitive Therapy* Mick Power, 2010-01-29 Emotion Focused Cognitive Therapy argues that it is time for a new focus in psychotherapy based on emotion and presents an innovative approach to the treatment of clients with emotional disorders. Features an approach based on the latest work in cognition and emotion. Offers psychologists an innovative way of working in therapy. Draws on the strengths evidence-based cognitive behavioural and interpersonal approaches to psychotherapy. Provides relevant case examples throughout the text. Additional resources for the
